A couple of timber cruisers from Portland are up in the 3-6 country this week verifying the work of Mr. Tuttle who got through about two weeks ago. to have a hen which they call "Sairey Gamp," a character in one of Dickens work. Another hen is known as Mrs. Pankhurst because of her belligerent attitude. Another one is called Mary Garden because of her fondness for scratching in the garden. Still another is known as Gaby Dealys after the celebrated Polish dancer, because she balances so nicely on the picket fence presumably thinking it is the footlights.

An old adage tells of the folly of killing the goose that lays the golden egg. How about the farmer and rancher of Oregon who are developing this state? Having to pay high for money at banks and firm usurers, robbed by commission men and paying big taxes, frightful freight rates and all their produce hammered down and everything they buy forced up, there is discrimination all along the line. "Burn down your cities" says Secretary Bryan and "your country will soon build them up again, but destroy your country and grass will grow in the streets of your cities and towns."

No one need tell again of the uselessness of an old woman when "Mother" Jones, 81 years of age, has put down an armed rebellion West Virginia where a lot of greedy coal barons were engaged in the pleasant pastime (?) of shooting down coal miners who refused to be skinned any longer. Sweet Land of Liberty!

Work will begin on the Cherryville hill this week. The planks have been secured from Dixon's mill at Firwood. Earl Ault will haul planks with the probable assistance of others.

Mr. Clark who lives on a claim south of town, says his cow wintered all right on sal-lal brush with the assistance of a little grain. He now feeds his horse these bushes, mowing them daily. He says with a very little grain the animal does very well. The sal-lal bushes contain an element that is highly nutritious.

Another decision was rendered in the so-called Southern Pacific R. R. land grant at Portland last week by Judge Wolverson, and this decision declared the land forfeited to the government. This was a foregone conclusion as no other decision could have been rendered in view of the fact that the high-priced lawyer for the R. R. admitted they had persistently broken the contract in every particular and submitted without argument. If you or I had so plainly violated a contract we would have paid the penalty long ago.

The bodies of a daughter of Wm. Richardson of this place and the body of a son of Mr. and Mrs. Berdenstein were moved from a part of the grave yard near Dr. Botkins that was not in the original grave yard and been put unoriginally outside of the limits. Other bodies will be moved later.

It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place, thus affording any desired distribution of light.

No other lamps possess these qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
