Our 6th. Anniversary Sale

Will be Celebrated by making the biggest
CUT IN PRICES Ever Heard of in Lents

Did you ever stop to figure up the interest you are paying for the privilege of running a monthly account? If not, try it and see what a difference when you pay cash as you go. Look your bills over and compare with these prices.

This will interest you. Come down to the Store and see the many surprises we have. Remember this sale continues every day in June 1913. You will want to take advantage of this Sale and lay in a supply of goods for a month or two ahead. Everything will be guaranteed as represented or your money refunded. If you don't know us, ask your neighbor. Everybody is our friend, and everybody is invited to this Special Big Sale. Come in and we will treat you just as nice as we know how.

When the KNOCKER tells you that we cannot give you the goods as represented at the prices named, and that we will do you someday, just make up your mind that he is sore and wants to knock. We can do anything we want to in the way of making prices, and for this sale we want to and will make the prices as named.

When We Tell You So, It's It

WE CANNOT give everybody a handsome present, but at the close of this Sale we will give away 25 presents, among these presents will be five nice dinner sets, 35 to 42 peices in each set. To every customer purchasing \$1.00 worth of merchandise at the prices named below, we will give a numbered ticket and at the conclusion of the sale we will dispose of the presents through an outside disinterested committee and the customers themselves. We are doing this for a Big Advertising Stunt. See the presents in the north window of the Store.

A Question In Mathematics

Did you ever stop to think how much interest you are paying on the monthly account you run? If not, stop and figure a little and see the difference between "paying as you go" and "running a monthly bill." Think this over and see for yourself.
