**His Side Line.**  
"That poet who wrote an ode to a bunch of daffodils and won the \$10,000 prize offered by the eastern magazine—is that all he does for a living?" "By no means. He is also an authority on onion culture and is a staff contributor for three agricultural journals."

**Hard to Please.**  
An old citizen in a country village, being asked for a subscription toward repairing the fence of the graveyard, declined, saying: "I subscribed toward improving that burying ground long ago and my family hasn't had no benefit from it yet."

**A Six Foot Clock.**  
A six-foot clock which stands in an office at Carlisle, Pa., has been operated by electricity from the earth since 1870. A wire runs from the earth to a magnet in the clock, and so constant has the supply of electricity been that the clock has run well-nigh continuously since it was invented.

**To Save Closet Space.**  
Metal towel racks, that have flat places at each curved end to screw to a wall, will almost double the capacity of your closet if screwed to the bottom of the lower shelf. A dozen garment hangers may be suspended from each one.

**An Enviably Record**  
969 Students registered during the past year; the largest number in the history of our school.  
1467 Calls for office help last year. This is the biggest demand for help ever recorded in the history of any college in the Northwest, and affords us an excellent opportunity to Guarantee positions to our Graduates.  
Write us at once for information concerning our courses: Bookkeeping, Shorthand, Penmanship, Typewriting, Telegraphy.

Portland, Ore.

**Determining Factor.**  
Technique, sooner or later, determines the fate of a play.—William T. Price.

**Summer Annoyances**  
such as prickly heat, ivy poisoning, insect bites and offensive perspiration are quickly relieved by applying Tyree's Antiseptic Powder. 25c. at drug stores or write J. S. Tyree, Washington, D. C., for free sample.—Adv.

**For a Red Blotchy Skin**  
**The Remarkable Action of a Famous Remedy and Some Facts About It.**

The skin is but a net work of fine blood vessels. And it is a perfectly natural consequence that any influence in the blood that is a condition of ill health makes its first appearance in the skin. There are certain medicinal properties that follow the course of the blood stream and the influence of these properties is that of an antidote. This is why S. S. S., the best known blood purifier, has such a positive action in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or glandular activity to select from the blood or from this fine net work of blood vessels in the skin, those elements which it requires for regeneration.

Thus pimples, acne, eczema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of S. S. S. The action of S. S. S. in the cellular tissues of the body serves the active purpose of stimulating each cellular part to the healthy and judicious selection of its own essential nutriment. Not only this, but if from the presence of some disturbing poison a condition of disease arises, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence.

This is why skin troubles vanish so readily and why they do not return. Under the influence of S. S. S. this fine net work of blood vessels in the skin is constantly taking from the blood the nutrition required for healthy tissue and the cause of disease is just as constantly being removed, scattered and rendered harmless. These facts are more fully explained in a book on skin troubles sent by The Swift Specific Co., 149 Swift Bldg., Atlanta, Ga. You will find S. S. S. on sale at all drug stores. Get a bottle today and banish all skin afflictions.

**SWIMMING BOOT IS HELPFUL**

**Paddle Blade Moves Like Fin When Leg Is Kicked Out, Giving Increased Speed and Power.**

Strictly speaking, this should not be called a boot at all, but the device fits around the leg in such a manner as to justify the name. It was invented by an Ohio man and is said to enable a swimmer to get much greater speed with much less effort. A hinged blade is fastened to the leg by straps that go around the limb and under the foot. When the leg is drawn forward through the water the blade lies close against it, but when the kick back comes the blade stands out straight and acts like a fish's fin to afford resistance to the water. There are stops at top and bottom to prevent the blade from making the complete semi-circle on its forward

**Swimming Boot.**  
movement. Obviously, a device of this kind greatly increases the power behind the stroke and enables a swimmer to make remarkable headway.

**GAME OF IDENTITY PLEASING**

**One Player Is Asked Questions Until He Recognizes Character He Then Represents.**

There are two ways of playing the game. The first method is to send one player out of the room. The others then decide upon a well-known character in history or fiction whom the absent one is to represent. He is then recalled and each of the others, in turn, asks him a question about himself until he recognizes the character that has been thrust upon him. On his return the player may be assailed with such questions as: "Did you like life on an island?" "You must have grown tired of keeping your arms crossed on your chest for so many pictures, didn't you?" "How many of your brothers were kings?" "Is your present residence in Paris to your liking?" It would probably require no more questioning to indicate that Napoleon was the character chosen.

The other form of the game allows the person who goes out to decide upon a character to represent and then act it out for the others to guess. Sometimes the company is divided into two groups and each side in turn acts out an event in the career of the character chosen.

**PRICE OF ELECTRIC MOTORS**

**Ingeniously Devised Board Used in Toy Department for Demonstrating New Apparatus.**

In the electrical toy department of a large department store is this ingeniously devised board for demonstrating electric motors. In front of each motor is a small, low voltage, incandescent lamp about one inch in diameter with the price of the motor painted upon the glass. A transformer is used and the lights are kept

**Practicable Counter Display.**  
burning all the time, says the Popular Electricity. Push buttons enable the salesman to run any motor and light its lamp.

**Five Senses.**  
A teacher was trying to have his pupils form some conception of the five senses, but one little chap failed to grasp any idea of the lecture, says the Youngstown Telegram.

"You know I am here, don't you, Johnnie?"  
Johnnie nodded assent.  
"Well, how do you know?"  
"I can see you."  
"Exactly; there you have the first of the senses, 'seeing.' Now, if you should close your eyes would you still know I am here?"  
"Yes, sir."  
"And how would you know?"  
"With his face beaming with intelligence, Johnnie quickly responded:  
"I know, teacher; I can smell, too."

**Seasoned Youth.**  
"Don't go near that old fellow in the pasture, sonny," the farmer warned the fresh-air child. "He's terribly fierce."  
"I tried him out a'ready," the lad replied. "He ain't as fierce as an automobile in the city. Got any bears or lions round here?"

**TO SERVE UNEXPECTED GUEST**

**Simple Refreshments That May Easily Be Got Ready When Casual Visitors "Drop In."**

The simple refreshments herewith suggested make a good little supper when entertaining a few friends in the evening. The bill of fare is very brief, being nothing more than peanut sandwiches, salmon cups and coffee.

The plates may be artistically arranged by placing the salmon cup on a lettuce or nasturtium leaf. Pickles should be cut in four pieces, but left intact at the stem end. The sandwiches and the cup of coffee can be placed in the remaining space on the plate. A fork and spoon are the only necessary pieces of silver. A small service tray with jug and glasses would provide the water for the entire assembly.

**Recipe for Peanut Butter**—One-half pound of shelled roasted peanuts, ground with the finest burr on the meat chopper. (Place only a few nuts at a time in the chopper, as they clog badly and stop the machine.) Add three tablespoons of butter or two tablespoons of cream, one teaspoon of sugar, and salt to taste, if cream is used. Mix thoroughly with a silver knife and spread on buttered slices of bread. A lettuce leaf may be added.

**Recipe for Salmon Cups**—Prepare potatoes as for mashing, being sure that they are beaten fluffy and light. Cream or milk should be added gradually while beaten. Form into cups or cone-shaped mounds and place in warming oven. Have ready one can of salmon, boned and flaked. Add to this one-half cup of white sauce, made by creaming together one tablespoon of butter, one of flour, one-half cup of milk and a pinch of salt, and cook until thick. Add to the heated salmon and place one heaping spoonful on the top of each potato mound and serve at once.

**NOW BLACKBERRIES ARE RIPE**

**Some Jars of the Fruit, Either Spiced or Made into Jam, Will Be Appreciated in a Few Months.**

For spiced blackberries allow to every seven pounds of fruit half a pound of vinegar and half a pint of blackberry juice, three pounds and a half of granulated sugar, an ounce of powdered cinnamon, half an ounce of cloves and an ounce of powdered allspice. Let this preparation cook steadily for an hour to an hour and a half, until it is thoroughly reduced.

For blackberry jam allow three-quarters of a pound of sugar to a pound of fruit. Mix the sugar with the fruit and set it on the back of the stove. Let it stand there until the juice begins to show. Press the fruit occasionally with a spoon to start the juice. Then bring the mixture forward over the fire and let it cook for an hour, stirring it almost continually to keep it from burning. It should cook rather quickly. When very thick pour it into marmalade jars and let it stand for 24 hours before covering it with paraffin in the usual way.

**Cooling Water Without Ice.**  
Water is made deliciously cool by putting it at night into jars of coarse pottery and placing these out doors where the night air can reach them. The pottery is so porous that some of the water will ooze out during the night, leaving the rest delightfully cool. Glazed pottery cannot be used for the purpose. Each jar must be protected by a covering of fine wire, mosquito netting or cheesecloth to keep the contents clean and yet admit the air.

**To Give a Better Light.**  
When a lamp fails to give a good, clear light and begins to burn dimly it is a sign that the burner needs boiling. Take the lamp apart, remove the wick and then boil both burner and wick in hot water into which has been thrown some washing soda. When every part has been thoroughly cleaned and dried, put in the wick, trim it, fill the lamp with oil, and you will find that it will burn as well as ever.

**Berkley Pudding.**  
Put one-half teaspoon baking soda in boiling water, then one cup molasses. Add half cup melted butter, then one cup milk and 3 1/2 cups flour. Beat all smooth and add one teaspoon cinnamon, half teaspoon cloves, one nutmeg, grated, and a pinch of salt. Put in a bag, giving plenty of room for it to swell. Put in boiling water and cook about three hours. Serve hot with any good sauce.

**Green Peppers Pickled Whole.**  
Wash peppers and let stand overnight in salted cold water. A cup of salt to a gallon of water. In the morning scald vinegar enough to cover them with a small piece of alum dissolved in it. Put a few whole spices and celery seed in the bottom of a stone jar, pack the peppers in and cover with the vinegar. Weight with a plate to keep them under the vinegar.

**Practical Ironholders.**  
When shoes are worn never throw the tops away, as you will find they are very useful for ironholders. Take the top and cut into shape, then line it, and you will have a very good ironholder that will keep the heat from your hands most effectually.

**To Polish Brass.**  
Wet a cloth in sour milk and sprinkle it liberally with dairy salt, rubbing the brass with it. Then rinse off the salt with more of the milk and polish with a dry, soft cloth.

**Hearty Dutch Salutation.**

The Dutch are exceedingly sparing of words, but their God bless you! after someone has sneezed is both quick and hearty. That sneezing is an evil, the bad effects of which can be averted by prayer, is an almost world-wide superstition, but as colonizers the Dutch had particular opportunity to test its universality. Sneezing is taken more seriously in Holland than anywhere else.

Italy's olive-oil yield for the 1912-1913 season is estimated at 40,000,000 gallons, compared with 65,000,000 gallons last season.

**Why Women Have Nerves**

The "blues"—anxiety—sleeplessness—and warnings of pain and distress are sent by the nerves like flying messengers throughout body and limbs. Such feelings may or may not be accompanied by backache or headache or bearing down. The local disorders and inflammation, if there is any, should be treated with Dr. Pierce's Lotion Tablets. Then the nervous system and the entire womanly make-up feels the tonic effect of

**DR. PIERCE'S FAVORITE PRESCRIPTION**

when taken systematically and for any period of time. It is not a "cure-all," but has given uniform satisfaction for over forty years, being designed for the single purpose of curing woman's peculiar ailments.

Sold in liquid form or tablets by druggists—or send 50 one-cent stamps for a box of Dr. Pierce's Favorite Prescription Tablets. Ad. Dr. R. V. Pierce, Buffalo, N. Y.

**Real Heroism.**

To live well in the quiet routine of life; to fill a little space because God wills it; to go on cheerfully with a petty round of little duties, little avocations; to smile for the joys of others when the heart is aching—who does this, his works will follow him. He may not be a hero to the world, but he is one of God's heroes.—Dean Farrar.

**Athletic Vegetable.**

What is known as the "Jumping Bean" is a curious Mexican seed which was sent over to England in the early fifties. Each bean contains the larva of a worm similar to our apple worm. It spins a soft case within the seed, and moves about without harm. This movement causes the bean to bump about upon any surface upon which it may be placed.

**Disillusionment.**

A woman had three caskets to give to a man. One day she read in his eyes that he could take but the nearest and lowest, and that instant arose from her heart the wailing cry, "The king is dead."—Will Levington Comfort.

**What Counts.**

What counts is what we feel within, not what we do without.—Life.

**When Your Eyes Need Care**

Try Murine Eye Remedy, No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is recommended by our Oculists—not a "patent medicine"—but used in successful Physicians' Offices for many years. Now dedicated to the People and sold by Druggists at 50c and 60c per Bottle. Murine Eye Remedy in Aseptic Tubes, 50c and 60c. Murine Eye Remedy Co., Chicago.

**Colonel McIntyre Has a Red-hot Sunday at Ashbury Park.**

Ashbury Park, N. J.—This fashionable summer resort was visited last week-end by Colonel McIntyre and the Central Provincial Quartet. A special feature of the campaign conducted by the Colonel were the open-air gatherings at the "Gospel Chariot" in the grove, where the crowds listened with rapt attention and appreciation. Despite the fact that the heat was intense, with the thermometer registering 98 degrees in the shade, the meetings were successful, and one soul claimed Christ. Captain Cameron and Lieutenants Sowton and Jackson are carrying on a good work here.—W. H. B.

**WOMAN IN TERRIBLE STATE**

**Finds Help in Lydia E. Pinkham's Vegetable Compound.**

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

**"You're Safe"**

so long as you keep the Stomach, Liver and Bowels working regularly and when the first sign of weakness appears be sure to take

**HOSTETTER'S STOMACH BITTERS**

promptly. It will help you keep the appetite normal, digestion perfect and liver and bowels active. Try it.
