**Behnke-Walker**  
 BUSINESS COLLEGE  
 I. M. WALKER, President. Fourth St., Near Morrison, Portland, Or.

**The Best Policy.**  
 If an income tax they frame,  
 And you find they've got your name,  
 Will you truthfully disclose  
 All that in your pocket goes?  
 Will you count each fee you earned,  
 Tell how much your stocks returned?  
 Will you, on your honor true,  
 Pay the utmost cent that's due?

Tell the truth, sir, if you can!  
 Tell the whole truth like a man!  
 Would you stoop to lies, forsooth?  
 Tell the truth!  
 If to wed a girl you seek,  
 And the maiden thus should speak:  
 "When we're married will you be  
 Just as you are now to me?  
 Will you bring me sweets and flowers,  
 Sit and hold my hand for hours?  
 Will you take me to the play,  
 Never care from me to stray?"

Tell the truth, sir, like a man!  
 Tell the whole truth if you can!  
 Falsehood is a serpent's tooth—  
 Tell the truth! —Judge.

Mothers will find Mrs. Winstons' Soothing Syrup the best remedy to use for their children during the teething period.

**His Penance.**  
 He loved to dive and he loved to swim,  
 And he loved in the tide to play;  
 Then what in the world was the matter  
 with him,  
 That he sat in the sands all day?  
 He sat by a girl whose bathing suit,  
 Whose cap and whose shoes were  
 dry;  
 And she would have thought him a  
 perfect brute  
 If he hadn't—so that was why!  
 —M. S. Bridges, in Judge.

**Kill Dandruff Make Hair Grow**

For dandruff, falling hair, or prematurely gray hair use this formula: Bay Rum, 6 ounces; Lavona de Composes, 2 ounces, and Menthol Crystals, 1/2 drachm. If you desire, add 1 drachm of your favorite perfume. Mix the tonic yourself or have your druggist mix it. Apply night and morning with fingers. Lavona contains a powerful drug that stimulates the activity of the hair-growing follicles and is believed to give renewed action to the pigment-forming cells so as to actually restore natural color to prematurely gray hair without the use of dye.

**Eternal Feminine.**  
 Margaret, aged seven years, was playing housekeeper. As she pretended to wipe the perspiration from her face she turned from the toy washboard upon which was rinsing out a handkerchief, and, addressing her brother, a year younger, said: "There you are sitting at your ease and me breaking my bones doing your washing."

**Tobacco Habit Easily Conquered**  
 A well-known New Yorker of wide experience has written a book telling how the tobacco or snuff habit may be easily and completely banished in three days with delightful benefit. The health improves wonderfully after the nicotine poison is out of the system. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. No more of that nervous feeling; no more need of pipe, cigar, cigarette or chewing tobacco to pacify the morbid desire. The author, Edw. J. Woods, 534 Sixth Ave., 150 R. New York City, will send his book free on application, to anyone who writes to him.

**Not Triplets.**  
 My little grandson was told by his mother to run across the street and inquire of a lady who was going by with three little babes in a cart if they were triplets. He soon came back, looking much disappointed, and said: "No, they are not triplets. They were born the same day, but two of them are girls and the other is a boy."—Exchange.

**Dr. Pierce's Pleasant Pellets** first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

**Subtraction.**  
 The teacher was hearing the youthful class in mathematics.  
 "No," she said; "in order to subtract, things have to be in the same denomination. For instance, we couldn't take three pears from four peaches, nor eight horses from 10 cats. Do you understand?"  
 There was assent from the majority of pupils. One little boy in the rear raised a timid hand.  
 "Well, Bobby, what is it?" asked the teacher.  
 "Please, teacher," said Bobby, "couldn't you take three quarts of milk from two cows?"—New York Evening Post.

**Love Eternal.**  
 They that love beyond the world cannot be separated by it.—William Penn.

**BOYS CATCH MANY ANIMALS**  
 Two Missouri Lads Capture Rabbits and Minks by the Use of a Simple Figure Four Trap.

These two Missouri boys catch a great many rabbits and minks. They build their own traps. The trap in the picture is set with a simple figure four trigger. The box is above two and one-half feet long and one foot wide. This length gives room to place the bait well inside the door. The bait and stick to which it is attached should be very light, so that

**The Result.**  
 The slightest touch will set it off. Traps for mink should be smoked after every catch, as these animals are very wary, and will not go into a trap that has the smell of a man upon it. A better way to catch mink is to use a steel trap, covering it lightly with leaves or grass and fastening it to a post with a light chain.

**MODESTY AND MODERN GIRLS**  
 Few Years Ago Public Speaking by Young Women and Athletics Would Have Been Tabooed.

Addressing an audience of girls at the charities conference, Miss Beulah Kennard made this declaration: "Twentieth century girls are less modest than any since the days of Louis XVI."  
 Not many years ago the modesty of the shrinking violet, which was associated with timidity and expressed by demurely downcast eyes, was a model followed by young women of that period. They were expected to faint at moments of stress, and it is to be presumed that they did.

Fainting has gone out of fashion. The telephone girl in the Austin flood who stuck to her switchboard, sending out warnings to the people of the town while she herself faced death, was no exception to the rule of these times.  
 The level gaze of the unafraid has displaced downward glances of timid modesty. A few years ago public speaking by girls at public gatherings and the sort of athletics now common in colleges for women would have been thought immodest.  
 It may be, as Miss Kennard says, that girls show less modesty than their sisters of other times, but who is there who says that "twentieth century girls" and their standards are less admired and less worthy of admiration?—Cleveland Plain Dealer.

**INCREASED VALUE OF CANDY**  
 Gain of 55 Per Cent. in United States During Period Population Increased 8 Per Cent.

In five years, according to the census of 1910, there was an increase of \$17,709,000 in the value of the candy produced in the United States. This was a gain of 55 per cent during a period in which the population of this country had grown probably not more than 8 per cent.

These figures show the enormous increase in the consumption of candy by Americans. Children will be pleased to learn that eminent medical authorities are now satisfied that pure candies are not injurious to the health if eaten in moderation. It appears that the drawback in permitting the child to eat unlimited candy lies in the absence of fat. "It," says Prof. Robert Hutchinson, "the parent is warned to introduce sufficient quantities of the carbohydrates by insisting upon the use of butter and oils in the diet, the child may generally eat pure candy without detriment and even with distinct advantage.  
 This is useful information, but parents should still beware of the cheap, adulterated article.

**Unequal Punishment.**  
 Two boys who managed to be rather unruly in school so exasperated their teacher that she requested them to remain after hours and write their names 1,000 times. They plunged into the task. Some fifteen minutes later one of them grew uneasy and began watching his companion in disgrace. Suddenly the first one burst out with despair between his sobs and said to the teacher:  
 "That's fair, mum! His name's Bush and mine's Schluttermeyer."

**Verna's Modesty.**  
 Mother entered the room just in time to see four-year-old Verna knock her older brother down.  
 "Verna, how could you do such a thing!"  
 "The Lord gave me strength," Verna proudly replied.—Harper's Magazine.

**CONTROL OF CORN-EAR WORM**  
 Insect Eats Its Way Along Within Husk, Devouring Young and Tender Kernels and Silk.

(By W. C. O'KANE)  
 One of the encouraging things that turn up occasionally in the eternal warfare against insect pests is the fact that some remedy or other that is recommended is also an ordinary feature of good farm practice. It is that way with fall plowing. Several troublesome insects of field and garden happen to be in such location in the late fall that we can reach them by stirring the soil. One or two of them can be fought in almost no other way.  
 The pest that hits the mark most closely is the corn ear worm. When infesting corn it eats its way along within the husk devouring the young and tender kernels and silk. As it works its way down into the ground the worm fills the hole behind it with soil. But once at a depth of three or four inches it turns and makes a short open gallery, part way to the surface.

**Corn-Ear Worm at Work Eating the Silk and Young Kernels.**

Then it retires to the bottom of this and remains until it becomes a moth. In the gallery the pupa of the last generation remains all winter. The moth does not come out again until next spring. Now, send a plow through the field in late fall and you accomplish very good results. The pupa is buried beneath solid earth, which later is compacted by winter or spring rains. The moths are thus effectually imprisoned, and never reach the surface to lay eggs and start the life round once more. Weather conditions or demands of crop rotation may make fall plowing out of the question, but if it can be done, there is much to be gained by it.

**PRACTICAL HINTS OF PLANTS**  
**Palm, When Grown on Shady Side of House and Kept Moist, Will Prove Thing of Beauty.**

(By BESSIE L. PUTNAM.)  
 If you cannot afford a palm, go to the woods and get a nice fern. If grown on the shady side of the house and kept moist, it will prove a thing of beauty.

The woodland violets may well keep it company, some of the large white ones being delightfully fragrant.  
 When receiving a new plant, especially if from a florist, examine it first and see that it is free from insects. A breeding place for some new insect may be revealed.

A tea made of tobacco leaves makes one of the best remedies for insects; roses, especially, are benefited by spraying with it weekly. Only a few forms of worms will endure the weed.

Start geranium cuttings in midsummer for the winter blooming. They are readily rooted in a glass of water placed in a sunny window. As they increase in size, keep the tips of the branches pinched back to insure compact form of growth.

The agave, or century plant, will respond well to a draft of manure-water once a week during the summer, but when resting the fertilizer must be entirely withheld.

Keep the flowers of all annuals picked regularly if you would have the season of bloom prolonged.  
 Seed forming is a drain which most plants cannot endure except by a deterioration of the blossoms.  
 The most successful flower grower is one who is continually on the lookout to see what her wards are about. If the soil is dry she notices it; if a new insect appears she is on hand to fight for her charges. Few plants will for a protracted period do their best without care.

**KEEP AWAY SQUASH ENEMIES**  
 Kerosene Emulsion Will Drive Bugs From Their Cover So They Can Be Hand-Killed.

To keep bugs away from the young plants, cover the hills not infested with wire netting, burying all edges under the soil, else they will get under them sure.

The squash is subject to flea beetles and yellow-and-black-striped bugs and these do not like clean cultivation. So burn all rubbish after getting off the crop. Examine the vines twice a day. The bugs gather constantly.

Better plant more seed than are properly developed for emergency cases of destruction by bugs.  
 Kerosene emulsion will drive bugs from their cover so they can be hand killed, and that is about the surest practice.

**Haul Out Manure.**  
 This is an excellent time to haul out that manure that was left in the sheds and yards last spring.

**WINCHESTER**  
 "Leader" and "Repeater"  
**SMOKELESS POWDER SHELLS**  
 Carefully inspected shells, the best combinations of powder, shot and wadding, loaded by machines which give invariable results are responsible for the superiority of Winchester "Leader" and "Repeater" Factory Loaded Smokeless Powder Shells. There is no guesswork in loading them. Reliability, velocity, pattern and penetration are determined by scientific apparatus and practical experiments. Do you shoot them? If not, better try the W brand. They are the **FIRST CHOICE OF THE BEST SHOTS.**

**More Valuable Accomplishment.**  
 Helter—"Holmes gets a gigantic salary from that mining corporation." Skelter—"Able to locate gold mines, is he?" Helter—"Not much. Able to locate stock purchasers."—Life.

**To Patch Wall Paper.**  
 Tear a piece slightly larger than the portion to be covered, to match, but torn with rough edges and without any definite shape. Then paste over and the patch will not be noticeable.

**Woman's Danger Signals**  
 Hot flashes—dizziness, fainting spells, headache, bearing-down feeling and ills of a kindred nature—are nature's danger signals. The female disturbance or irregularity back of these calls for help, should have immediate care and attention. Otherwise the delicate female constitution soon breaks down.  
**Dr. Pierce's Favorite Prescription**  
 for more than 40 years has been lending its health restoring aid to thousands of women year after year throughout its long life.  
 This wonderfully successful remedy imparts strength to the entire system—particularly to the organs distinctly feminine. Nerves are refreshed. The "stale", overworked business woman, the run-down house-wife, and the weary care-worn mother of a family—all will gain strength from this famous prescription which 40 years has demonstrated its effectiveness—in liquid or tablet form.  
**SOLD BY DEALERS IN MEDICINES.**  
 Write Dr. R. V. Pierce's Specialists at the Invalids' Hotel—Correspondence Strictly Confidential—and no charge.  
**Dr. Pierce's Pleasant Pellets** regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules—easy to take as Candy.

**The "Topgrade" Shoe**  
**FOR MEN**  
**A Really Classy Shoe**  
 If your dealer does not handle, write to  
**PRINCE SHOE CO.,** Portland, Ore.

**The Ruling Passion.**  
 The Amazon in days of old displayed a man-like vigor on the battlefield. But, none the less, ere fighting she surveyed Her features in her shield!  
 The modern maid who also yearns to face Some day, if need arise, her country's foes, Would she not, ere the battle, pause and place Some powder on her nose? —London Opinion.

Murine Eye Remedy Co., Chicago.

**Merciful Wife.**  
 A Cincinnati man who attempted to dictate what his wife should wear is now defendant in a divorce suit. It is a wonder he isn't the central attraction in a jam-funeral.—Houston Post.

**CHILDLESS WOMEN**

These women once childless, now happy and physically well with healthy children will tell how Lydia E. Pinkham's Vegetable Compound made all this possible. Here are the names and correct addresses—write them if you want to, and learn for yourself. They are only a few out of many thousands.

"Our first baby is strong and healthy and we attribute this result to the timely use of your Compound." —Mrs. FRED YORLAND, Kent, Oregon.  
 "I owe my life and my baby's good health to your Compound." —Mrs. W. O. SPENCER, R. F. D., No. 2, Troy, Alabama.  
 "I have three children and look your Compound each time." —Mrs. JOHN HOWARD, Wilmington, Vermont.  
 "I have a lovely baby boy and you can tell every one that he is a 'Pinkham' baby." —Mrs. LOUIS FISHER, 32 Monroe St., Carlstadt, N. J.  
 "We are at last blessed with a sweet little baby girl." —Mrs. G. A. LA FERROUSE, Montegut, La.  
 "I have one of the finest baby girls you ever saw." —Mrs. C. E. GOODWIN, 1012 S. 6th St., Wilmington, N. C.  
 "My husband is the happiest man alive today." —Mrs. CLARA DARRABACK, 307 Marilla St., Buffalo, N. Y.  
 "Now I have a nice baby girl, the joy of our home." —Mrs. DOXYLLA COYNE, No. 117 So. Gate St., Worcester, Mass.  
 "I have a fine strong baby daughter now." —Mrs. A. A. GILES, Dewittville, N. Y., Route 24.  
 "I have a big, fat, healthy boy." —Mrs. A. A. BALGOWAN, R. F. D., No. 1, Baltimore, Ohio.

**To Kill Odor of Onion.**  
 To kill the odor of onions on the breath eat lemon afterward or drink strong lemonade. Many persons who never eat onions in any other form cannot very well avoid them in some salads which would taste exceedingly flat without this vegetable.

**No "Let Up"**  
 There will be no "let up" in that distress after eating until you first help the stomach and digestive system back to health and strength. For this work

**HOSTETTER'S STOMACH BITTERS**  
 is particularly well adapted. It brings back appetite, aids digestion, keeps the bowels open and improves the health in general. Try a bottle.

**Above All Price.**  
 Gold and silver may supply us with the necessities of life, with food and drink, clothes and houses; but they cannot give the joy of a kind look—Lord Avebury.
