

The Family Cough Medicine

In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50c. bottles cured me of pneumonia." Thousands of other families have been equally benefited and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung troubles. Every dose helps. Price, 50c. and \$1.00. All druggists.

HER WEDDING.

There was to be a wedding of great importance in Roanoke colored circles. Preparations were made for weeks, and a big crowd turned out on the auspicious evening. Next day the wife of a judge chanced to meet the happy bride, who had formerly been her maid.

"Well, Martha," said Mrs. J., "did you have a big wedding?"

"Deed Ah did, missus, deed Ah did. De most splendid occasion ob de season."

"Receive many handsome presents?"

"Yes'm, yes'm. De hull house was just crowded wid de gifts."

"Did you have your house nicely decorated?"

"Yes'm, yes'm. Everybody done wear deir very best. Look jes' like a white folks' dress affair, yes'm!"

"And yourself, Martha—how did you look?"

"Ah was suttinly some scrumptious, yes'm. Ah done wore mah white bridal dress, an' orange blossoms—yes'm Ah was some kid, some kid!"

"And the bridegroom? How did he appear?"

"De bridegroom? Aw, dat triflin', no count, low-down houn' dawn, he didn't show up at all, but we had a magnificent occasion widout him, jes' de same!"

CORBETT

Mrs. J. T. Rea returned from her Eastern Oregon and Idaho trip Saturday.

Mr. and Mrs. Lee Evans were Sunday visitors at Fernside Place.

Miss Alice Rasmussen, who is teaching at Latourell Falls, spent the weekend at home.

Rev. Boss of Portland preached at the school house Sunday both morning and evening, but on account of his coming not being very generally known, his congregation was not as large as usual. Rev. Boss expects to preach here again next Sunday morning at Eleven o'clock.

Miss Laura Ross has been employed by the Columbia Telephone Co., as exchange operator.

Mrs. Albert Fox and little daughter came down from Pendleton for a visit with her parents, Mr. and Mrs. W. H. Reid.

Mr. A. A. Loeb attended the "Frontier Day" celebration at Walla Walla.

Mrs. Paterson was a Troutdale visitor Monday.

Mrs. Dodson left Monday for California to spend the winter with her daughter. Mrs. Dodson has been in delicate health for some time and her friends here hope the change of climate will be beneficial.

Mrs. Lee Evans went to Troutdale Monday evening to visit her mother, Mrs. Brink.

Ward Evans has recently purchased a Ford automobile.

Mrs. Geo. Chamberlain and children are visiting relatives at Corvallis.

Columbia Grange opened in regular session Saturday morning, Oct. 4th at eleven o'clock. After the usual routine of business a recess for dinner was declared shortly after twelve M., when all repaired to the dining room and partook of a bountiful repast. After an hour or more spent in social intercourse, Grange was called to order. The lecturer took charge of the meeting presenting the following program: Song No. 192 in Grange Melodies, by the Grange; Instrumental music by Mrs. J. T. Rea; Mrs. Anderson gave a very interesting talk on the principles of bread-making; A reading by Mrs. Knierien; Song, "Take Me Back to Dreamland" by Mrs. Rea; Mr. Knierien and Mr. Anderson told of some of the uses of cement on the farm. Miss Ethel Smith talked on the recent changes in schools; Miss Alice Rasmussen talked on the subject, "Text Books," and Fred Benfield talked on the subject of "Progress." Each one on the program did themselves great credit. After the program the Master took charge of the meeting and W. F. and Dan Powell were initiated in the 1st and 2nd degree.

Mrs. Earl Miller of Portland was a week-end visitor at the F. L. Evans home.

C. J. Littlepage of Mosier visited his son Don a few days last week.

Mrs. Buxton of Troutdale visited her mother, Mrs. Patterson, Sunday.

Geo. Chamberlain's little son Harold was a very sick child Saturday, but is now improving.

Mrs. Harold Towne of Kelso, Wash., has been nursing her mother during her recent illness.

Mr. Trowbridge has been out from Portland the past week making improvements on his farm.

CHERRYVILLE

Rain drops on the roof!
The Autumn rains have begun.
Once more the rainy season is at hand.

Between showers we expect an Indian summer as the real Oregon winter is not here yet.

School was dismissed last Friday on account of the Fair at Sandy which was well attended and was a creditable affair.

The Oregonian and its evening associate the Telegram, can't get over knocking Gov. West, who is certainly a very courageous little gentleman and a very able executive. The writer has travelled in 25 states and as a reporter on Chicago papers, has seen some tough localities, but never saw a saloon before in a depot like there was on Jefferson Street in Portland. This disgrace was wiped out by Gov. West, with the remark that it was "high time that we found it whether Weisbard was a bigger proposition than the state of Oregon." For this action alone Gov. West deserves credit.

The measures up for the voters approval on Nov. 4th ought to be given careful consideration. The first measure requiring an appropriation for repairing the University buildings should be approved as it is poor policy to allow public property to depreciate. The second measure asking for \$300,000 for a new building at the University grounds is a different proposition. The means of getting an education is already within the reach of all and besides we are turning out—by far—too many professional men who are becoming almost as bad as the seven plagues of Egypt. Some of these doctors and lawyers are compelled to resort to all manner of schemes to get a livelihood. What we want is aid and encouragement for developing the vast resources of the state. The sterilization measure requires careful thought as this might be taken advantage of by unscrupulous persons to make trouble for those they disliked. A drug can be given clandestinely that will make any person a sexual pervert temporarily. The compensation measure requiring compulsory help and care for those engaged in perilous pursuits after receiving an injury should receive the sanction of every voter. Such a measure is in force in Washington and gives entire satisfaction to everybody.

Some people are too greedy to do business, asking such high prices for land that they kill off all possible customers. Much of the land—especially the logged off and second growth timber land—is held so high that no one with a particle of sense would consider it. While in Portland lately a proposition was made to sell 81 acres of land, cleared and improved, with 21 head of cows, 4 horses, 8 hogs, a lot of chickens, farming implements, furniture and all the crops for \$11,000. The milk check on this farm was \$200 a month and was a very attractive proposition as the farm would pay for itself in 5 years. The by-products—aside from the milk—would make a living and pay expenses and the milk checks would be all "velvet." Such deals as this are snapped up readily, but yet there are plenty of them, as people are constantly changing. Vast tracts are being demanded of the timber yearly in Oregon and the logged off lands are thrown open to the sun and soon grow up to a tangle of brush that ought to be utilized. Some enterprising capitalists—with a streak of humanity in him—could make a handsome addition to his capital by a plan of settling up these lands with worthy people, giving them work to clear up each alternate tract and selling them every other tract on long time at a low rate of interest. In a short time a fine colony and town would be established and the tracts reserved would become very valuable by reason of their being in a settled neighborhood. Strips like this sandwiched between settled homes anywhere are held high and often find purchasers.

GRESHAM

Miss Laura V. Bulkeley returned last Friday to her work at the First State Bank. Miss Bulkeley spent her vacation at the home of her parents in Montavilla.

Mrs. Shoemaker visited her daughter at Washougal last week.

Miss Mabel Birch entered the Holmes Business College last Monday to take a business course.

The enrollment in the Gresham High

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remediation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. J. CHENEY, & CO., Toledo, Ohio.
Sold by Druggists.
Take Hall's Family Pills for constipation.

Eczema and Itching Cured

The soothing, healing medication in DR. HOBSON'S ECZEMA OINTMENT penetrates every tiny pore of the skin, clears it of all impurities—stops itching instantly. Dr. Hobson's Eczema Ointment is guaranteed to speedily heal eczema, rashes, ringworm, tetter, and other unsightly eruptions. Eczema Ointment is a doctor's prescription, not an experiment. All druggists or by mail 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis.

School is 62. The instructors are Prof. J. E. Stubbs, Prof. Rice, Assistant, Miss Young and Miss von Wintzengerodt.

Dr. J. N. Powell, of San Francisco, Calif., is visiting his sister, Mrs. Clananah.

Mrs. Geo. Laver, of Carlton, visited her mother, Mrs. L. S. Osborne, last week.

Mrs. M. Gordon, of Portland, visited old friends in Gresham last week.

Miss Hope Anderson visited her mother, Mrs. J. E. Miller, at her home in Portland last Saturday.

Mrs. Hughes returned home from Montana Tuesday night.

THE CIGARETTE HABIT

Cigarette smoking begins with an innocent boyish effort to be smart. It soon becomes a pleasure, then a satisfaction, next a necessity. The last stage evolves into a third, a condition of fever and unrest, wandering of mind, accompanied by a loss of moral and mental control. This may take two years or ten. But finally a flabbiness of tissue results from taking the smoke into the bronchial tubes, where pure air is required to oxygenize the blood, and a nervous weakness follows that leaves the victim unprotected, a prey to any sort of malady or disorder to which he may be exposed or liable.

The first indication of degeneration is in the youth's secretiveness. "Bluff" is his chief characteristic. He confuses dates, times and places, and often will tell you he has done a thing when he only intends to do it. Only the strong man is honest; only the healthy tell the truth.

A lie is a disease of the will; hypocrisy is a symptom.

The cigarettist is apt to dream over his word, to dawdle indefinitely. He proves for us again and again the maxim that the strong man is the one who can complete a task, not merely begin it.

Cigarettes stupefy the conscience, deaden the brain, place the affections in abeyance, and bring the beast to the surface.

It is a busy world, boys, and competition is keen. We need all the strength we can muster. No one thinks more of us because we use cigarettes—and there are those who think less. And these last are the people whose good will we prize. Let's cut them out!—Elbert Hubbard, Cosmopolitan.

CORRECT MEASUREMENTS FOR BABY ONE YEAR OLD

Weight—30.8 inches.
Height—23.30 pounds.
Chest Measure—18 inches.
Abdominal Measure—17.8 inches.
Head Circumference—18.2 inches.
Teeth—8

The perfect baby one year old can sit erect and can stand up if some one supports him. He is beginning to say "mamma" and "papa." He is fat. His skin is pink and his lips red. His flesh is firm. He does not wake and cry at night.

Strawberry Fruit Syrup—This is excellent to keep on hand for a hot weather beverage. Cook several quarts of strawberries in a granite or porcelain-lined kettle until the juice flows freely. Mash, strain the juice through cheesecloth or cotton batting, then measure.

Allow a pound of sugar to each pint of juice, boil together five minutes, then bottle. When ready for use, add a few spoonfuls to a glass of cold water or in more liberal quantity to the contents of the punch bowl.—Emma Paddock Telford.

A man went into a butcher's shop and asked how much sausages were a pound.

"Ah," said the butcher, "der brice was gone ups. I shall haf to sharge you twenty-vive cents."

"Nonsense!" exclaimed the customer, "that is outrageous. I can get them at Schmidt's for 20 cents."

"Vell, vy didn't you?"

"Because he was out of them."

"Oh, vell," replied the butcher, "if I was outd of 'em I'd sell 'em for twenty cents too."

Women Who Get Dizzy

Every woman who is troubled with fainting and dizzy spells, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good." Just try them. 50c. and \$1.00 at all druggist or by mail.

H. R. BUCKLEN & CO., PHILADELPHIA OR ST. LOUIS

WEICHES

The first snow of the season fell here last Friday.

Mr. E. Coleman, proprietor of the Mt. View House, at Government Camp, was a visitor at Mr. and Mrs. W. J. Faubion's last Sunday. Before returning home he will make a business trip to

Portland. He is preparing to move his family to Sandy for the winter.

Mr. Davis, who has been at Government Camp the past summer passed through here Sunday on his way to Sandy.

We were visited by Jack Frost last Sunday.

Walter Creighton fell into his well last Sunday and had a narrow escape from being hurt seriously. The windlass broke with him.

Ben Totten, who has been in the forest service for the past two years left last Sunday for Corvallis to take charge of his father's farm.

Marchino Pphanico and Frank Parzetti, who have been working at the Rhodelendron Hotel the past summer left for Portland last Saturday.

FARM ORCHARD AND GARDEN BY FETRIGG REGISTER, ROCKFORD, ILL.

CORRESPONDENCE SOLICITED

[This matter must not be reprinted without special permission.]

Fond as the growing duck is of water it does just as well if it does not have access to either pond or stream.

It is seldom necessary to inquire into the church standing of the man who makes a full and voluntary return of his property when the assessor comes round.

A recent census bulletin shows that Wisconsin leads all the states in the volume of peas canned. The increase in this industry from 1900 to 1910 was more than 320 per cent.

It is a pretty poor stick of a dog that serves no more useful purpose than to keep the neighbors awake o' nights. The writer knows of canines of this stripe that he would like to see in Halifax.

The batch of eggs that the hen has been sitting on for a week or more in the tall weeds out back of the barn would better be fed to the hogs or allowed to hatch and not gathered up and pained off on the grocer as fresh eggs.

Yes, it means a little extra work and expense to stack the grain, but if it is stacked one can wait his time for the threshing outfit, and what is more than this with the grain off the field the stubble can be plowed early, thus doing away with a seed of weeds and insect pests.

In extenuation of the claim of some that the kingbird or bee martin is harmful because it devours bees it is said that the bees consumed are drones, of which there are too many and which serve no useful purpose after the queen bee has begun to lay her season's eggs.

As one travels over country roads in many sections he is impressed with the conviction that the highways ought to be narrowed or some effective measures should be taken to compel the growing thereon of something besides weeds, which simply mature seed to foul the adjoining farm land.

Figures which have been compiled show that 15 per cent of the tuberculosis in children is traceable to bovine origin, for the most part through milk and milk products consumed. This should be an effective denial of the claim of some that bovine tuberculosis is not transmissible to human beings.

Pure air is a necessity to the health and proper development and growth of all farm animals. This holds especially true of the dairy cow, which during many months of the year is closely housed. If she has foul air to breathe her system is in the same condition as the dirty and smoky lamp. Both lack necessary oxygen.

Waterfowl in Central park, New York, are dying from an epidemic of spinal meningitis supposed to be brought on by polluted water due to the protracted drought. These fowls include white and black swans, Egyptian and Canada geese, mallard and wood ducks, besides species from China, the Philippines and other countries.

A good many farmers who make a decided success in the raising of crops fall down badly in disposing of them. This may be due to improper storing, which results in loss; in injudicious selling in the raw or in feeding when conditions are not favorable. It is coming to be pretty well agreed that to be a complete success the farmer should be an all around business man.

Ginseng, which grows wild in timber lots in many of the more humid sections of the country, is cultivated by many and yields a good revenue. In this shade has to be furnished by artificial covering and moisture conditions have to be kept right. The dried roots bring from \$5 to \$8 a pound and the ripe seeds from 50 cents to 60 cents per dozen.

In many sections of the southwest which have been hit by the severe drought the state experiment stations are urging farmers to dig pit silos in which to preserve the dried corn in the field, which has been too hard hit to produce any ears. Such silos will save all the nourishment there is left in the corn plant and will furnish a lot of feed to help tide stock over the winter.

An Oregon farmer living some twenty miles from Oregon City, is harvesting a rather unique crop, tansels. The tassel is a bur for which the manufacturers of cloth find a use in raising the nap of the goods, a process for which no inventor has ever been able to invent a mechanical substitute. The ranchman in question has seventy acres of this crop and during the harvest season employs forty hands.
