Develops Strong Men.

Timber work is no sinecure. It is roof it should be laid on solid boards, hard life, but it is out in the open, as iron is very hot in summer when and it develops strong men. The city the sun shines, and is cold in winter. man who thinks the forest a play-ground has never rolled out with the large the farmer who keeps several jobber's sun" in winter, broken a sows and is growing a large number jam" in the spring, or driven rioting of pigs each year should have a halfrivers in summer. The "jobber's dozen or more of these houses on the sun" is the moon. Advantage must farm and in convenient places. Some be taken of seasonable weather in the farmers have all their hog houses woods. This was especially so in the near the barn and other buildings, old days, when there was less logging but I do not think this is a good pracby railroad. Then a good snow for tice. Hogs of different ages and sizes hauling meant that every bit of day-light must be utilized. The men were rolled out early. Often it was to be separated into small herds, accord-breakfast at 4 or 5 o'clock and labor ing to their ages and conditions. Sows until the darkness of night made work and growing pigs should not be alimpossible. The men often walked to their work in the woods by moonlight in the morning. Hence came the appellation for the moon of "jobber's

Blood Bath Knocks Rheumatism

Remarkable Effects of a **Remedy That Actually Irrigates the Entire** Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. S. S. It has peculiar action of soaking through the intestines directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Ivery membrane, every organ of the body. every emunctory becomes in effect a filter to strain the blood of impurities. The timulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders them neutral and scatters those peculiar forma-tions in the nerve centers that cause such mystifying and often baffling rheumatic pains. And best of all, this remarkable remedy

is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure botanical infusion, to take n patreally into your bload funt to the kind t is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of dollars in perfecting, produc-ing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. for it knocks the worst forms of rheumatism and gives you freedom to enjoy life.

You can get at at any drug store at \$1.00 a bottle. It is a standard remedy. recognized everywhere as the greatest blood antidote ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 160 Swift Bidg., Atlanta, Ga.

feathering oars and driven by man power. It was constructed by David Bushnell and used with effect in the revolutionary war. Its success led to three-part window lining, raised or further constructions at later dates, one of which was the man driven "Intelligent Whale," which now stands as a relic in the grounds of the New

York navy yard. This machine is also cigar-shaped and was driven by a series of hand cranks working the propeller at the ear. It was built in 1864, is 29 feet in length, 9 feet deep, and made of one-half inch boiler iron.

She Knew.

There is an old lady living in a small town in Southern Pennsylvania who makes great efforts to keep abreast of the times. Her opportunities, however, are circumscribed, and she is sometimes compelled to resort to her imagination. She went to a church sociable lately, and as she entered the room one of the attendants said:

"Good evening, auntie. I am glad you came. We are going to have tableaux this evening."

"Yes, I know," replied the old lady; "I smelt 'em when I first came in.
