COURSES PUBLISHED IN BULLETIN

Free Reading in Agriculture Offered by the Department

The new bulletin announces that the Department of Agriculture has prepared several reading courses of its own free publications for those who might desire an agricultural reading course, but who have not the time to seek out their own material or might wish to avoid the expense of purchasing the books.

The lists of reading for this week have been compiled in view of the great increase in demand for agricultural training in the past three years. They will enable all who have the inclination and any spare time to follow out a thorough course, the publications being supplied for nothing by the department. If the free publications listed in these courses should become exhausted, they may generally be obtained by purchase for a small sum from the superintendent of documents, Government Printing Office, Washington, D. C.

There are eight courses offered, which cover thoroughly the subject treated. They are as follows: Agronomy, animal husbandry, horticulture, forestry, agricultural engineering, agricultural technology, agricultural economics, agricultural education.

As a sample of what these courses contain, the following is a list of the bulletins given under the heading "Animal husbandry." Topic and title:

- Bees.
 - Birds. Some common birds; Some common game; Aquatic and rapacious birds in their relation to man; Fifty common birds of farm and orchard; Does it pay the farmer to protect birds.

 - Sheep. Raising sheep for mutton.
 - Poultry. Standard varieties of chickens; Ducks and geese; Turkeys; The guinea fowl; Poultry management.

Announcement

WE wish to announce to the people of Lents and vicinity the completion of our Funeral Parlors in the I. O. O. F. building. We have a Chapel that will seat about 140 persons. A comfortable Private room has been arranged near the casket, for relatives to occupy during the Funeral Services, thus giving them a privacy they could not obtain in a church or their own home. It is our custom to take care of all the details in connection with Funerals, such as Cemetery arrangements, Funeral Notices, autos or carriages, permits, and when desired will engage the minister and singers, thus relieving grief-stricken relatives of a great deal of business care at a time when they are least able to transact it. When desired, remains will be brought to our Parlors to be taken care of, then returned to the home or retained until the Funeral hour. Ten years experience in this city with the two leading and most advanced firms on the Pacific Coast has placed us in a position to give the best of service with all modern methods.

Realizing that Funeral expenses are often necessitated at a time when relatives are not prepared to give as good a burial as they would like, we are in a position, owing to low rent and small operating expenses, to furnish good caskets at very reasonable rates.
