"I had my back hurt in the Boer War and two years ago I was hit by a street car. I tried all kinds of dope without success. I saw your Liniment in a drug store and got a bottle to try. The first application caused instant relief, and now except for a little stiffness, I am almost well."—Teacher Norman, Frazier, Calif.

"As a user of your Liniment for the last 15 years, I can say it is one of the best on the market. SELECTIONS RECIPES THAT ARE OF MERIT.
Mushrooms With Eggs Always Appreciated—Salmi of Lamb a General Favorite—Stewed Plums Excellent Dessert.
Mushrooms With Eggs—Break a dozen fresh mushrooms and put them into a stewpan with a tablespoonful of butter, one-quarter of a teaspoonful of salt, pepper to taste and a few drops of lemon juice. Cover the pan and simmer slowly for ten minutes. Then add one cupful of cream and a little chicken or veal stock, and cook slowly until the mixture begins to thicken a little. Then stir in six eggs well beaten and stir until the whole is of the consistency of scrambled eggs. Serve on well-browned toast.
Salmi of Lamb—Cook one tablespoonful of butter with one-half tablespoonful of finely chopped onion five minutes. Add 1 1/2 tablespoonfuls of flour and cook until well browned. Pour on gradually one cupful of stock and season with one-fourth of a teaspoonful of pepper and one teaspoonful of walnut catchup. Reheat slices of cold roast lamb in sauce, arrange on a hot platter, having slices overlap one, another, and pour sauce over meat.
Union Cake—Two cups sugar, one cup of sweet milk, one cup of butter, three cups of flour, one-half cup of cornstarch, four eggs, three level teaspoonfuls of baking powder, one-half teaspoonful of ground mace. Rub butter, sugar and eggs together, rubbing one egg in at a time; sift in the cornstarch and one cup of flour and the milk alternately. Lastly the two cups of flour and the baking powder. Bake in a large pan in a moderate oven, with a paper cap over the top till it's half done.
Stewed Plums—Wipe each plum with a soft, damp cloth and prick it with a fork to prevent bursting. Have the water in the preserving kettle a little more than lukewarm and gently lay the fruit in it. Bring to a gentle boil; cook just long enough for the plums to become tender, but not long enough for the skins to crack. They must be watched carefully. Remove to a deep dish, add a cup of granulated sugar to every quart of liquor, boil to a syrup and pour over the plums.

Drag and Harrow.
Then the sharp teeth of the harrow left the soil in the finest condition possible.
With the accompanying pen drawing, it will hardly be necessary to go into details in regard to making one of these. Although I will give the dimensions of the timbers. For ordinary use, a width of six feet is sufficient. But, on perfectly level, or land that is practically free of trash and stumps or stones, one as long as eight feet can be used to an advantage.
Material required:
Six pieces 1x10-inch plank, 6 feet long, planker.
Two pieces 2x3-inch hard wood, 6 feet long, beams for harrow.
Two pieces 2x6-inch cross beam for harrow, to planker.
Two pieces 2x6-inch cleats to which planker is made.
Twenty-three pieces five-eighths-inch square harrow teeth, 12 inches long.
Eight one-half-inch bolts, 10 inches long.
Two one-half-inch bolts 5 inches long.
Two one-half-inch bolts 7 inches long.
Two 4-inch cleaves.
Two pounds 10 penny nails.
The beams that connect the harrow with the planker is worked on a bolt at (x. x.) which permits the harrow being raised to remove trash.

WATER FOR THE DAIRY COW
Good Tank Heater or Some Other Device Should Be Used During Winter—Helps Milk Yield.
It is very important that the water drunk by the cows giving three or more gallons of milk daily be warmed to about 60 degrees Fahrenheit. Otherwise the cows will not drink as much as they need to keep up a good milk flow. It does not take much ice water to chill a thin-fleshed dairy cow through and through on a cold winter day, especially when she is compelled to walk some distance through the snow or a cutting wind to get to the tank or pond.
Experiments made at the Missouri station show that drinking water is needed in proportion to the milk yield. That is, a cow giving six gallons of milk a day needs about twice as much water as a cow giving three gallons a day. If the water is too cold to be comfortable if drunk in large quantities, the cow will not drink enough, and as a result will drop considerably in her milk yield.
When Missouri Chief Josephine was giving about 100 pounds of milk each day last winter she drank daily about 21 gallons of water. Imagine how she would have suffered if that had been ice water. It was warmed, however, and Josephine did not chill after drinking.
A good tank heater, or some other device should be used this winter to warm the water for the cows. It will pay.
EGGS EXTREMELY NUTRITIOUS
Contain All the Elements Required for Building Up and Support of the Human Body.
Hens' eggs contain 50 per cent. water, 16 per cent. protein, 33 per cent. fat.
Ducks' eggs, 46 per cent. water, 17 per cent. protein, 36 per cent. fat.
Goose eggs, 44 per cent. water, 19 per cent. protein, 36 per cent. fat.
Turkeys' eggs, 48 per cent. water, 18 per cent. protein, 33 per cent. fat.
Protein, as is generally known, is the substance that goes to make muscle and blood. Fat, of course, is fuel for running the body-machine. Thus, it will be seen, eggs, though half or nearly half water, are extremely nutritious, containing all the elements required for the building up and support of the human body.
Dairy Calf Often Overlooked.
Many dairymen and farmers fail to appreciate the great importance of spending thought and feed in the development of the dairy calf during the first six months of its life.

THICK, GLOSSY HAIR FREE FROM DANDRUFF
Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

A FRIEND TO THE WORKINGMAN
Five years ago I was so troubled with kidney trouble and inflammation of the bladder that I had to leave working my farm. Life looked dark to me until I heard of Dr. Kilmer's Swamp-Root through a cured friend. I tried a bottle and began to feel better at once. After using five or six bottles I felt fine and have continued to work as I had before my affliction. I want to state that Dr. Kilmer's Swamp-Root is a kidney medicine that will cure and I owe my good work during the past five or six years to it.
Yours very truly,

Don't Wait Till You're All Banged Up. Use S. S. S. Now.
If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of Catarrh. But don't let anyone work off that old trick of something "Just as good."
S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectually cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.
The medicinal components of S. S. S. are relatively just as essential to well-

Practical Papa.
The talk at a recent smokefest was about the practical side of things.
"Reminds me," smilingly remarked Congressman Joseph A. Goulder of New York, "of a certain suffragette, not one of the antique species, but a soft, tender little thing who has just joined the jubilee and is correspondingly enthusiastic."
"One evening she returned home and rushed up to the old man, who was comfortably reading in a big arm-chair."
"Oh, papa," she exclaimed, "you should have been with me tonight! We are preparing to sweep the country!"
"Sweep the country?" responded the old man, with a puzzled expression. "Who's preparing to sweep the country?"
"Why, the suffragettes, of course," came the proud rejoinder of the pretty one.
"Oh, I see," was the cold, hard reply of practical papa. "It is a commendable impulse. You might begin with the dining room and parlor."—New Orleans States.
