One on Richard Harding Davis. A dreadful story is in circulation about Richard Harding Davis, the novelist.

Mr. Davis, as everybody knows, is a wit. He was therefore terribly annoyed the other day to hear that a brother author has spoken unfavorably of his witticisms. Coming upon this brother author, he said: "My boy, I hear that in a house where other people were kind enough to consider me witty you declared that I was not so. Is this true?" "No, not a word of truth in it," (the other answered cheerily, "I was never in a house in my life where anybody considered you witty."—Philadelphia Record.

OUR MUCH ABUSED LANGUAGE

Americans Notorious the World Over for Their Faulty Articulation—Reform is Needed.

That a reform in our habits of speech is necessary has long been conceded by the more intelligent person. Americans are notorious, the world over, for their faulty articulation; and this unwise economy of vocal energy has not only disfigured our language to the ear, but has also given aid and comfort to the so-called reformers of our spelling.

If the word program, for instance, is repeatedly heard as program (or program), with strong accent on the first syllable and almost no vowel sound in the second, why, it is asked, should it not be written as it is pronounced? No wonder that our country takes the lead in "spelling reform," having already so effectually divorced the spoken from the written language.

Strange and startling are the tricks that mispronunciation plays with spelling. Lamentably common is it to meet with the expression "would of" for "would have" in the correspondence of the careless in speech. The new all but universal use of will for shall and of would for should is probably due largely to the greater ease of saying "I will" or "I'll," "we will" or "we'll," "I would" or "I'd," "w'd," than of articulating "I shall," "I should," etc.

Thus the evil results of slovenly utterance show themselves in grammar as well as in spelling, and the stately structure of our ancestral tongue is slowly but surely yielding to the insidious assaults of carelessness, abuse, indolence, mistaken zeal in efforts at reform and other influences.

PRINCE WHO HATES PORRIDGE

Queen Mary Compels Wales to Eat It Despite Strong Dislike—Good for the Complexion.

From time immemorial oatmeal has had a reputation of being good for the complexion. Whether it is due to oatmeal or not, the complexions of the royal children, like that of their mother, Queen Mary, have always been admired and envied; but Scotch porridge has always formed the first course of their breakfast.

The prince of Wales alone among the family hates it, says a London dispatch. One morning lately he "funkt" it and begged his mother to let him off "just this once." But the queen replied promptly: "I want you to grow up tall and muscular." The prince, who is known to be very jealous of his sister Mary's inches, gulped it down.

Juvenile Football. When Willie came into the house his face and clothes looked as if he had been poked through a concrete mixer.

"Gracious! my son," cried his mother, "what in the world have you been doing?" "Playin' football," said Willie. "But how did you get so dirty?" "It's the way the game goes," Willie explained. "You see, one of the boys holds the ball in his hands and I stand right back of him. He yells 'One, two, three, four, five, six, seven!' and passes the ball back to me, then all the other boys jump on me and rub my nose in the mud."

"According to Gunter," In America the above phrase is used in the same way that the English use the phrase "according to Cocker." Gunter was an eminent English mathematician, who died in the seventeenth century. His name still survives in connection with the Gunter's scale and the surveying chain, which is often called Gunter's chain.

Beth. Beth, in the names of places mentioned in the Bible, is the Hebrew word for house. Thus, Bethlehem is the house of bread; Beth-el, the house of God; Beth-saida, house of mercy. In Birmingham there is a thoroughfare called Betholom Row, in which is an old Hebrew burying ground. Beth-Olom means the house of eternal rest.

NEVER OUT OF SEASON

DESSERT OF CARAMELS ALWAYS IN ORDER.

Standby of the Hostess is This Delicious Confection—Many Methods of Serving It Have Been Put on Record.

Caramel is one of the delicious dessert flavors that are easy to prepare regardless of the season. For the reason caramel desserts are standbys winter and summer alike. A caramel cake can be as easily made when the markets are empty as when they are full. Here is a recipe for caramel cake: Mix two cupsful of butter until they are creamy. Sift three cupsful of flour with three teaspoonsful of baking powder and add this, alternately with a cupful of vanilla, and add the stiffly beaten whites of four eggs. Bake the batter in layers and fill with caramel filling, made in this way: Mix two cupsful of brown sugar with a cupful of cream and add a teaspoonful of butter. Cook for three-quarters of an hour. When it is partly cool, add two teaspoonsful of vanilla.

This is another caramel filling: Boil three cupsful of brown sugar, half a cupful of condensed milk, a quarter of a cupful of water and a tablespoonful of butter for five minutes. Then take from the fire, add a teaspoonful of vanilla and beat until it thickens. Add three-quarters of a cupful of chopped pecan nut meats.

Cream caramel sauce is made by browning two rounded tablespoonsful of granulated sugar and adding a cupful of cream to it, then stirring and cooking slowly until it is creamy.

Caramel Bavarian cream is made in this way: Put two tablespoonsful of granulated sugar in a saucepan and brown it over a hot fire. Add a pint of cream to it, and grate and add the rind of a big lemon. Heat the cream until it has dissolved the caramel. Beat the yolks of six eggs and six tablespoonsful of granulated sugar together and when it is creamy add it to the hot cream. Cook it over hot water until it is smooth and thick. Add four tablespoonsful of granulated gelatine which has been dissolved and let the mixture cool. When it is cool and is just beginning to set whip in a pint of stiffly whipped cream. Pour the mixture into a mold, chill and serve.

This is the way to make caramel custard: Cook four tablespoonsful of sugar until it is a light brown. Pour it into a baking dish. Beat three eggs with three tablespoonsful of sugar. Add a cupful and a half of cream or rich milk and a teaspoonful of vanilla. Pour it into the baking dish on top of the caramel. Bake in a pan of water until it is set. Instead of cooking this custard in a big dish, a little of the caramel can be put in each of half a dozen custard cups, and the custard mixture poured over it. Then they can be baked, and when they are done turned out on individual dishes. Serve cold.

Bancroft Pudding. Cream four tablespoons butter and one cup sugar and add one well beaten egg. Sift one and one-half cups flour with one-half teaspoon salt and one teaspoon baking powder. Add one-half cup of flour, to the first mixture, and beat thoroughly, then add the rest of the flour and one-half cup of milk, alternately. Finally beat one-quarter square chocolate into the batter and bake 30 minutes in a moderate oven.

Sauce—Beat two eggs until very light, then add one cup of confectioner's sugar and one cup of thick cream. Beat until the whole is the consistency of whipped cream.

Candied Sweet Potatoes. Method—Pare some even-sized sweet potatoes and cut lengthwise into one-half-inch slices. Drop into hot water and boil ten minutes. Drain, place a layer in a flat buttered baking pan, season lightly with salt, pepper and a sprinkling of sugar, dot with butter and bake until tender and a golden color. While several layers can be baked in a pan, for the sake of keeping the slices whole, one layer in a large pan is best.

Aunt Sally's Pudding. Crumb any or all kinds of stale cake quite fine. Stir the white of an egg with just enough cold water to moisten the crumbs, not allowing them to get too soft. Press this mixture into a well buttered mold, with a fitted cover; boil for one hour; turn out while hot and eat with hard or vanilla sauce.

Fried Celery. Wash, scrape and cut celery into three-inch pieces, dip in batter and fry in deep hot fat. Serve with tomato sauce. For the batter mix one-half cup of bread flour, one-fourth teaspoon of salt, few grains of pepper, one-half cup milk and one egg well beaten.

When Boiling Potatoes. Add a little milk to the water in which potatoes are boiled. It will prevent their turning dark and improve their flavor.

A Human Match Factory

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nerve trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Stephenson, on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me, could not lift the lightest weight without making me sick; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sanative Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

A Grateful Atlantic Coast Woman.

HODGON, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Wonderful Blood Remedy That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

S. S. S. Means Pure Blood Which Insures Long Life and Health.

The great experts in Chemistry and Physiology now declare what has all along been contended by the Swift Laboratory that the germs of blood disorders find lodgment in the interstices of the tissues.

And herein is where S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results.

This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the nutritive elements of wheat, roast beef, and fats and the sugars that make up our daily ration.

As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause rheumatism, sore throat, weak eyes, loss of weight, thin pale cheeks, and that weariness of muscle and nerve that is generally experienced, by all sufferers with poisoned blood.

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright, and energetic, but you will be the picture of new life.

S. S. S. is prepared only in the laboratory of the Swift Specific Co., 301 Swift Bldg., Atlanta, Ga. Who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice.

S. S. S. is sold everywhere by all drug stores.

Beware of all attempts to sell you something "Just as good." Insist upon
