COMMITTEE'S REPORT.

[Poland Report, page 5.]

"He agreed with Mr. Ames to take ten shares of the Credit Mobilier stock, but did not pay for the same. Mr. Ames received the 80 per cent dividend in bonds, and sold them for 97 per cent, and also received the 60 per cent cash dividend, which, together, paid the price of the stock and interest and left a balance of \$329. This sum was paid over to Mr. Garfield by a check on the Sergeant-at-Arms, and Mr. Garfield then understood this sum was the balance of dividends after paying for the same."

NATIONAL PLATFORM.

ADOPTED BY THE CINCINNATI CONVENTION.

The Democratic party of the United States in convention assembled, declare:

First—We pledge ourselves anew to the constitutional doctrine and traditions of the Democratic party as illustrated by the teaching and examples of a long line of Democratic statesmen and patriots, and embodied in the last national convention of the party.

Second—Opposition to centralization and that dangerous spirit of encroachment which tends to consolidate the powers of all the departments in one, and thus to create, whatever be the forms of government, a real despotism; no summary laws; separation of church and State for the benefit of each; common schools to be fostered and protected.

Third—Home rule, honest money, the strict maintenance of public faith, consisting of gold, silver and paper convertible on demand; the strict maintenance of the public faith, State and national, and a tariff for revenue only.

Fourth—The subordination of the military to the civil power, and a general and thorough reform of the civil service.

Fifth—Right to a free ballot as the right preservative of all rights, and must and shall be maintained in every part of the United States.

Sixth—The existing administration, representative of conspiracy only, and its efforts of right to surround the ballot boxes with troops and deputy marshals, to intimidate and obstruct the elections, and by suppressed and despotism, to maintain the corrupt and despotic power, insults the people, and imperils their institutions.

Seventh—The great fraud of 1876, by which, upon a false count of the electoral vote of two States, the candidate defeated at the polls, was declared to be President, and for the first time in American history, the will of the people was set aside under the threat of military violence, struck a deadly blow at our system of representative government. The Democratic party, to preserve the country from the horrors of a civil war, submitted for the time, in the firm and patriotic faith that the people would punish the crime in 1880. This issue precedes and dwarfs every other. It imposes more sacred duty upon the people of the Union than was ever addressed to the conscience of a nation of freemen.

Eighth—We execrate the course of this administration in making places for political criminals, and demand a reform in statute which shall make it forever impossible for a defeated candidate to bribe his way to the seat of a usurper by villainies upon the people.

Ninth—The resolution of Samuel J. Tilden not again to be a candidate for election, the exalted place to which he was elected by a majority of his countrymen, and from which he was excluded by the leaders of the Republican party, is received by the Democrats of the United States with sensibility, and they declare their confidence in his wisdom and patriotism and integrity, unassailed by the assault of the common enemy, and they further declare to him that he is followed into the retirement he has chosen for himself by the sympathy and respect of his fellow-citizens, who regard him as one who, by elevating the standard of public morality and adorning and purifying the public service, merited the lasting gratitude of his country and his party.

Tenth—Free ships and a living chance for American commerce on the sea and on the land, no discrimination in favor of transportation lines, corporations or monopolies.

Eleventh—Amendment of the Burlingame Treaty; no more Chinese immigration except for travel, education and foreign commerce, and therein carefully guarded.

Twelfth—Public money and public credit for public purposes solely, and public lands for actual settlers.

Thirteenth—The Democratic party is the friend of labor and the laboring man, and pledges itself to protect him alike against the corporations and the capitalists.

Fourteenth—We congratulate the country upon the honesty and drift of the Democratic Congress which has reduced the public debt to \$40,000,000 a year; upon the continuation of prosperity at home and the national honor abroad, and above all, upon the promise of such a change in the administration of this government as shall insure its genuine lasting reform in every department of the public service.
