FROM CENTERVILLE.

CENTERVILLE, Oct. 25, 1880. The Hancock and English club met last Saturday evening. After adding several new names to the roll, they decided to have a Grand Rally on next Monday evening November 1st. Speakers will be invited and a general good time will be had.

After the meeting a Republican took the floor to address the audience of Republicans, which were about five in number. Of course all the Democrats stayed to hear him or he would have had no audience. His reading was dry, but we had to "Bar it." He read some copious extracts from the Democrat and Republican platforms of 1860. In the reading he aimed at "State Rights." He also read some extracts from speeches of Conkling and Lyman Trumball made between 1860 and 1865. He did not give any authority for any thing he read. About the first assertion he made was that the Democrat platform interfered with religion, which any one knows is not correct. It did not, nor never has, interfored with religion.

We suppose he has not forgot some of the doings of the Republicans on the same point, and it can be proved, as it stands on the record of Compress.

Well, he read at great length on various topics that have no more to do with the issues of this election than "the man in the moon." He blamed the Democrats for causing the great panie a few years ago. He said the Democrats forced the Republicans to vote for the bill. He said, "Lincoln's Proclamation liberated the slaves and not the 13th Amendment." Any one of good sense ought to know that it was the ratification of the Amendment by three-fourths of the states. And further he said "that when they submitted the Amendment, not one of the states engaged in the rebellion ratified."

He is well aware that all that were not unalso that the Southern States complied with all that was necessary to again be admitted

He made one point when he said, "the less said about the fraud of 1876, the better it would be for the Republican party." But then he is excusable for that, as he did not know any better than to tell on his own party. Well, so much for him. "Peace be to his

The Republicans will have a grand flag-pole raising next Saturday. Old Lish Applegate will be here to jack-up the pole. We would advise them not to go at too much expense as they will not need it after next Tuesday. CITIZEN.

ST. JOHN. - This new hotel is having a good run and is becoming deservedly popular. Among those registered there this week we notice the names of Senator Slater, ex-Senator Mitchell, Gen. Simpson, Major Cornoyer and all the other notables who visited the city.

LIGHT.-Weston has had no street lamps. S. A. John has set the example of placing an elegant lamp in front of his hotel. If each of our business men would follow suit, the main thoroughfare would be well lighted, no small convenience during the dark winter nights.

NIGHT SCHOOL .- At the request of many of our young men, Rev. E. W. Morrison will hold night school twice a week, in Dealey's Hall, during the winter months. This is a good move and we hope to see the young men make a success of it by prompt and regular

No Division .- Hon. P. J. Kelly, of Umatilla, gave us a call this morning. We do not think so much of him as we did before he was elected, on account of his failure to divide Umatilla county. There is a strong feeling against him in this end of Umatilla for that reason. If Mr. Kelly has any explanation to make to his constituents the columns of the Statesman are at his disposal .- Walla Walla Statesman.

Centerville.

Last Saturday evening this city was alive with excitement and enthusiasm, caused by Caton's speaking, and noisting a Hancock and English pole. The pole was erected with be coming celat, and Caton made a few appropriate remarks. The Republicans were determined not to be outdone in appearances, and opened a large banner over the street, having the names of Garfield and Arthur thereon inscribed. They also, holding a monopoly of the disciples of Vulcan in that town, reserved the exclusive right of discharging anvils. In the evening, Dr. J. H. Irvine in a neat, pointed speech, adapted to the occasion, introduced the Hou. N. T. Caton, the "sledge-hammer orator" of Walla Walla, to the largest audience that had ever assembled at Centerville. No buncome, no sophistry, no burlesque, but the rhetorical blows of proven facts that Caton adduced must have reverberated in the innermost recesses of Republican partisanship. He invited any person in the audience who disagreed with his statements, doubted his proof or noticed any defect in argument, to speak out and say so, and he would thank them for it. It was conducted in fairness, developed in clearness and characterized by convincing force, being a master effort. The audience was appreciative and enthusiastic throughout. There is every reason to hope that the Centreville Hancock and English club will do good work by Nevember 2d, 1880.

Senator Slater.

This gentleman addressed the citizens of Weston last Tuesday evening on the political issues of the day, the meeting being called to order by Dr. Williamson. The speaker launched forth at once on the issues, and arraigned the Republican party on its record. He fortified himself in his positions by the Congressional Records which he had with him, and made no charges except on Republican authority. He exhibited the fraud of the system of having Marshals of election, in a clear and forcible manner, making the best points on this subject that we have heard during the campaign. But the weight of his argument was devoted to portraying the unfair ness and injustice that characterized the Electoral Commission, of which Garfield was an important member. He exposed the bad faith of the Republican party in many instances, always clinching his arguments with indisputable proof. We regret that he was not present with Mitchel, that any misstatements made by either could be successfully challenged by the other. Senator Slater had the largest audience during the campaign, and received hearty applause.

In another column may be seen the advertiscment of Rev. E. W. Morrison's proposed academy. This is intended as a beginning to something better. The Presbytery of Idaho purpose establishing a first-class college within their jurisdiction. No better location for such an institution could be selected than our flourishing city of Weston. Already the necessary grounds (10 acres) have been guaranteed. The school now to be inaugurated is merely the forerunner of greater things. It will show that an earnest attempt is being made in the proper direction. There are plenty of scholars for two good schools and with the bright prospect before Mr. Morrison's enterprise we hope to see it meet with abundant success. Nothing tends more to build up a place than its educational facilities. The establi-hment of such a college as proposed at this place would enhance the value of property and be one of the best inducements to such people as we desire to cast their lot with us. Therefore the proposition should meet with every encouragement. But on that score we have nothing to fear; for the people of Weston, and we say it with pride, have ever responded handsomely to every demand that was for the benefit of the place. Their increasing prosperity is the deserved result.

State Directory.

Some days ago we received a call from Mr. W. Hyde who is canvassing Eastern Oregon for a State Directory soon to be issued by J. K. Gill & Co., of Portland. The Directory promises to be very comprehensive, giving the names of all the business men of each town; also the means of travel to each place, its educational facilities, the number of churches and their time of meeting, Sunday School statistics, a brief account of its post-office and money-order business, etc. The Directory will be ready for distribution in a month or so; of which we will give notice that all may procure one if desired.

The Edison Electric Light Has thus far proved a failure as a practical

light for family use, and the owners of gas stocks breathe more freely and see renewed dividends near at hand, but the Oregon Kidnev Tea has been a success from the first, paying large dividends of restored health to all those afflicted with backache or any disease of the kidneys or urinary organs, and carrying consternation to the pockets of rival concerns with worthless nostrums to sell. Ask for the Oregon Kidney Tea and take nothing else.

UMAPINE-This notorious chief was in town this week. He was drunk. He was disorderly. He struck a white man in the face with a lasso and then galloped out of town. He was followed and captured and placed in durance vile. Marshal wood had previously disarmed him of a bottle of whiskey. The same old story. Some noble white man who ought to languish in the penitentiary sells these Indians whiskey. It seems to be no one's business to find out who it is.
