

LOCAL LEAFERS.

Med. New York. Honor: Unatilla. School meeting Thursday. Panly sells fresh peanuts. What about the town hall library? Nearly a new brick will be a noble structure. Weston has unusual educational facilities now.

HEALTHY.—There is little or no sickness in the City.

MECHANISMS.—The Fall goods are beginning to arrive.

TIME.—They are selling good watches at reduced prices at the City Drug Store.

KNOWING.—To drive the end of a scantling through a 2x4x10 double thick glass.

STREETS.—The Marshal has a small force of men employed in improving the streets.

INSURE.—There is no better investment of money than that paid for judicious insurance.

THANKSGIVING.—Have you secured your turkey and made your mince meat for thanksgiving?

ANOTHER.—The crossing on Main street, on the east side of Franklin street is quite a convenience.

JESTING.—A jest should be always so delicate that the object of it can join in the mirth it occasions.

TORSORIAL.—When you want a real good shave call on Simpson, the barber. See his card in this issue.

COIN.—It is now after harvest! Must have money. Call and settle. Your bill is ready for you. J. E. JONES.

DINNER.—A good place to get a good dinner is at the St. John Hotel. Farmers and others should make a note of this.

REPAIRING.—Our enterprising townsman, P. M. Pably is having his store closed and lined ready for the approaching winter.

GOOD.—We notice some people bringing their children to school in a hack. It shows sympathy with them and with education.

TRY IT.—Murray's Lung & Liver Balm cures colds and complaints of the liver. An effective and popular remedy. Try it.

Mary had a little lamb It's fleece was grey and brown, And every time that Mary laughed The grey-brown lamb sat down.

ELECTION.—It is about time to think of city officers for the ensuing year. City election takes place on the first Monday in December.

PROFANITY.—The language used on the streets by the rising generation of boys is something that might be improved by external applications.

AT LAST.—The name for those grasshoppers that came through here last summer is *Sceloporus sylvaticus*. We'll know how to meet them next time.

ASSISTANT.—Miss Mary Creswell who gives such good satisfaction as a teacher in our public school is soon to take a position in the Weston Academy.

KILLED.—A man in Southern Oregon killed his family and then killed himself. Cause, failure in business, because he did not advertise in the local paper.

WORK.—Bainford Bros are turning out immense quantities of excellent work. Their industry and honesty merit the liberal patronage they are receiving.

GONE.—Joe Lennox has left us and his place is filled by Mr. L. A. Simpson, formerly of Walla Walla. We hope that Mr. Simpson will find Weston both pleasant and profitable.

VISITING.—Messrs. D. White and F. Johns, hautes of Washington Territory, are here on a visit. The moss has not yet begun to sprout on their heads, and the boys look quite natural.

CROSSING.—From Dealy's Hall to Hartman's there is a break in the walk which proves very disagreeable. As this thoroughfare is much traveled, we commend the matter to our City Fathers.

WANTED.—A jeweler. People don't know when to get up in the morning, or go to their meals. Even the roosters are crowing out of season. Let us have a watchmaker or something serious may result.

MAIL.—Our Pendleton correspondence on first page was mailed in time to have reached us in time for last week's issue, and did not reach Weston until Saturday. This is the third time such delays have occurred.

DWELLINGS.—The demand for dwellings still continues. Perhaps some of our "solid men" will realize the necessity of building houses to rent when it is too late. Good fortune will not forever force itself upon a place. It ought to be encouraged rather than rebuffed.

Agricultural Implements. I have now in stock a full line of agricultural implements of the best manufacture which I am selling at Portland prices. Please call and examine. J. E. JONES.

List of Letters

Remaining in Weston Post-office Nov. 10th, 1890. Barrett, Miss Eva; Bug, Chas; Brantley, Mrs P C; Clark, Jas; Cummings, Jno M; Cummings, Chas 2; Crisman, Wm 2; Caton, Mrs Kate; Derriek, H C; Dingus, P A; Davis, Walter; Foster, Sam; Frazer, Thomas; Greeley, I F; Gordon, John; Hudspeth, Robt; Hurd, Jarvis; Hargrove, J F 2; Hopper, Miss Rosie; Holtman, William; Jackson, John H; Jackson, Frank; Keene, Frederik; Kiphart, Joseph; Morris, Joseph; Miller, Mrs Sarah A; McKay, Frederick; Maag, William; Milne, Alexander 3; Moore, William; Moore, Ans B; Montgomery, J G; Patton, Porter; Biggs, G W 2; Ray, Thos D; Sanders, Chas F; Saunders, W G; Shaw, William T; Smith, Richard; Shook, Samuel; Stitta, R L 2; Treston, S; Woodworth, Laura; Woodworth, I J; Kinkade John

Persons calling for the above letters, will please say "advertised." L. S. WOOD, P. M.

DISOLUTION.—The partnership heretofore existing between Mrs. Schnebey and Mrs. Miller in the Millinery business, has been dissolved by mutual consent. The business will be carried on by Mrs. Miller. See advertisement in another column.

LAND.—If people here had to go a thousand miles to get land, they would all be emigrating. But all you have to do is to go to W. W. Caviness, Cold Spring, or T. E. Bramel, Willow Creek, and get it. Why will you let the golden moment pass unimproved?

SEASON.—The farmers have had occasion to rejoice at the propitious autumn. The area of grain being put in this season very much surpasses that of any preceding. Beautiful rains have furnished the requisite moisture, and the prospects are encouraging.

BETTER.—The young ladies of Union and LaGrande have started a buggery-catching bug for a collection. So says the *Sentinel*. Better go catching grasshoppers and keep them from biting vegetables next year. They could prove themselves true philanthropists by canning them.

YE OLDE FOLKES.—Some of the young ladies are engaged in developing an Old Folks' Concert. That's right, if we are ever going to have any social enjoyment we may as well be at it. Man was not made to eat and sleep and bow politely to a passing acquaintance, speaking entirely apart from his future concerns. Give a helping hand to all innocent recreation whenever opportunity presents.

LIKELY.—The *Mountain Sentinel* reads a moral lecture to the E. O. and *New Northwest*, headed "James and Abigail." It's only objection to Mrs. D.'s Woman's Rights is the fact that she is really working for the Republican party, under the other pretence. It also says, "if this great question was left alone and could be decided by woman's ballot it would fall to the earth a mutilated corpse and a dead issue."

OFFICIALS.—Early Thursday morning Mr. W. L. Donaldson came to town for Dr. Egan, and tied his horse to a wagon while he stepped into the office. He returned in about five minutes and found his horse gone. Upon going to the livery stable he saw his horse. Our deputy Marshal had taken it there on the plea that the horse had been standing on the street all night. Of course Donaldson had to pay the stable bill.

CROWS.—No Fence Law has been defeated in Walla Walla county, and the *Statesman*, the champion of the opposition to it so happy that it turns loose a whole barn-yard full of roosters "to chaunt exultant strains of victory." The *Statesman* is so vigorous and enterprising it must needs meet with success. People are only beginning to appreciate the luxury of telegraphic news two days ahead of waiting for Portland journals.

GO AHEAD.—School District No. 20, just north of us, has just completed a neat and commodious school-house. They have further secured the services of Prof. L. H. Lee, ex-Superintendent of this county, as teacher, and expect to have a first-class school. The building has not been seated properly yet, and they preferred waiting another year, and then getting the patent iron desks. This is not the strongest district in the county, but they seem to be made of the right kind of stuff.

FIRE AT EUZENE CITY.—At 10 o'clock yesterday morning, a fire was discovered in the Astor House at Eugene City and before it could be checked, it destroyed the building and the frame structures which surrounded it. The following are the losses: Astor House, Mr. Chas. Baker, owner, \$6,000; insurance, \$3,500; B. C. Pennington, \$4,000; Mrs. Riley, \$300; E. Rosenblatt, \$500; J. J. Walton, \$1,000; J. R. Ellison and F. Rankin, \$3,000; Eugene Guard, \$800; insurance, \$300.

CENSUS.—The census tells us that we have advanced in a century from 3,000,000 to 60,000,000; from villages to metropolitan cities; from 37 to 9,000 periodicals; from 75 post-offices to 33,000; from 1,900 miles of horseback mail service, costing \$32,000 a year, to 265,000 miles, costing \$129,000,000, together with a quarter of a million miles of telegraph wire. We have 141,620 school houses and 63,082 churches. Our farms, implements and live stock are valued at over \$11,000,000,000; our farm products and farm wages are nearly \$3,000,000,000, and our exports nearly \$500,000,000 a year.—*Statesman*.

The Oregon Kidney Tea. If your back aches, or if you have any trouble with your kidneys or urinary organs, don't buy some nostrum that you know nothing about, made in some distant city to sell, but buy a remedy that has never been known to fail, made from herbs produced in Oregon and put up by a firm known all over the Coast. Patronize home industry and be cured at the same time.

Enterprise.

On the north-east corner of Main and Franklin streets stands J. E. Jones' new brick building, one of the finest edifices in Eastern Oregon. It is an ornament to the city of Weston, and a beautiful monument of the enterprise of one of her citizens. The building is 30x80 feet and two stories high, surmounted by fire walls several feet in height. It has been finished inside and out with regard only to its durability and beauty. The upper story is to be occupied as a lodge room by the Masons and Odd Fellows. The lower story will be used by Mr. Jones himself for his increasing hardware business.

The brick part of the building was built by Mr. A. Childers, of this place. The contract for the wood work was awarded to Messrs. Meckling & Beckett. This part of the work was under the direct supervision of Mr. Meckling, to whose skill and judgement the building owes much of its elegant appearance. The cornice, mouldings, casing and sheving, all display superior workmanship. The painting and glazing were done by Mr. R. H. Drew who has well performed his part. Thus it will be seen that it was not necessary to go outside of Weston for any of the artisans, and their work will compare very favorably with that of mechanics of places of greater pretensions. Of course to Jones himself is due the lions share of the credit in planning the building and seeing everything carried out to a successful completion. The enterprise thus displayed by Mr. Jones is well worthy of commendation and imitation. When one who has grown up with the place shows such faith in its future greatness and prosperity we have every reason to feel hopeful and encouraged. Such imposing structures give an air of substantial progress and permanency to the place that cannot fail to assist very materially in building it up. Thus every one who has the enterprise to embark his means in such an undertaking becomes a public benefactor. We sincerely hope that Mr. Jones will meet with the success he so richly deserves, and that others will be induced to follow his good example of building up the "City of the Valley."

SOAP.—We have received reports from most of those who have tried the soap manufactured by W. J. Dyer of Walla Walla. Everybody speaks in the most flattering terms of it, and there seems to be no good reason for our merchants importing more from elsewhere, when this Walla Walla firm turns out such a superior article. The "Flannel Soap" is a unique and excellent sample, containing the properties claimed for it. Always encourage home manufacture. Mr. Mattoon, well and favorably known in this city, is the gentlemanly agent at Walla Walla. Call and see him.

ACCIDENT.—Last Sunday, Mr. Pat Ryan, of Greenwood, was thrown from a wild, young horse which he was riding; but as one foot remained fast in the stirrup, he was dragged by it for quite a distance. Finally his boot slipped from his foot and he was released. He sustained a severe injury—perhaps concussion of the brain. Dr. Hall, of Pendleton, was summoned. On Monday Dr. Eagan was called in consultation. Mr. Ryan, when last heard from was in a critical condition, not having recovered consciousness from the time the accident occurred.

A CARD.

It having been understood by many that Mr. H. B. Starr was a partner, or was interested in my business, I wish to state to the public that Mr. Starr never was interested in my business in any way except at daily wages, and is no longer in my employ. J. E. JONES.

The Ester Organ.

This fine instrument is now offered for sale on easy terms, delivered to customers in any part of the country, and fully warranted for five years. The WEBER and other first-class Pianos at the lowest prices.

Also sheet music and music books. Orders by mail will receive prompt attention. Instruments tuned and repaired. Price list sent on application. Address all orders to A. B. Stanley, Walla Walla, W. T.

A Remarkable Result.

It makes no difference how many physicians or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in cases of Lung Disease. It is true that there yet thousands of persons who are predisposed to throat and lung affections, consumption, hemorrhages, asthma, severe colds settled on the breast, pneumonia, whooping cough, etc., who have no personal knowledge of Boesche's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint, Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America.

NOTICE.

LAND OFFICE at LaGrande, Ogn., Oct. 27, 1890. NOTICE is hereby given that Joseph E. Hoon has this day applied to enter under the act of Congress approved June 30, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," the NE 1/4 of Sec. 21, T. 4 N., R. 35 E., W. 3, and names the following as his witnesses, viz: Wm. REDINGTON & CO'S FLORIDA WATER FOR THE HANDKERCHIEF. This article, possessing the most delicate fragrance of Flowers, is unequalled as a perfume for the Handkerchief. FOR THE BATH. Used in bathing, it imparts energy and strength to the system, and gives that softness and delicacy to the skin so much desired by all. IT REMOVES SUNBURN, FRECKLES AND PIMPLES! And, diluted with water, it makes an excellent dentifrice, imparting pearly whiteness to the Teeth, sweetness to the Breath, and renders the Gums hard and of a beautiful color. The irritation caused by the bites of Fleas, Mosquitoes and other insects, is instantly relieved by the application of Redington & Co's Florida Water, and a few drops sprinkled on the carpet and about the person not only surrounds you with the fragrance of a rare bouquet, but prevents in a great measure the presence of these troublesome pests.

Used in bathing, it imparts energy and strength to the system, and gives that softness and delicacy to the skin so much desired by all. IT REMOVES SUNBURN, FRECKLES AND PIMPLES! And, diluted with water, it makes an excellent dentifrice, imparting pearly whiteness to the Teeth, sweetness to the Breath, and renders the Gums hard and of a beautiful color. The irritation caused by the bites of Fleas, Mosquitoes and other insects, is instantly relieved by the application of Redington & Co's Florida Water, and a few drops sprinkled on the carpet and about the person not only surrounds you with the fragrance of a rare bouquet, but prevents in a great measure the presence of these troublesome pests.
