Our Western people are liable to be laid low by malarial fever, when breaking up new lands. The folks in the East are also complaining of fevers, chills and agues, arising from decaying vegetable matter and imperfect drainage. For either East or West the best remedy is Ayer's Suffering Cure.

Frank Johns, writing from Yakima county says: These who are not seeing are getting ready to do so. Wheat on seed made from 10 to 20 bushels to acre; on second plowing from 15 to 25 bushels. Forty acres of seed on Dr. Egan's place made 20 bushels to the acre; 35 acres of second plowing averaged 25 bushels. Corn made from 15 to 30 bushels to the acre. Some railroad land is being bought.

The other day a gentleman wanted the writer to air a grievance through the LEADER. It was something of which the LEADER knew nothing positive. It concerned the gentleman personally but when it was suggested to him that he assume the responsibility of fathering the complaint he was not so anxious to have it done. 'Twas ever thus. Plenty of people are willing for the news; but 'don't mention my name in connection with it.'

The new special delivery stamps are about twelve and a half inches across and three-quarters of an inch from top to bottom. The color is dark blue. On the left side is an arched panel with the picture of a running messenger boy, surrounded by the words "United States." On the right is an oblong tablet, around which are the words: "Secures immediate delivery at a special delivery office." Over the top of the tablet is the legend: "Special Delivery," and at the bottom "Ten Cents," and a small shield bearing the numeral "10." Portland is the only town in Oregon that has sufficient population (4,000) to be entitled to special delivery of letters by messenger.

The New Zealand Loan and Mercantile Agency, at San Francisco, has received from New Zealand some famous Seed Oats, samples of which may be seen at the LEADER office. Parties wishing to purchase oats for seed from this Agency should do so before the middle of October. For prices apply at LEADER office. Orders respectfully solicited.

Wheat in Weston to-day is firm at 50 cents. During the early part of the week Saling & Co. paid as high as 52 cents for a few lots, but advices from below compelled them to reduce the price to 50 cents. The highest price paid in other towns around us was 51 1/2 cents. It is needless to say that farmers are still holding their crops for better prices, and many who were desirous of selling when wheat raised to half a dollar now hold on in anticipation of getting 60 cents. There is nothing in foreign market reports to indicate that the price will greatly exceed the present figures, still it is hard to tell what may happen.

The open meeting of the Good Templars' Lodge that took place at Milton on Tuesday evening proved a complete success, and was enjoyed very much by all present. The entertainment consisted of music, recitations, readings and speeches. The meeting was very interesting and well attended. The musical exercises were very fine, especially the singing. After recess the audience was entertained by speeches from Revs. Oglesby, Koozitz and Craig, and Messrs. White, Shields, Deam and Skee. Blue Mountain Lodge was well represented, some 35 members being present. Among those present from Weston were Messrs. Shields, White, Barnez, J. E. Deam, Lee Deam, Campbell, Cox, Wood, McAllister, Prime, Froume, McEachern, Hicks, Lixallien, A. Skee, James Skee, Oglesby and Craig; Messrs. Rothrock, Archibald, Wood, Willard, Beeler, Rideour, Morrison, Miller, and Mesdames White and Prime. The meeting was one long to be remembered by all present, and the large number present indicated the interest taken in the temperance cause. Blue Mountain Lodge of this place intends to have an open temperance meeting on the 30th of October, to which all are respectfully invited. Com.

BLUE MOUNTAIN NOTES.

Wheat arrives at this station at the rate of about 3,000 sacks per day. The latest day's work yet was about 4,000 sacks. It is a hard matter to estimate the amount of wheat here. To say the least, there is lots of it. This station gets very few cars—about 20 to 24 a week. All the platforms are full and as much more piled on ties, cord wood, &c. Seven cars were loaded with wheat yesterday and only one taken away—balance left on side track.

H. Key is delivering his wheat at the rate of 600 sacks per day.

Mr. J. M. English, who is delivering wheat here, says that from 21 bushels of wheat sown last fall, he threshed eight hundred and sixty bushels and cut 4 acres of it to hay.

J. H. Cannon says that it will take more pickets to build a fence over a hill than it will on level ground.

Considerable oats and barley have been shipped from this point to Walla Walla and East.

Mr. J. E. Pattison's little boy doted his arm yesterday, while playing at school.

NUFF CED.

Power of the United States.

Hon. James N. Keran, United States Marshal of Pennsylvania, writes that during the severe winter weather his family used Red Star Cough Cure and were much benefited by it. He states that he knows nothing better in relieving colds of sore throats.

\$20 Reward.

Lost, on June 14th, 1885, one matched span of sorrel horses, brand = on left shoulder, and on right shoulder. One has a white spot on forehead; the other has no white on him. The horses are 15 hands high, weigh about 1000 lbs each, are six years old and are work horses. Twenty Dollars reward will be paid for their delivery at the livery stable in Weston. Any information leading to their recovery will be liberally paid for. J. B. CHAMBERLAIN, Dayton, W. T.

CENTREVILLE CHAT.

CENTREVILLE, Oct. 1.

To the Editor of the Leader: B. D. Clemons will build a brick blacksmith shop this fall, has commenced the foundation this week.

Woodruff & Hemmah has bought the building occupied by Barker & Batcher as an office and will fix up a first-class barber shop.

Clark Walters, one of Pendleton's commissioners, is able to be on the streets again.

J. T. Armstrong, Attorney from Adams has been in town this week courting or lawing, I do not know which.

We understand that the Indian counsel has been postponed for some reason or other, until the 20th of October. Pendleton has some other scheme on hand, she wants to have the Indians placed on the upper part of the Reservation. A good idea for Pendleton. That would take all the land as far as John Adams; good again. Then she would have all the taxable property and trade tributary and under her control. That would give her all the voters and she could run the county as she pleased, without even allowing one or two little offices to be selected from the outside of her domain. Would it not be a good idea for the taxpayers of this part of the county to take a look at the situation as it is presented to them. The next county campaign will open the eyes of those that have been disposed to look upon Pendleton as their friend. But if there is not something done it will be too late. Let the taxpayers of this part of the county take warning. For if she gets what she is working after, with all the lower part of the Reservation settled up with white men, and the upper part with the Indians, what show will you have? She will show the cloven foot, and make you pay tribute to her. Pendleton well knows that if the Indian is let alone, the upper part of the county would share alike with her, build up her town. Weston, Centerville and Adams would all share alike. But she is afraid that if there is not something done and at once, she will be unable to dictate and lose the grip she has had and has now on the upper part of the county. But as long as the people will let her have full sway she will wield the ax to her own advantage, she will gather the fruits of your labor, and all you can do is to "pass the custard." A. Z.

Henry Kopetka had the misfortune to almost lose a thumb while chopping wood a day or two since. As Henry is soon to take a better half unto himself he will stand in danger of losing any portion of the natural body if he acts the part of the modern husband and lets his wife wrestle with the woodpile.

Another fight took place in the O. K. saloon Saturday night. Results: bar-keeper fired out, followed by half a dozen beer glasses from the hand of saloon keeper; barkeeper with blood flowing down his face swearing vengeance; marshal comes along; barkeeper skips; saloon keeper looks serene; all's quiet till the next fight.

By the way, what has become of Pine creek, the flowery, showery, gushing, semi-annual Pine Creek. Has the Tribune out of respect to the feelings of its readers, requested him to forever withdraw from the fields of journalism or has his copy of the WESTON LEADER been stopped and his supply of news thus cut off? Whatever may have been the cause of his sudden retirement we most earnestly hope that he will never again be so rash and unfeeling as to inflict his effusions upon a patient public. ALKI.

Adams Correspondence.

ADAMS, Sept. 31.

To the Editor of the Leader: After a delay of some weeks, I again resume my "indelible." Our little town is looming along as I presume all the towns along the line are doing now on the tail tide of prosperous times.

Reese & Redman's fine brick is well under way. Mr. Sill has the foundation laid for a neat brick residence, 22x18, with a 12x14 kitchen. L. M. Simpson is busily engaged handling the brick for his building, so you see we are to have three brick buildings this fall, which is a very good beginning.

I do not wish to say anything to induce wood carpenters to come here, for that would work a hardship on the boys already here; but I will say that they are all busy, and "more, too." Rideours are putting some important improvements on their stable; Howell is building an addition to his hotel; Tharp Bros. and Cook & Peoples are improving their buildings to such an extent that they will make, when completed, one of the handsomest blocks in town.

I am pleased to note that Abe Jones with his family has moved to town.

I. T. Reese left, last Monday, on a business trip to Portland.

Mr. Watson, business manager for W. A. Snodgrass, left, last Saturday, for a short visit to his home in Willow Valley. Mr. Snodgrass himself paid the village a flying visit last week. It is rumored that as soon as he gets his business in a proper shape to do so, he will put a large stock of goods in Adams. His warehouse building used in its construction 140,000 feet of lumber and cost nearly \$7000.

Will our idolized Senator lend his influence to the nefarious scheme now undoubtedly being worked up by the Pendletonites? It is greatly to be feared, for without it they can never accomplish their object. Poor old Father Conroy! How much treachery has been carried on in thy name! Who is it that cannot see now why the first attempt to treat with the Indians was a failure? The thing was too sudden for them; they had not time to lay their little plans. But what is the use to them? We are powerless. We of this little stand, and always have stood, a disintegrated mass, as one man. But this we can assert, without fear of successful contradiction, there are not thirty Indians on the Reserve who would from choice select this end of the reservation as their future home, and only the worst of treachery will ever place them here. I hope that good old man, who has stood by them through all these years, may so far outwit his calumniators as to secure for these people at least their choice of their future home.

Your kind reception of the "Times" last week was appreciated by us all and showed us plain enough where your heart was. Some of us have never doubted but that you were a sincere friend to our little town. May the LEADER live forever, a true friend (as it has always proven itself to be) to those who deserve its friendship. M. S. LEE.

Unpaid Weston city taxes are now delinquent. If not paid at once, costs will be added. W. H. GETCHELL, Collector.

MILTON MESSAGE.

MILTON, Sept. 30, 1885.

Quite a number of families have moved into Milton for the purpose of sending their children to our most excellent schools. The primary department is already crowded and we think another teacher is very much needed, which we doubt not will soon be supplied.

The Good Templars' entertainment last evening was a very pleasant affair. Rev. Koozitz delivered quite a stirring temperance lecture after a very creditable programme consisting of a speech by Prof. Pierce, also some music and recitations by other members of the order. About thirty or forty visitors were present from Weston and Centerville. Come again.

Died—Mrs. Catharine Young, at her residence on Hudson Bay. Her funeral service was held at the M. E. Church of this place, conducted by Elder Moss of Centerville, assisted by Rev. Koozitz. The Odd Fellows, of which order her bereaved husband is a member and she a daughter of Rebekah, also took part in the last sad rites. She was loved and respected by many friends.

Mrs. Van Worthington, a courageous and energetic little citizen of Milton, having grown weary of waiting for some one of the sterner sex to take the matter in hand, started out yesterday with a subscription paper asking for money to build a fence around the Milton burying ground. When heard from to-day she had succeeded in raising almost enough for the purpose. May success attend her efforts.

The M. E. Church house has been considerably improved of late, owing to the energy of its present pastor. The first quarterly meeting on this charge will be held next Saturday and Sunday, Rev. Dr. Tarr, P. E., of Lewiston will be present. Everybody invited to attend.

HAYWARD HAND GREENADES.—The best known Fire Extinguisher in the world. Don't delay in supplying yourselves with them at once. Property and lives saved every day. Property and lives saved every day. Property and lives saved every day. M. S. McQUARRIE, Agt., Walla Walla. G. J. BECHT, 124 Market St., S. F., General Agent.

POSITIVELY NON-EXPLOSIVE.

THE CHICAGO ELECTRIC LAMP.

32-candle Power.

"See one and be convinced."

Delivered by express to any part of the Northwest.

Address: THE CHICAGO ELECTRIC LAMP CO., Cor. First and Washington, Portland, Or.

Among its many advantages may be enumerated the following:

1. The lamp, by the latest improvements, is positively non-explosive.

2. It cannot break or smoke a chimney.

3. An ordinary chimney can be used.

4. The lamp burns at a cost of 1 cent per hour.

5. The wick movement of this lamp is very durable and cannot get out of order, not so simple that any one can wick a lamp in 20 seconds.

6. A wick is furnished free with every lamp. One wick will last 2 to 3 months.

7. The lamps, being made of brass, cannot rust, but will last a lifetime.

8. That you save for chimneys in one year alone will suffice to pay for a lamp. This lamp has the only wick movement that requires no time of wick, and also the only movement that brings the wick up perfectly even.

9. The wick trimmer if turned down until the stop work acts and permitted to go out without being blown, a minute or less before all the time required.

10. The top of the font is so constructed as to hold any small quantity of oil that might accidentally run over, thereby preventing damage to furniture, carpets, etc.

11. The insurance companies recommend their use, because they are non-explosive, etc.

THE BRILLIANT AND STEADY LIGHT produced by these lamps because of their peculiar construction, the main principle being a double draft, the outer air tube being abundant supply of oxygen, which is necessary to insure perfect combustion and thereby burning the odorous and poisonous matter which escapes in other lamps and the inner or "spreader" air tube steadies the flame and prevents its coming in contact with the chimney.

THE TEST OF LIGHT.—Made by a prominent authority gives the following result: Ordinary lamps, 8-11 candle power. Gas lamps, 20 candle power. Improved new Chicago lamps, 50 candle power.

THE FOLLOWING STYLES—Are manufactured and cast in either brass, nickel or gold bronze.

LIBRARY LAMP—Can be attached to any size of oil fixture, side bracket, etc., holds one quart of oil and burns 7-8 hours. Price \$2.00 to \$2.50.

STAND LAMP—For table or desk use. Holds one quart of oil, and burns 7-8 hours. Price \$2.00 to \$2.50.

LIBRARY FOUNT—Made expressly for library extension hangers. Holds one quart of oil and will burn 8 hours. Price \$2.75 to \$3.00.

ALL-NIGHT FOUNT—Same as Fount Lamp only has a larger reservoir and consequently will burn longer. Price \$3.00 to \$3.25.
