VOTE BY COUNTIES ON SCHOOL ISSUE

The complete returns on the normal school issue possess a certain melancholy interest, for the same reason that the sandbag with which he was felled would become an object of curiosity to the victim of a hold-up. Nearly every county in the Willamette valley slugged the schools woefully. Clackamas and Marion leading the slaughter. About the only consolation was afforded by Lane county, which gave them a splendid vote. Southern Oregon was again loyal to the schools, and Jackson county manfully to bat with the largest majority for the Eastern Oregon Normal, 3275, given by any county in the state. In fact, the Weston Normal fared nearly as well in Jackson county as the Ashland Normal, in marked contrast with the scabby treatment accorded the Ashland school by our own county of Umatilla.

In the state at large the Weston Normal received 86,354 votes for to 109,179 against, an adverse majority of 12,325. Had Multnomah county given it the support expected, this would have been overcome. The Ashland Normal had 34,964 votes for to 109,295 against, an adverse majority of 22,331. The vote by counties on the Weston Normal follows:

THE "WISE GUY'S" DICTIONARY.

Reub. A man who owns 240 acres of farm land valued at about \$200 an acre.

Jay. A man who owns a 1915 automobile.

Country Jake. A man whose home is equipped with gas-lights, hot and cold running water, bath rooms and hot water heating plant.

Yap. A man whose son is leading his class at the university.

Hick. A man whose signature is good for \$10,000 at any bank in the county.

Boob. A man whose daughter finds herself worth \$25,000 when the will is read.

Simp. A man, to corral whose vote the congressman tramps over forty acres of plowed land.

Wise Guy. A city chap—with about 30 cents in his pocket—who uses the above terms.

LUKE M'LUKE SAYS

When you see an overdressed woman escorting a man who looks like a door mat, you know who is boss in that house.

A girl can put in ten years acquiring culture. But that won't keep her from snoring when she is asleep.

The man who beats his wife isn't a bit worse than the man who robs his family by spending his money on his friends.

The old-fashioned man who used to paddle his own canoe now has a son who owns a motor boat named "Lah-kabbible."

shall be situated, setting forth specifically the districts it is proposed to consolidate. Such petition, if from a district of the first class, must contain the signatures of at least one hundred legal school voters; if from a district of the second class, at least fifty legal school voters, and if from a district of the third class must contain at least five legal voters, and shall request the district boundary board to submit, at the next annual meeting thereafter, to the legal voters of the several districts, the question of the consolidation of such districts," etc.

Let the Parent-Teachers' Association continue to hammer along the lines that have occasioned these remarks. Eventually it may succeed in shaping a better school and its logical correlary, a better Weston.

BRITISH BATTLE SHIP BLOWN TO PIECES

LONDON, Nov. 26.—The British battleship Bulwark was destroyed completely by an explosion today near the mouth of the Thames.

Of its crew of more than 700 men all but 12 were killed or injured.

It is rumored that two German submarines were prowling in the vicinity.

London is panic stricken.

SCHOOL STANDARDIZATION IS PROPOSED FOR WESTON

At the parent-teachers' meeting Friday evening several subjects of interest were discussed, the topic of chief importance relating to the proposed standardization of the local schools and the making of school life more attractive to the pupils by means of play grounds and otherwise. This subject was introduced by N. D. Wood, the presiding officer. All present apparently agreed with the objects of his proposal, the only difference of opinion resulting over ways and means. A motion that the meeting recommend to the board that the district's credit be pledged to secure the necessary funds until such time as a tax could be voted, was lost. A motion prevailed that a committee be appointed to solicit funds for immediate use in bringing about better conditions for the children.

Director Wurzer strongly favored play grounds for the Weston schools, saying that he was much impressed with the manner in which the Riverview, Wash., schools are thus equipped.

Director MacKenzie spoke of the mutual advantages which would follow if contiguous districts could be persuaded to unite with the Weston schools. The smaller adjoining districts, he thought, could employ convayances for bringing their children to Weston daily at less expense than the cost of teachers and maintenance of their own schools.

The question of "Home credits" was discussed by Superintendent Robinson, and Miss Von Wintergerode spoke of co-operation between parents and teachers. A brief musical program was given.

JACK JOHNSON'S CAR.

Jack Johnson's racing car, which two years ago was the talk of the country, has been purchased by B. C. Rosecrans of the Old Sanitarium at Prairie du Chien, Wis. This monster racing car was built by the Thomas Flyer Co. The solid aluminum body was cast in one piece in England, no manufacturer in this country being able to make it at the time. Its mechanism has a six-cylinder engine, each of the cylinders being 5 1/2 by 7 inches, which have a capacity of 195 horse power and will send the machine over the ground at a speed of 90 miles an hour. All the parts of this wonderful speed demon were especially made for Jack Johnson and cost \$14,000. However, the reckless career run by Johnson in connection with his famous restaurant in Chicago brought about the loss of his rights in this country as well as his wonderful machine, which was attached for a debt by the Heileman Brewing Company of La Crosse.

Signs of the Times.
True, it does sometimes seem as if the world were going to the bad, if we judge from the daily news. But we must consider the enormous increase in population, the fact that "many are running to and fro," that there is no corner of the earth so dark or distant that the searchlight of modern enterprise does not find it out and explore it; that human nature remains unchanged amid all these changing conditions, retaining still its weaknesses and passions as well as its grand and noble impulses.

To sum it all up:
This world is not so bad a world as some would like to make it; But, whether good or whether bad, Depends on how we take it.

And, taking it from the viewpoint of one feminine mind, there was never a generation better worth living in than the generation of today.—Mrs. Mary E. Dustin in Boston Globe.

GREAT SHORTAGE IN WORLD'S WHEAT

Umatilla county growers—not a few of them around Weston—who have declined to part with their wheat crops at prices several cents above one dollar a bushel, would seem to have good justification for their faith in further advances.

A statement given out by the Bartlett-Frazier company of Chicago and republished in the Oregon Journal is decidedly bullish. It demonstrates that, the war situation aside, the statistical position of wheat would be unusually strong. It shows that the 1914 wheat crop in the northern hemisphere is deficient in every country of surplus production save only the United States, and that a similar shortage is evident in the aggregate of wheat production in the importing countries.

After giving many tabulated estimates the Chicago experts place the world's shortage this year at the record figure of 165,000,000 bushels. In other words, for every 100 bushels of wheat needed by importing countries this year, only 75 bushels are available. The requirements are given at \$1,000,000 bushels and the available supplies at only 496,000,000 bushels.

Not without reason are far-sighted foreign buyers paying high prices for the American surplus, and the present market abroad is apt to be limited only by the tonnage situation. Should peace be declared tomorrow, wheat ought still to sell locally at a dollar a bushel or better for a year or more, and other cereals at proportionate figures.
