## TALIAN FORCES TAKE AVLONA

Reign of Anarchy.

Turkish Ruler Loses Hold on Populace-Scarcity of Provision

implies no purpose on the part of Italy to occupy interior points, but is merely intended to prevent anarchy on the opposite coast of the Adriatic, which is but a few hours from Italian territory.

Cattle and sheep were firm and hogs Several districts of Albania are in were steady.

Several districts of Albania are in a state of rebellion against any authority, Essad Pasha, the Turkish ruler, apparently having lost his hold on the people.

The semi-official announcement says that the only object of occupation is to cut short constant annoyances from open or concealed enemies, besides holding up Italian interests, namely, not to allow Avions to fall into the hands of any naval power.

were steady.

Three loads of prime steers were sold at \$7.50, a quarter better than the ruling price of last week. Other good loads went at \$6.75 to \$7.35. A load of extra fancy cows was sold at \$6.60, but the general market for this class of butcher stock held at \$6.

About 45 loads of hogs, all told, were disposed of. The top was \$7.50, where it closed last week, but the bulk of sales were at \$7.45.

The strength of mutton prices was heaven by the sale of a hunch of choice.

open or concealed enemies, besides holding up Italian interests, namely, not to allow Aviena to fall into the hands of any naval power.

It is understood that the Italian government intends to safeguard these political, commercial and ethnographical interests without arrogance, but without weakness and also without being distracted from the graver issues arising from the European conflict.

For some time the situation in Albania has again been grave. Several districts have rebelled altogether against any authority and have become prev to the worst form of anarchy. Conditions have been rendered more grave by famine. The scarcity of food has been brought about through the absolute isolation of Albania owing to the state of war existing on the Adriatic, while Albania is bounded by two belligerent countries, Servia and Montenegro, which, together with Austria, have absorbed all available provisions which Albania had stored.

The price of food has increased 210 per cent, and in addition the quality of creaks is bad, causing serious epidemics.

Especially in the interior discontent reached such proportions that Essad Pasha lost all power. He saw his adherents gradually vanish, his troops the come reduced to a few thousand.

become reduced to a few thousand. Sack Vegetables—Carrots, \$1.25 per become reduced to a few thousand. Even the people of his birthplace, Tirans, always his stronghold, rebelled, killing his friends and sacking and count. 3714 @38c burning his residence. Essad, feeling unsafe at Durazzo, went to Krola (Akhissar) hoping there to rally suffi-cient troops to defeat his enemies.

ITCHING, SCALY SKINS Dozen Prisoners Walk

Walla Walla, Wash .- A real Christmas tree with remembrances for every convict made Christmas a notable occasion at the penitentiary. The gaily decorated tree was in the chapel, where the exercises were held, and each prisoner was given a bag of pea-nuts and popcorn and an orange. In addition he had his fill at a chicken

atter, food, etc., from friends and relatives all over the state, Sheep—Wethers, \$5.25@6; it being probably the most elaborate \$4.25@5.70; lambs, \$6.25@7.35. friends and relatives all over the state,

Christmas ever passed at the prison.

Papers arrived for 14 prisoners and Papers arrived for 14 prisoners and 12 of them were released. The others were in the hospital or waiting to hear from relatives who agreed to send them money. While there were a total of 35 paroles, pardons and releases, most of the men were at road camps. The list included some final releases for men on parole.

MARKETING FARM TIMBER AT A PROFIT

Portable Sawmill Used for Converting Woodlot Timber Into Switch Ties, Which Are Extra Long-The By-Product of Such Ties in the Form of Stabs and Edgings, With Some Boards, Can Be Utilized for Lumber. Near Dubuque, Iowa.

ment of Agriculture.)
It is said to be true that the farmer ber buyer when it comes to a question of disposing of the products of the farm woodlot, or selling the timber from land which should be Farm economists have stated that the average farmer knows far less about the value of his timber crop than about any other asset of the farm, and instances in which timber speculators have fleeced the farmer can be multiplied indefinitely

The department of agriculture is now gathering material which is intended to help the farmer to market his wood at a profit, and is particularly seeking opportunities to bring about co-operation among farmers so that a whole community by selling its timber at one time may secure a better price and a better market than by selling individually and without a full consideration of the value of their lumber.

An example of what might be accomplished is furnished by a farmer living near Millersburg, Holmes county, Ohio. He was offered \$300 for the timber in his woodlot, but refused to

\$760. In the meantime he has all his ume and also in value, because hickory timber is getting scarcer. The \$760 gain may be arbitrarily divided into \$500 for the stumpage, instead of the \$300 first offered, and an additional \$260 profit on the transaction.

PREVENT SOFT-SHELLED EGGS

Fowls Should Be Given More Nourish ing Rather Stimulating Diet-Avoid Spices in Mild Seasons.

Soft-shelled eggs frequently appear among fowls in full lay, especially if the birds are deprived of shell-forming material. Eggs are often profuced at too rapid a rate to be con pletely coated with lime substance. Soft-shelled eggs, if dropped from the roosts and broken, are liable to produce the egg-eating habit among the flock. Poultry-keepers should. therefore, see that the fowls are well supplied with shell-forming materials, such as crushed oyster-shells, bonedust or old mortar-rubble.

Should a fowl produce two eggs day and one of them is shelless, one may conclude that the bird is over stimulated and its dietary should be altered to one of a less forcing na

Spices used in mild seasons are it able to have an overstimulating effect upon the ovary and at the same time debilitate the oviduct, with the result that the latter organ fails to perform its shell-producing function. If fowls were more rationally treat ed to a nourishing rather than a stimulating dietary and supplied with shell-forming materials, soft-shelled eggs would not appear so often.

AVOID DISEASES OF POULTRY

Cholera and Other Bowel Troubles May Be Prevented by Giving Ginger and Soda in Milk.

Where milk is fed regularly to the chickens, a teaspoonful of ginger and oda added to each gallon every third or fourth day will prevent cholera or other bowel troubles. Stir the mixture until thoroughly dissolved, before feeding. This is very easily prepared. and will keep their digestive organs toned and sweetened.

**Most Skin Trouble Readily Overcome** 

The Active Principle of a Famous Remedy Works

Many people have marveled the was S. S. S. overcomes skin troubles. The ex-planation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries

and veins.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the

network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. that follow the course of the blood streams just as naturally as the most neutrishing food elements.

It is really a remarkable remedy. It contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment. And the medicinal slaments of this matchless blood purifier are just as essential to well-balanced health as the nutrilions elements of the meats, grains, fats and sugars of our daily food.

Not one drop of minerals or drugs is used in its preparation. Ask for B. S. and just inist upon having it. And if you desire skillful advice and counsel upon any matter concerning the blood and skin, write to the Medical Department, The Swift Specific Co., \$29 Swift Bidgs, Atlanta, Ga.

Do not allow some assious clerk's alsounce over something "just as good" as S. S. to fool you with the same old mineral drugs. Beware of all substitutes. Insist upon S. S. B.

P. N. U.
