A new field of usefulness has been und for the much-ridiculed skunk in the fact that it is a vigorous enemy of he full-grown range caterpillars. Birds are of no service whatever in estroying these large caterpillars, but skunks devour quantities of them, and this is another reason why these little creatures should receive more consid-eration than they now do.

country is scheduled for a boom almost unparalished. In order to overcome the depression that attacks a person in poor health it is necessary that particular attention he paid to the Stomach Litver and Boweis. These organs are the controlling power in all matters pertaining to health and there is nothing will make you feel "so blue" and discouraged as to be without appetite—to be subject to spells of head ache, indigention, dyspepsia and billous-neme—or to have constipated boweis. Nature never intended supone to be in prove matters is to give necessary atd promptly. This suggests a trial of Head and specifier, and will be found very helpful in any Stomach, Liver or Bowei allment. Made Slavery Hereditary.

The first formal recognition of no gro slavery in Virginia was March 1, 1661, when the assembly declared that "negroes are incapable of making sat-isfaction for the time lost in running away, by addition of time," and slav ery was made hereditary in Virginia in 1662 by an act of the assembly that the issue of slave mothers should follow their condition.

### Weeping Willows.

The weeping willows, so-called (scientific name S. babylonica), is a na-tive of China, from which country it has been taken over most of the civil-ized earth. It varies in height and dimensions, according to climate and soil, and invariably maintains its drooping habit, the chief cause of its
