PRZEMYSL SURRENDERS TO RUSSIAN BESIEGERS

Petrograd, via London — The garrison of Przemyśl, which capitulated to the Russian army Tuesday, surrendered without a fight.

The hoisting of the white flag over this fortress, which was said to be on the point of surrender on a number of occasions, caused little surprise, as it was generally known that it was in a terribly weakened condition, without food or ammunition, and its endurance was only a question of days.

War office advises report that nine Austrian generals were taken, more than 300 officers and 50,000 men.

The Russian general commanding the investing army has been decorated with St. George's cross.

A heavy snow storm failed to check the enthusiastic demonstrations in which the civil and military population united when the fall of Przemyśl was announced. The crowds, floundering in deep drifts which tied up street traffic, cheered the officers and soldiers who remained to participate in the celebration.

From the Kazan Cathedral, the strains of the national anthem swelled in volume as the crowd gathered, and from other points throughout the city mysteriously hidden behind the dense curtain of falling snow, music burst forth and added to the general spirit of enthusiasm.

The moral effect of the victory on Russia, it is expected, will be great, awakening hopes that this will be the turning point in the Galician and Carpathian campaign.

The ending of the long siege is considered here of great importance. It gives Russia control of virtually all of Eastern Galicia and releases for service elsewhere the Russian army which has been besieging the city.

Nothing to Be Thankful For.

Those favored few who, by their rank or their riches, are exempted from all exertion, have no reason to be thankful for the privilege. It was the observation of this necessity that led the ancients to say that the gods sold us everything but gave us nothing—Charles Colton.

To Reduce Weight.

If you are too stout don't take fat reducing medicines. Cut down on your diet, get out-of-door exercise and you will assume normal lines and reduce to normal weight. Avoid sweets, eggs, cream, fat meats and especially potatoes. Live mainly on lettuce, spinach, cabbage, lean meats, young onions, celery, tomatoes, etc. Take salted toast instead of bread and butter. If you cease to give your body fat-making foods you will cease creating fat cells. It is no trick to reduce if you practice self-denial.

Marriage.

Voltaire, in his "Philosophical Dictionary," says: "The more married men you have the fewer crimes there will be."

Examine the frightful columns of your criminal calendar; you will find there a hundred youths executed to one father of a family. Marriage renders men more virtuous and more wise. The father of a family is not willing to blush for his children; he is afraid to make shame their inheritance."

To Clean Watch Chains.

Gold or silver watch chains can be cleaned with a very excellent result, no matter whether they be mat or polished, by laying them for a few seconds in pure aqua ammonia. They should then be rinsed in alcohol, and finally shaken in clean sawdust, free from sand. Imitation gold and plated chains should be cleaned in benzine, then rinsed in alcohol, and afterward shaken in dry sawdust.

Worth While Quotation.

"Anyone can carry his burden, however heavy, till nightfall. Anyone can do his work, however hard, for one day. Anyone can live sweetly patiently, lovingly, pure, till the sun goes down. And this is all that life ever really means."—Selected.

Hydrophobia Almost Abolished.

Pasteur's discovery of the treatment for hydrophobia was due to experiments on animals. Before this the death rate was from 6 to 14 per cent in different parts of the world. It is now less than one per cent.

Too Tender-Hearted.

"Some men," said Uncle Eben, "is so tender-hearted dat day is almost almoft to make trouble foh a friend, jes' to show how kin'd an' sympathizin' in' dey kin be!"

Daily Thought.

The mind that is cheerful in its present state will be adverse to all solicitudes to the future, and will meet the bitter occurrences of life with a placid smile.—Horace.

Imaginary Ills.

Sorrow itself is not so hard to bear as the thought of sorrow coming. Airy ghosts that work no harm do terrify us more than men in steel with bloody purposes.—Aldrich.

Never Neglect a Cold.

Every cold, especially in a young child, should be considered serious. The possibility and the frequent occurrence of complications such as middle ear inflammation, inflammation in one of the accessory sinuses of the nose, broncho pneumonia or lobar pneumonia must always be a subject for consideration and prevention if possible.

Same Thing.

Doctor—"You must go away for a long rest." Overworked Merchant—"But, doctor I'm too busy to get away." Doctor—"Well, then, you must stop advertising."

How Perfectly Horrid!

When a lady insists on keeping her hat in a theater, doesn't she afford ground for the suspicion that she hasn't got pretty hair?—Charleston News and Courier.

Inconsistent.

Many a man who sighs to be an independent farmer kicks like anything when he happens to wake up some morning in time to hear the milkman.

Daily Thought.

Politeness appears to have been invented to enable people who would naturally fall out, to live together in peace.

The Flatterer.

A woman may call a man who pays her compliments a flatterer, but she likes to believe him, just the same.—Albany Journal.

Paraguay's Forest Wealth.

Paraguay has valuable forest resources, the most important of which is quebracho, particularly rich in tanin.

Thoroughly Human.

Everybody looks at the first name on a subscription list before signing it. Don't know whether it's a human trait or an idiosyncrasy.

Daily Thought.

God is better served in resisting temptation to evil than in many formal prayers.—William Penn.

In S. S. S. You Get a Twist on Rheumatism that Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "Just as good." Drugs are fast for breaking a strain, but giving a strain is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking into the skin directly into the blood. In five minutes its influence is felt. The strain is as fast for breaking a strain as giving a strain is still in practice. The strain on the skin, liver, bowels, kidneys, bladder to all work to the one end of causing out every irritating, every painful, irritating atom of poisons; it dislodges by irrigation all accumulations in the joints, causes acid secretions to dissolve, renders
