**THE UNITED STATES
CREAM SEPARATOR**

Holds the World's Record

A MODERN Not a "Disc" Separator

- MODERN—Because not "Disc" Type.**
When you buy the "United States" you get a Cream Separator with modern improvements. Separators of the disc type were originated many years ago. No recent improvements of importance have been made on them.
- MODERN—Because Latest Patents.**
U. S. Separators are manufactured under the most recent patents on separators that are effective. All basic "disc" separator patents are old and have expired. This accounts for the unrestricted use of this type by many manufacturers.
- MODERN—Because of Vertical Blade System.**
The "vertical blade" skimming device and the "disc" skimming device are the two systems mostly used in cream separators. The vertical blade system, as used in U. S. Separators, completely overcomes the defects found in disc bowls. The vertical blade is the modern system, and fully protected by patents.
- MODERN—Because no Central Core in Bowl.**
The U. S. bowl has an open center, without cumbersome central core, split wing, or discs, on, or between which cream lodges. U. S. bowls flush perfectly.
- MODERN—Because Uses Bowl Chamber Liner.**
The United States Cream Separator is the first to adopt this liner. It makes the separator much easier cleaned, and is the only way to keep it strictly sanitary. It has the approval of the Board of Health.
- MODERN—Because of Nickel-Silver.**
The use of Nickel-Silver in the U. S. skimming device makes for easy cleaning, and does away with rust, thereby meeting the requirements of sanitary laws. Steel discs rust badly and contaminate milk and cream, and are hard to keep clean.
- MODERN—Because Mechanically Washed, Sterilized and Dried.**
The U. S. is the only separator adapted to mechanical washing. This process also sterilizes and dries the bowl. A mechanical washer furnished free with every U. S. Separator.
- MODERN—Because Skims Nature's Way.**
The U. S. is the only well known bowl that skims nature's way—cream to top, skim milk to bottom. We haven't known of anyone improving on nature. Have you?
- MODERN—Because the U.S. is Self-Draining.**
never any sloppy mess over person or floor when taking the bowl apart.

Demonstration gladly given right at your home. No obligation.

EDWARD TUCKER Weston, Or.

BREVITIES

Second-hand furniture bought and sold. E. E. Zehn.

If you wish to know what Watts is sore about, read the big ad.

Mr. and Mrs. Ralph Kinnear were visiting in Weston Sunday from their home near Milton.

Mrs. E. S. Priggs and Mrs. M. B. Albert left for Pendleton Tuesday on a business trip, to be absent a week or more.

Accompanying Mr. and Mrs. Dean Dudley of Athena, E. C. Rogers and family enjoyed an outing Sunday on the Umattilla river.

Motor car service to all points, day or night. Also livery and feed stable opposite the Leuallen blacksmith shop. Lafayette McBride.

Harry Brown and family of Milton, were Sunday visitors at the home of Mr. Brown's parents, Mr. and Mrs. William Brown, in this city.

For Sale—The O. T. Douglas home, grounds 230x240 feet. It all goes. For terms, see owner, or Geo. Carmichael, 610 University street, Walla Walla.

Mr. and Mrs. W. S. Davison and little daughter of Walla Walla, and Mr. and Mrs. Bartholomew of Milton, were guests Sunday at the home of E. M. Smith.

J. N. York is having the interior of his residence at Neverfall Farm embellished with some expert work in graining, done by Merritt A. Baker. Five rooms in all will receive attention.

Miss Margaret Proebstel has returned to her professional work at Walla Walla after a visit last week at her former home in Weston. Miss Proebstel expects to leave soon for a visit with relatives and friends at Portland.

Dr. J. G. McMath, osteopath, is now located permanently in Athena, Oregon, with offices one block north of the bank, and is prepared to handle a general practice. Some of the greatest osteopathic successes are in acute diseases. See card elsewhere.

Be sure and call and let us show you that new invisible double vision glass for reading and close work and distant vision, all in one, which looks like a single pair, yet answers the purpose of two. Drs. Lowe & Turner at Hotel parlors, Weston, Thursday, April 29. (Adv.)

Robert Wheeler came up from Pendleton Sunday and was persuaded to wear a uniform and "play the bench" for the Weston ball team, which he pitched to victory in its championship year. There is some likelihood that "Slats" will ere long again become a resident of the old burg of his boyhood.

The Weston brickyard has begun operations for the season with a crew that ought to be well above par in efficiency, since it includes a number of ball tossers. One of Weston's best ball teams in former years was made up almost exclusively of brickyarders—and they could "deliver the goods" on both yard and diamond.

The recent meeting of the Mission Society of the Methodist church, held at the home of Mrs. E. O. DeMoss, was attended by fifteen members and three visitors. The study of Stewardship was taken up, and a number of interesting articles were read and discussed. Delicious refreshments were served by the hostess, assisted by Miss Emma Johnson.

You and your children are safe if you wear Drs. Lowe and Turner's glasses—eyes safe and price safe—they cost no more than the ordinary kind and you have the benefit of their skill and many years of experience as an exclusive eye and nerve specialist. Dr. Turner is recognized as one of the leading ophthalmologists of the Northwest. Consult them at the Marshall House hotel parlors, Weston, Thursday, April 29, until 3 o'clock only. They do not go from house to house and have no agents. One charge covers entire cost of examination. Glasses and frames are fully guaranteed, whether they cost \$2.00 or more. They will also be in Athena Friday, April 30, and Helix Saturday, May 1. (Adv.)

Audrey, the three-year-old daughter of E. M. Weeks, was the unconscious heroine of a mysterious disappearance Sunday evening in the upper end of town, and the center of a neighborhood sensation. She left her home and could not be found, high or low, in nook or cranny, creek bed or old wells, although some twenty residents of the neighborhood equipped themselves with lanterns and joined the anxious parents in a frantic search. All the while she was in an alley back of John Beaton's barn, playing car-penter with a hammer and a keyhole saw. Not afraid of the dark, the youngster showed her only sign of alarm when she was finally located, and so many grownups rushed to the rescue.

Alva Shumway, well known farmer and farmers' union worker of the Couze creek neighborhood, has purchased a half section of timber land from Frank Saling and a quarter section from the Saling estate on Weston mountain, about 15 miles east of Weston. The land embraces Saling's camp, popular for many years as a quiet and pleasant mountain retreat, and the consideration was in the neighborhood of \$8 an acre. Mr. Shumway has made other purchases on the mountain and owns quite a body of land up there, which it is said he will use for grazing purposes, having bought a band of young stock in Idaho.

A Walla Walla dispatch says that George Drumheller, whose \$200,000 check for his wheat crop last fall brought him notoriety, expects to get a larger one this year. Believing that the price will be as high or higher than last year, when he received \$1 a bushel, he has planted 500 acres of land to wheat, which sets a new record for individual wheat growing in the Inland Empire. He declares the outlook for more than an average crop is bright and expects 30 to 35 bushels an acre. He had to reseed 700 acres damaged by frost.

Mrs. Robert N. Stanfield of Pendleton, wife of Representative Stanfield, was the guest Saturday and Sunday of Mrs. Lillian Fredericks. Mrs. Stanfield was once a student of the Eastern Oregon Normal, as was also her husband, and much regrets the closing of its doors. She is among the loyal friends of the institution who worked earnestly but in vain for its re-establishment. Mrs. Stanfield was accompanied to Weston by her daughter, Barbara.

R. B. Barnes, late of Marshfield, Oregon, came to Weston last week in search of a slightly dryer climate, and expressed himself as highly pleased with the brand of weather on daily exhibition here. Mr. Barnes is just about as tall a man as any fellow townsmen of the same name, and may belong to the same tribe. A few days after his arrival he left with Walter Webb for Yale, Malheur county, to investigate a land proposition.

The Pendleton, Adams, Athena and Weston auto stage leaves Weston twice daily for Pendleton at 9 a. m. and 5 p. m. Round trip, \$1.75. Headquarters at Goodwin's drug store. A. M. Boyden, proprietor.

Claude Price is the happy owner of a Hudson Six-forty, furnished by Watts & Rogers.

Mrs. W. W. Smith, wife of Agent Smith of the O-W-R. & N. Co., is visiting relatives at Portland.

An eight-pound daughter was born Wednesday evening to Mr. and Mrs. P. W. Beamer at their home in Weston.

Mrs. James Watts, Walker, Rogers, Proudft, DeMoss and Payne motored to Walla Walla Thursday in Dr. Watts' new Hudson.

Land Wanted—Have irrigated tracts to trade for mountain land. Will grow early berries, asparagus, etc. Write F. B. Petzel, Richland, Wash.

J. V. Bell, prominent farmer of Reed and Hawley mountain, was conveyed to Walla Walla yesterday for a surgical operation. He is reported to be seriously ill with appendicitis.

The Crow (Black Crow) auto is surely proving all claims. Four-cylinder in bloc motor with Atwater-Kent ignition; four speeds, full floating axle, and the easiest running car of its size on the market; 27 horse power. A. Phillips.

Carpenters are at work this week remodeling and modernizing the front of the Dupuis building for E. E. Zehn, the baker, confectioner and caterer. A decided change for the better has already been made in the appearance of this pioneer business corner.

When ready for your spring improvements consult J. H. Hough, practical printer, who may be found at the Frank Skinner residence, upper Broad street. Satisfactory work and prices. Materials may either be furnished by myself or the patron, at his pleasure. J. H. Hough.

Bright weather has stimulated the automobile bug, and several leading farmer citizens were bitten this week. Jim and Marvin Price have traded in their 1912 Overlands, with something to boot, for new machines of the same brand, and Claude Price has purchased a Hudson Six to replace his former car. Aliek Johnson is sporting a new Ford touring car—and the Leader man has come to the conclusion that he would like to trade his newspaper for an automobile business.

Floyd, the five-year-old son of Clay Smith, was operated upon at Walla Walla Sunday evening for the relief of pressure on the brain, from which the youngster had suffered since his birth. The operation was performed by Dr. Suttner of Walla Walla, and Dr. Smith of Weston. The little patient rattled nicely and a favorable issue is expected, although it is yet too early to determine whether or not the deficiencies due to his affliction will be fully overcome.

Frank Skinner, formerly of John Day and now a resident of South Broad street, Weston, has had his cottage neatly repainted, and Henri March is now following the laudable example thus set before him. Both of them engaged the services of J. H. Hough. On Normal Heights Mrs. Ella Bryson has made a similar improvement, with J. H. Baker as wielder of the brush. The spring painting over bids fair to affect other residents, much to Weston's advantage.

The Saturday Afternoon Club met at the home of Mrs. R. W. Brown near Weston April 17. Responses were made to roll call with children's sayings. A short program consisting of a song by the club members and a piano solo by Mrs. F. D. Watts was rendered. It being annual election day, the following officers were elected for the ensuing year: Mrs. F. D. Watts, president; Mrs. Minnie Walker, vice president; Mrs. E. M. Smith, secretary; Mrs. Clara Price, treasurer; Mrs. R. Proudft, reporter. Dainty refreshments were served by Mrs. Geo. B. Carmichael and Mrs. E. E. Geiss, assisted by the hostess.

The children of Weston Mountain school have been writing letters to pupils of the same grades in far-away Australia and Honolulu, following a suggestion from their teacher, H. W. Copeland. Answers were received a few days ago to several letters written last fall to Taree, New South Wales—a city about the size of Pendleton. These have proven to be quite interesting, and have stimulated further correspondence. Places and people whom they have never seen and never will see, thus become of some significance to the mountain school children and add zest to their studies in geography.

"Engaged by Wednesday" proved to be an unqualified success, both from a histrionic and financial standpoint, as presented by a well-selected cast from the upper classes of Weston High school under the direction of Miss Emma Johnson and Miss Elsa Von Wintzingerode. The audience crowded the high school auditorium to capacity, and receipts were \$80 at popular prices. Musical entertainment was provided between acts by a local orchestra recently organized under the direction of Mr. Charles Keen.

E. F. Carleton, assistant state superintendent, made a visit of inspection to the local high school Monday. Mr. Carleton commended the school and stated that only in the matter of a few books and a small amount of biological apparatus does it fall short of the requirements for standardization. The conditions can easily be met next year.

School began April 12 in the upper Weston Mountain district, No. 57, with Miss Alice Nichols of Seattle as teacher. Fourteen pupils are enrolled, and several more are expected.

Mrs. Lillian McMorris left Wednesday for a few days' visit with relatives at Walla Walla.

Mrs. Fred Young of Walla Walla has been visiting with relatives and friends at Weston.

See E. E. Zehn at the Weston bakery if you want neat workmanship in shoe and harness repairing.

Rev. N. D. Wood has gone to Redmond, Oregon, to look after his altitudinal interests in that district.

F. E. King came up from Pendleton Tuesday with an Overland Six demonstrator car, which looked so nifty that The Leader man could hardly refrain from stealing it.

Mr. and Mrs. George Phillips left this week for Washburn, Wash., where they will engage in farming and expect to locate permanently. They were accompanied by Will McLean.

Arthur Roes continues to improve, and it is expected that he will be able to come home within a few weeks. He was taken from the hospital Sunday to the home of his parents near Walla Walla.

Miss Gladys Banister left for Portland Wednesday morning to be the guest of her aunt, Mrs. Hugh McArthur and Mrs. Frances Perry. She will also visit her sister, Miss Edna Banister, at the Oregon Agricultural College, Corvallis.

The recent cake sale given at Weston by the Weston Mountain W. C. T. U. netted the neat little sum of \$1.30—which result, considering the small number of members, is considered quite satisfactory by those who conducted the affair.

Dreamland motion pictures at Weston opens house next Monday and Tuesday evenings.

Bob Proudft, who is an enthusiastic and quite successful amateur photographer, is on hand at all the ball games, and has taken some good views of local players in action. A few of these may be presented before long in The Leader, if it grows to be sufficiently enterprising.

A medal contest will be held at Weston Mountain school house tomorrow (Saturday) evening under auspices of the W. C. T. U. The Rev. J. W. Goode of Waterman will present the medals. Seven contestants have entered and an interesting event is expected. Everyone is invited. There will be no admittance fee; but a collection will be taken to defray expenses.

Professor John Straub, for thirty-seven years a professor in the Oregon State University, and at present dean of that institution, visited the Weston schools last Thursday afternoon. He spoke to the students of the grammar grades and high school on the subject of the value of an education, and urged the boys and girls to stay in school as long as possible. While Professor Straub was here tentative plans were discussed for securing an extension lecture every six weeks next year.

Savannah, Ga.—Miss Mary Jans married the other day by Justice of the Peace McCall, using a marriage license which was issued 21 years ago. Both contracting parties were more than 70 years of age and would give no reason for the long delay in their nuptial arrangements.

THE SENIOR PARTNER
is at home again
and began kicking at once.

So Shocking!

Alfalfa Seed selling for 18 cents should be 22 cents, like the other fellows sell it.

Gasoline at 18 and 20 cents, only 11 and 12 cents in California.

Fishing licenses at \$1.00, should be gratis.

Come and see that beautiful silver inlaid glass ware.

We now have demonstrator of 1915 Hudson Six—the car that made Main street hill in Pendleton on HIGH gear.

Auto tires, chains, etc., in stock.

Watts & Rogers
