Painting Points.
When preparing paint remember that better results are obtainable from several applications of thin paint than from heavier coats. Of course, it takes longer to do the work. Paint put on in thin coats and allowed to dry, lasts much longer and will not flake off as is often the case when heavier coats are applied. When very fine results are wanted rub down each coat after it has thoroughly dried.

Drink Water and Live a Century.

Washington Stirred by German Attack Off Scilly Islands.
Seriousness is Admitted, and Note to Berlin Speaking of "Strict Accountability" Recalled—Damages May Be Demanded.

CAPTAIN AND TWO SAILORS ARE DEAD
London.—The American oil tank steamship Gulflight was sunk by a German submarine Saturday at noon off the Scilly Islands, according to a dispatch to the Central News Agency. The Gulflight sailed from Port Arthur, Tex., April 10, for Rouen, France. The captain died from heart failure as a result of shock, and two seamen jumped overboard and were drowned. The other members of the crew were taken off by a patrol boat and landed. The vessel was towed into Crow sound and beached.

Washington, D. C.—Press reports of the torpedoing of the American steamer Gulflight and the loss of her captain and some members of the crew created a stir in official circles here, where the seriousness of the occurrence was everywhere admitted.

In the absence of President Wilson, officials made no comment as to the probable action of the United States government, beyond saying that a thorough inquiry as to the manner of the torpedoing and the responsibility for it would first be required before a decision could be reached as to the kind of representations to be made.

If first reports are borne out, the attack on the Gulflight constitutes the first case of an American ship struck by a torpedo, with the consequent loss of lives. Two American vessels have been sunk by mines, the responsibility for which never has been fixed, and one American, Leon C. Thresher, was drowned when the British ship Falaba was torpedoed.

It was generally recalled that in the note sent by the United States to Germany in answer to Germany's proclamation of a war zone around the British Isles and Ireland, the Washington government asserted that it would hold the German government "to a strict accountability" for the loss of any American lives or vessels, the phraseology being so drawn as to cover attacks on belligerent vessels on which Americans were traveling.

America's Right to Ship Arms Ceded, but Food Should Be Free
Philadelphia.—Dr. Bernhard Dernburg, former colonial secretary of Germany, protested at Sunday's session of the annual meeting of the American Academy of Political and Social Science, against a declaration at a recent meeting of the academy that Germany had declared against the right of the United States to sell and distribute arms to belligerent countries.

Dr. Dernburg came here as a listener to the discussions on the effect of the European war on America's interests and at the close of the session made a brief speech in which he said the declaration was "absolutely false." The address in which the statement is said to have been made was delivered by Charles Noble Gregory, of Washington, D. C., who spoke on "The Sale of Munitions in War by Neutrals to Belligerents."

POPULARITY OF BASE BALL
Base ball has grown to gigantic proportions within the last decade and the actual work of the teams has been the delight of millions of spectators. There are so many things to admire in the game that it is impossible to describe them. Outdoor exercise is one of the healthiest aids in promoting health and strength and keeping the blood rich and pure; but, perhaps you are one of the many who are denied that privilege. You lead a sedentary life which always has a tendency to make the liver lazy, the bowels clogged and digestion poor. Oftentimes you are nervous, sleepless, have no appetite and feel run down.

Under these conditions you will greatly appreciate the assistance to be derived from a trial of Hostetter's Stomach Bitters. It helps Nature by toning and strengthening the Stomach, Liver and Bowels, and with these organs in a normal condition your system is well fortified against an attack of Sick Headache, Heartburn, Indigestion, Cramps, Constipation, Biliousness or Malaria, Fever or Ague.

Always take good care of your health and you will be well repaid, while carelessness only brings suffering and distress. Let Hostetter's Stomach Bitters help you to maintain your health.

Balzac's Hatred of Tobacco.
Perhaps so celebrated author was more hostile toward tobacco than Balzac. It is true that Lamartine speaks of the novelist's teeth as blackened by clear smoke, but Lamartine was not intimate with Balzac. Gautier on the other hand knew him well and wrote eloquently about his hatred of tobacco. Balzac's ruffing passion was coffee, which injured him and perhaps killed him. In some of his novels he anathematizes tobacco. When he allows some of his characters to smoke there is veiled contempt. "As for De Marsay, he was banished in smoking his cigars."

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

Wouldn't Have Sister Hurt.
When Walter was a tiny fellow he accompanied his older sister to the dentist's. She was to have a tooth extracted and as the dentist commenced to pull Helen began to scream. Instantly, face aflame, Walter scrambled from his chair and grabbed the dentist by the leg. Tugging with all his might, he shouted fiercely: "You besser stop dat if you know what's dood for you."

If Arms Are Too Fat.
If the arm is too fat, vigorous massage will help to reduce; but should be supplemented by active exercises. To massage the arm, grasp with the open hand, near the shoulder; and, treating it as if it were a wet sheet lifted from the wash tub, twist the flesh with a wringing motion. Go over the entire arm in this way several times.

You Can Get Allen's Foot-Ease FREE.

Some Climates.
The northern parts of Norway and Sweden extend well up into the Arctic circle, while the southern parts come down to the latitude of Glasgow; so there is a wide range between the winter temperatures in those countries. The same applies to Canada.

Atonement.
"I hate the smell of mothballs and there's the woman next door hanging up the clothes she has had put away with them." "Why object to that? She's doing you a neighborly kindness in airing your grievances."

Quick Digging is Urged.
Spokane, Wash.—Immediate action in digging many miles of trenches extending through the center of Wilson Creek valley will be the only means of saving the south half of the valley from the devastation of the Coulee cricket, declared Cecil W. Creel, expert and forest insect expert, connected with the United States department of Agriculture, who arrived here from the cricket-infested district. Trenches three miles long have been plowed on the 6000-acre farm of W. C. Mading and a patrol of six men is being maintained in the destruction of millions of the wingless insects.

Wallows Crop Outlook Good.
Wallows, Wash.—The recent rains have been a great help to the Wallows valley and the outlook for crops is excellent. The fall grain has never looked better. The acreage of spring grain will be large, owing to the high prices. The season is at least three weeks earlier than usual. The fruit trees are blossoming and unless unfavorable weather conditions prevail the prospect is favorable for much fruit, as the rains have not damaged the buds. The spring so far has been quite free from hard frosts.

Potato Acreage Doubles.
Stanfield, Or.—The potato acreage which has been planted and will be planted here this season is more than twice as large as usual and there will be many carloads for shipment this fall. Another feature of the potato crop here this year is that it is being planted mostly on former alfalfa fields, rich in fertility, whereas in former years potato ground has been mostly new ground without humus and harder to control as to moisture content. Experiments prove that a farmer can well afford to plow up alfalfa for potatoes.

Douglas Sends First Berries.
Roseburg, Or.—C. E. Henry, a well-known rancher of Dillard, has the distinction of shipping the first crate of strawberries from Douglas county to the Portland markets. The berries left here Saturday. They were large, of excellent color and were well flavored. They met ready sale at fancy prices in the Portland markets.

Farmer's Wife Too Ill to Work
A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kasota, Minn.—"I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do."—Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Waterproof Matches.
Before you go camping, or away on a voyage, prepare some waterproof matches, and see that they are always at hand. In a small tin vessel melt some paraffin, and while it is still hot, dip the end of each match into this, and lay it out carefully until cool and dry. The coating of paraffin makes the match absolutely waterproof.—McCall's Magazine.

True Art of Life.
The art of life is to be kind, to endeavor to look at everything from the point of view of the other fellow, to be more eager to give than to receive, to love one's neighbor, and to be the protector of the weak and helpless, whether they be little children or the towers that grow by the wayside.—Sidney Dore.

Too Wise a Bird.
"Can you tell me, sir," asked the adroit panhandler, "where an honest man can find hard work in return for a square meal?" "I could," replied the experienced and disillusioned citizen, "but I make it a rule not to answer questions wholly idle and academic."—Richmondville Times-Dispatch.

Be Clean! Inside and Outside
If you would be healthy, strong and happy. Baths keep the skin clean and in good condition. But what about the inside of the body? You can no more afford to neglect it than the outside. It is just as important that the system be cleansed of the poisonous impurities caused by weakness of the digestive organs or by inactivity of the liver.
