Miss Gladys Danister has returned from her visit to Portland and Corvallis.

Miss Blanche Smock has gone to Covello, Wash., to visit her sister, Mrs. Harve Driskell.

Dreamland motion pictures at Weston opera house next Monday and Tuesday evenings.

September 16, 17 and 18 have been fixed as the dates for this year's Frontier Days celebration at Walla Walla.

Mr. and Mrs. Robert Wheeler of Walla Walla were visiting Sunday with My Wheeler's mother at Weston.

Motor car service to all points, day or night. Also livery and feed stable opposite the Lonsdale blacksmith shop. Late McBride.

Robert Hudepeth, now a stockman of Burns, Harney county, was here during the first of the week for a visit with his daughters, Mrs. Dick Bush and Mrs. Ralph Stagg.

The Pendleton, Adams, Athena and Weston auto stage leaves Weston twice daily for Pendleton at 9 a. m. and 5 p. m. Round trip, \$1.75. Headquarters at Goodwin's drug store. A. M. Boyden, proprietor.

Charles L. Pinkerton has completed his assessment of Weston and tributary precincts and has made his returns to the county assessor. The valuations are practically the same as those of last year.

Miss Raina Zimmerman left Monday on her return home to Topeka, Kansas, after a week's visit with Mrs. E. O. DeMoss. Prior to coming to Weston she attended the Panama-Pacific Exposition.

Mr. and Mrs. J. A. McEae and daughters left Tuesday for an extended visit with relatives in Cornwell, Ontario. They expect to return in September, when the Misses Hilda and Marvel McEae will again attend the Weston schools.

While on its way to San Francisco the Liberty Bell, celebrated relic of the American revolution will arrive in Pendleton at 4:30 p. m. Monday, July 12, and will remain for 16 minutes. The bell will pass through Weston, as it will be transferred at Pendleton to the Spokane line. It goes from Spokane to Seattle, and thence to San Francisco via Portland.

The little schoolmates of Velva Banister and Minnie Chapin were pleasantly entertained Saturday afternoon at the home of Mr. and Mrs. W. S. Banister near town, the occasion being a birthday party in honor of the two young hostesses. The guests were 19 in number, and were carried to and from their homes in Weston and elsewhere by Mr. Chapin. Games were played and refreshments served.

All kinds of photos made, exemplifying the latest phases of the art. All our work is guaranteed. In Weston for a few weeks only. Call and see the quality we put out. Ohmart & Abrams, Photographers; upstairs in Brandt building.

With Road and Burgin in the points, the Weston Juniors defeated the Milton Juniors on the Milton diamond Saturday, score 10 to 5. Tuck Smith helped Weston's game by making a freak catch with the bases full.

Notice is hereby given to delinquent water ratepayers that in all cases where the rate has not been paid by June 10, 1915, the supply will be cut off at the mains. R. L. Wilson, Supt.

The Doctor says the Bookkeeper at Watts & Rogers' store is afflicted with arthritic. Hence they are building a neat little office for him, centrally located in their local emporium.

All members of Stevens Lodge No. 49, K. of P., are requested to attend next Wednesday evening's meeting, when an important business proposition will be considered.

Athens has changed its town picnic dates to June 4 and 5. Saturday, the 5th, an exhibition ball game will be played between the Athens and Weston league teams.

J. R. Justice, the Illinois importer, has moved his mail to the Commercial livery stables in Pendleton.

Mr. and Mrs. A. B. Woods of Walla Walla were dinner guests yesterday of the W. S. Paynes.

For Sale—Span of horses, carriage and harness. Also good farm wagon. H. Waddingham.

We are going to slaughter some bicycles and some road cars. Watts & Rogers.

Furnished rooms for housekeeping may be had from Mrs. Wheeler.

The choicest of chocolates 40c per pound at Weston Bakery.

The New Store almost assured. See Watts & Rogers' big ad.

COMMEMENT PROGRAM

WESTON HIGH SCHOOL

Quartet of Graduates Will Receive Diplomas at This Evening's Exercises.

Leola Eloine Duncan.
Ethel Josephine Lavender.
Mabel Margaret Lousialien.
Thelma Octavia Anderson.

The above graduates of Weston High school, constituting the class of 1915, will receive their diplomas this evening at the annual commencement exercises to begin at eight o'clock at the high school auditorium. The class motto is "Finished—yet beginning"; the class colors are purple and gold, and the class flower is white carnations.

The commencement address will be given by Dr. W. H. Bleakney, who holds the chair of classical languages in Whitman College, Walla Walla. Below is the program in full:

Mazurka in F Minor Leschetzky
Mrs. F. D. Watta.

Invocation
Rev. George Chapman.

Fairlyland Waltz Vesali
High School Chorus.

Address
Dr. W. H. Bleakney.

Vocal Solo
Miss May Springer.

Presentation of Class
G. R. Robinson.

Presentation of Diplomas
J. M. Banister.

Benediction
Rev. George Chapman.

Following the exercises, the Junior class will give a banquet at the dormitory in honor of the four graduates. Invitations have been extended to the parents of the seniors, to the school board, the teachers, and to all the high school students.

An elaborate menu has been prepared for the occasion, and is confidently expected to possess a distinctive gastronomic charm. The hostess of the affair proposes to set a mark for all succeeding Junior classes, and to distinguish themselves in the eyes of the honored Seniors.

Joseph Read, '16, will preside as toastmaster, and responses are expected from the following: Mr. Frank Price, Leola Duncan, Miss Johnson, Carl Brandt, Miss Von Wintzingerode, Dr. W. H. Bleakney.

TWENTY WESTON PUPILS

PASS 8TH GRADE EXAM

Weston eighth graders, taught by Mr. E. E. Geiss, made a good showing in the recent county examination. A. C. Hill, Hayward University, and the remainder are said to have failed in one or two subjects only. The average age of the class is but 13½ years.

The successful applicants were: Hortense Baker, Hope Beeler, Gus Borger, Zelma Brown, Gora Beamer, Blanche Cooper, Earl Cooper, Arthur Cooper, Isabella Fason, Ray Gould, Velma Gerking, Wilma Harbour, John Lucas, Dorothy Probstel, Kendall Smith, Victor Thoeny, Clarence Thoeny, Leola Wilcox, Orval Walden, Truman Read.

Of the 287 pupils in Umatilla county outside of Pendleton who took the exam, 177 made passing grades. Wilma Harbour, a bright Weston student, tied with Kenneth Youel of Hermiston for the highest average, each making 94.2. Orville Burnham of Athens was second, with 93.8.

Those who passed in neighboring districts were:

Wheeler	4	2	500
Barnes	20	7	350
M. Turner	12	4	333
Fulford	20	6	300
Kirkpatrick	2	2	186
Blomgren	32	9	281
Wood	27	7	252
Kennard	32	8	250
Jones	4	1	250
Smith	15	3	220
Lovel	10	2	200
F. Turner	15	2	159
Mitchell	13	3	154
O'Harra	22	3	137
Beathe	10	1	100
Totals	247	69	243

It will be seen that while "Stats" Wheeler is the nominal leader of the team, he plays in but one game, and John Barnes is the real leader. Kennard was well toward the top until Sunday last, when he "slumped" while batting against Shick at Athens and failed to connect safely in five times up. We venture the prophecy that this ambitious youngster will again get his eye on the ball, however. The team average of 243 is nearly as good as that of the Portland Beavers, and encourages the local innigmate to nourish the notion that his team could make it warm for McCredie's bunch. Mack might do well to send a scout up this way.

Los Angeles, Calif.—Mrs. L. O. Matthews, while fishing off the pier at Venice, Calif., dropped a \$350 diamond ring into the sea. Divers could not locate it. Fay Williams, fish dealer, while preparing his wares for sale a few days later, found a diamond ring in the stomach of a fish. He notified Mrs. Matthews and the police. They called, the ring was identified and the honest fish dealer given a substantial reward.

Union, N. Y.—Frank Rise, a 17-year-old boy, who has peddled popcorn and peanuts about Union and Endicott, has confessed that twice last month he attempted to wreck Erie trains in Union. His only excuse is said to be that he wanted to see a big wreck.

Mandan, N. D.—The dangers attendant upon taking a bath were illustrated here last week when Mike Keating, who had not "sustained" a bath for 29 years, was given water and died. Physicians had advised against the bath, it is claimed.

SUMMONS.

In the Circuit Court of the State of Oregon for Umatilla County.

The Farmers Bank of Weston, a Corporation, Plaintiff, vs. Malcolm Stevens, Defendant.

To Malcolm Stevens, Defendant above named:

In the name of the State of Oregon, You are hereby required to appear and answer the complaint filed against you in the above entitled action on or before the 21st day of July, 1915, and you will take notice if you fail to answer, or otherwise appear in said action, on or before said day, plaintiff above named, for want thereof will take judgment against you for the sum of \$307.71, with interest at the rate of 8 per cent per annum from the 18th day of March, 1915, \$16 reasonable attorney fees, and plaintiff's costs and disbursements of this action, and will apply to the court for an order for the sale of the property attached herein on the 26th day of March, 1915, to-wit: One threshing machine, self feeder and blower, J. I. Case, 24-inch cylinder, and the sum of \$92.63 in money, all being now in the possession of the sheriff of Umatilla County, State of Oregon, under said attachment, and for the application of said money and the proceeds of said sale to the payment and satisfaction of said judgment, principal, interest, costs and attorney fees and the costs and expenses of said sale.

This summons is published pursuant to an order of the Hon. Charles H. Marsh, County Judge of Umatilla County, which said order was signed by said County Judge for the reason the Circuit Judge of the Sixth Judicial District of said State was absent from Umatilla County on the 14th day of May, 1915. That said order provides that the first publication of this summons shall be made on the 21st day of May, 1915.

JAMES A. FEE,
Attorney for Plaintiff.

ATHENA - OREGON

WE FEEL THAT OUR NEW STORE WILL MATERIALIZE AND BE A WINNER

But we must have more and more stockholders.

Now we ask that everybody who can take \$25 or more come and do so now. We are past the critical point, and yet this whole business will fail if we do not get the last dollar of stock so d. Every industrious boy, girl, woman and man can own stock in this corporation, and besides helping the town you will be proud to be counted among the fortunate ones who got in on this investment.

"Nothing Succeeds Like Success." We like to be with the majority. Great minds run in similar channels. The other fellow who thinks the same as you helps confirm you in your own judgment. A former Westontite invested \$2500 three years ago in a similar stock deal in Walla Walla, and he has now been asked if he will take \$5000 for the stock that cost him only half that amount.

Remember that bargain we are offering in the Bundle Thresher that runs by 3 men with gasoline and can be moved with four horses; all on one truck. \$625.00.

See those Domo cream separators—the rival of the DeLaval, the most popular cream separator made in America. (The Domo is made in Sweden, which is why the price is so reasonable.)

A high-grade potato planter \$75 last year. Make us an offer.

Carload of binders, etc., just in.

Watts & Rogers

UNITED STATES

DIFFERENT

and as much better as it is different

The United States Cream Separator is different because of its "vertical blade" skimming device, the new construction that departs radically and effectively from any other type. The U. S. "vertical blade" system is modern, and under latest patents. Other systems are old, with no recent important improvements.

The modern United States system is better because, differing from all others, it divides the milk vertically into thin layers, hundreds of them. Vertical or upright layers are important for, by well known laws, they permit a much easier and more complete extraction of cream. The U. S. "vertical blades" are still further effective because curved, not only to protect the cream, but that the milk by travelling farther may receive additional stress.

The U. S. holds World's Record for Close Skimming.

The United States construction is different and better because it is one with a feeding device that delivers the milk to the rim of bowl farthest beyond the cream wall, where centrifugal force is greatest. Milk and cream are kept entirely apart from the instant separation takes place. There are no cross currents that remix and injure the cream.

The United States construction is different and better because its skimming blades are open from center to circumference, and because it has no central core, split wing or discs on, or between which, cream lodges. In consequence, the United States bowl, differing from others, flushes perfectly.

The United States construction is different and better because it skins Nature's Way, cream to top, skim milk to bottom, and Nature hasn't made a mistake. Consequently, the U. S. is a self draining bowl, with never any sloppy mess over person or floor when taking bowl apart.

The United States Separator is different and better because its skimming device is made of Nickel Silver, which makes for easy cleaning, and does away with rust, thereby meeting the requirements of sanitary laws. Steel discs rust badly, contaminate milk and cream, and are hard to keep clean.

The United States Cream Separator is different and better because mechanically washed. It is the only separator adapted to mechanical washing. This process also sterilizes and dries the bowl. A mechanical washer furnished free with every machine.

The man who best appreciates the United States Cream Separator is the man who has owned and operated another separator, any separator. He has a basis for comparison.
