NOTICE TO PATRONS Electric Service

Our tariff has been filed with the Oregon Railroad Commission, and the following rule must be strictly observed:

RULE 2. Any bill not paid before the 30th of each month becomes delinquent and the supply of electricity may be discontinued without notice to the customer, in which case an additional payment of 50 cents will be required to turn electricity on again. The right is reserved to discontinue the supply or to refuse to supply any customer with electricity who is in debt to the Company.

We want to be square with our patrons and to give them good service, and only ask them to be square with us. If you are dissatisfied with your meter readings or for any other reason, kindly notify us and we will endeavor to make amends.

Any and all contracts for service must be made with the Company.

See that your receipts are countersigned by E. A. Zerba or by Laura Smith.

Our tariff may be found at the DeMoss Furniture Store or at the Weston Leader office.

States is almost unbelievable. Its regular army would be wiped out in a single skirmish on the European scale. A day's battle would exhaust its surplus ammunition. It has a good navy, on paper, but this is inadequately manned and poorly equipped. In the one respect of coast fortifications has there been any approach toward efficiency and thoroughness in preparing for national defense.

Speed the day when an adequate plan will have been formulated and adopted to safeguard peace among the nations. Meanwhile it behooves us to safeguard our own peace by forging armor, sword and shield and perfecting ourselves in their use. The more formidable we are the more immune will we be from attack. The muscular, unflinching, fearless man need never lift a hand in anger and will still command the respect of his fellows.

The LEADER is for militarism hereafter—defensive militarism. Never again will it turn a heedless ear to such effective pleas for adequate national defense as are presented by William Howard Taft in the Saturday Evening Post and Julian Street in Colliers' Weekly.

The American Samson needs a hair restorer that will cover his pate with bristling bayonets.

The Louisiana hen that hatches snapping turtles has nowhere near so much of a snap as the turtles.

We will limit ourselves to crediting Bryan with altruism and Wilson with statesmanship.

HOW TO PREPARE EXHIBITS FOR FAIRS

The following directions for preparing fair exhibits are published at the request of E. E. Cleaver of Pendleton, well known Umatilla county booster, who was a recent visitor at Weston. They will come in handy should Weston wish to make an exhibit at the Panama-Pacific exposition or at any of the several fairs in the inland Empire this coming fall. All samples may be left at the Waits & Rogers store, where they will be taken care of.

All samples of wheat, oats, barley, and rye should have the roots left on. Bundles should be not less than nine inches in diameter when tied, except where an extra large stool can be shown. These extra large stools are particularly desired.

All grasses should be in bunches not less than six inches in diameter when tied and all varieties, both native and meadow grasses, even to the despised foxtail, are desired.

The best of the leading varieties of fruits and vegetables are desired. Be sure to use formalin for preserving fruit. The county is willing to furnish display jars for this purpose. These jars will be distributed by the following gentlemen and associations: The Milton Fruitgrowers' association at Milton; James Kyle at Stanfield; Joseph Hix at Hornsby; D. C. Bowersell at Umatilla; E. E. Cleaver at Pendleton; George A. Robbins at Pilot Rock.

THE FORMULA

For preserving fruits: Plums, grapes, cherries, currants and gooseberries; formalin, five parts, saturated solution of common table salt, ten parts; water, boiled and cooled, enough to make a hundred parts. This may be made by measure as follows: formalin, one pint; salt solution, two pints; water, seventeen pints. When made up the solution will keep indefinitely. Another solution weaker in formalin has been used satisfactorily, the proportions are: Formalin, three parts; salt solution, ten parts; water enough to make one hundred parts.

For raspberries: Formalin, one part; glycerine, ten parts; water, 89 parts.

Strawberries may be preserved fairly well in a saturated solution of common salt, and, better still, in a fluid composed of formalin, one ounce; alum, one dram; glycerine, five ounces; water, three pints.

Red currants keep best in a solution of corrosive sublimate, one part; glycerine, ten parts; water, 90 parts. The corrosive sublimate must be dissolved in hot water and the solution and fruit preserved in it should be labeled poison as it is deadly if swallowed.

The glass stoppers of bottles and jars may be made perfectly tight by smearing the ground surface with a small amount of light colored vaseline. This will also prevent, in a great measure, the sticking of stopper when it is desired to remove them.

TEACHERS' EXAMINATIONS

Next Sunday's Games
Helix at Weston. (Last game on the home grounds.)
Athens at Milton-Freewater.

"State" Wheeler came back Sunday to an extent sufficient to beat "Red" Pierce in Sunday's ball game at Helix. As might be expected after an absence of two years from the mound, Helix had considerable difficulty in locating the plate, but when he did so, put 'em over with speed and judgment enough to indicate that with practice he is due to regain his old-time form.

Spurred on by their laudable desire to keep out of the cellar, the Mountaineers led the Rabbits by a good margin until the ninth inning, when Wheeler juggled a grounder that nearly converted victory into defeat. Helix was finally retired, however, with one tally needed to tie and two to win.

Weston was assisted by the hood-doo that seems constantly to hover over Manager Smith's devoted aggregation. The score book shows that the Rabbits surpassed the Mountaineers at bat and in the field—but their heroic efforts, as usual, brought them nothing but a deeper nook in the cellar. At a critical moment one of the Helix base-runners pulled the antiquated boner of trying to steal second with the bases populated, and contributed not a little to the chagrin of his team-mates. In fact, on the path alone did the Mountaineers show more class than their bucolic opponents. They were alert and fast, and stole five bases to only one for Helix, which was deprived of the services of its regular catcher. The Helix runners found larceny difficult with "Dumpy" Blomgren catching them.

Jones played a brilliant game at first base for Weston, getting fourteen put-outs without a slip. He picked 'em out of the air and out of the dirt with equal facility, making several pretty stops of careless peas that might have cost the game had he let them get by. "Honus" Beathe performed at second with almost equal precision, losing but one—a nasty bounce—of eight chances, and pecking perfectly.

E. Blomgren and "Red" Pierce were the leading sluggers of the rival teams, each registering three safe blows in five times up.

Scorer Barnes being bound to have his say, let us now permit him to say it and get the usual statistics of his chest:

SUMMONS

In the Circuit Court of the State of Oregon for Umatilla County.

The Farmers Bank of Weston, a Corporation, Plaintiff, vs. Malcolm Stevens, Defendant.

To Malcolm Stevens, Defendant above named:

In the name of the State of Oregon, You are hereby required to appear and answer the complaint filed against you in the above entitled action on or before the 23rd day of July, 1915, and you will take notice if you fail to answer, or otherwise appear in said action, on or before said day, plaintiff above named, for want thereof will take judgment against you for the sum of \$307.71, with interest at the rate of 8 per cent per annum from the 18th day of March, 1915, \$50 reasonable attorney fees, and plaintiff's costs and disbursements of this action, and will apply to the court for an order for the sale of the property attached herein on the 23rd day of March, 1915, to-wit: One threshing machine, self feeder and blower, J. I. Case, 24-inch cylinder, and the sum of \$92.62 in money, all being now in the possession of the sheriff of Umatilla County, State of Oregon, under said attachment, and for the application of the said money and the proceeds of said sale to the payment and satisfaction of said judgment, principal, interest, costs and attorney fees and the costs and expenses of said sale.

This summons is published pursuant to an order of the Hon. Charles H. Marsh, County Judge of Umatilla County, which said order was signed by said County Judge for the reason the Circuit Judge of the Sixth Judicial District of said State was absent from Umatilla County, on the 14th day of

May, 1915. That said order provides that the first publication of this summons shall be made on the 23rd day of May, 1915.
JAMES A. PEGE,
Attorney for Plaintiff.

Notice of Administrator's Sale of Real Property.

Notice is hereby given that by virtue of an order of the County Court of the State of Oregon for Umatilla county made on June 17, 1915, in the matter of the estate of Elizabeth Prince (sometimes called Eliza Prince) deceased, I, as administrator of said estate, will sell at public auction to the highest bidder for cash, at 2 o'clock p. m. on Saturday, the 17th day of July, 1915, at the front door of the County Court House in the City of Pendleton, in said County, all of the real property belonging to said estate described as follows: Lots numbered 12 and 13 in Block numbered 5 in the Town of Weston, all in the City of Weston, in said County and State, and all of the right, title, interest and estate which I, as administrator of that estate, can sell; the sale to be subject to confirmation by said County Court.
Dated this 15th day of June, 1915.
E. O. DeMoss, Administrator.
