ENGLISH LINER JUST ESCAPES TORPEDO
Underwater Boat Misses Orduña By Only Few Feet.

VESSEL IS SHELLED BY GERMAN CRAFT

Cunarder Has 22 Americans Aboard On Hazardous Trip, Who Give Details on Reaching Port.

New York.—The Cunard liner Orduña, bound from Liverpool to New York with 227 passengers, including 22 Americans, was attacked without warning, it was learned on her arrival here Sunday, by a German submarine on the morning of July 9.

Twenty miles from the grave of the Lusitania, off Oldhead of Kinsale, the Orduña escaped the Lusitania's fate by half a second of time or 10 feet of space, the German torpedo churning the water that distance behind the liner's rudder.

Then the Orduña sped away. She was followed by the submarine, which rose to the surface, manned a gun on her deck and shelled the fleeing steamer.

The attack was at 10 minutes to 6 o'clock in the morning, when all but a few of her passengers lay sleeping in their berths. Awakened by stewards, the passengers dressed hurriedly and went to the upper deck, where they put on life belts and took their places at the lifeboats. They heard the scream of the shells and saw the ocean spit up columns of water where the shells struck.

When the fire grew hot, they were ordered, for their own protection, to the lower deck below.

For half an hour the Orduña showed her heels to the assailant. Through marine glasses the passengers watched the dark splotch on the water's surface astern. They saw the low-lying German warship coming on with a bone in her teeth, but the Orduña's flight was faster than the pursuit and after seven shots had been fired without effect, the submarine gave up the chase.

A wireless call for help was sent out by the Orduña when the torpedo was seen. She was then 87 miles south of Queenstown. The reply, Captain Taylor says in his official report, was that help would be given within an hour. It was four hours before the first British vessel, an armored yacht, the Jeannette, appeared.

Protest will be made to the American government by at least one citizen of the United States and possibly others who were aboard.

Secretary McAdoo Expected to Quit Wilson Cabinet, Is Rumor

Washington, D. C.—It is reported again that Secretary McAdoo has expressed his intention of leaving the cabinet. In the coming fight in behalf of President Wilson, his father-in-law, he does not wish the charge made against him that he is in the fight particularly for his own job, and he fears it may injure the President to have a member of his own family in his cabinet.

Several business offers have been made Mr. McAdoo, among which is the presidency of one of the largest banking institutions of New York. His predecessors, Secretary Shaw and Secretary Gage, took advantage of such opportunities and have become rich.

Secretary McAdoo could be the governor general of the Federal Reserve board if he would accept. The term of Mr. Hamlin, the present governor, expires the first of the year, and Mr. McAdoo could then be appointed for the long term on the Federal Reserve board.

Mr. Hamlin is expected to make the race in Massachusetts for governor or for United States senator if the administration is behind him, and Mr. McAdoo would be retained at the head of the Federal Reserve board, which he created.

There are two other resignations scheduled for the first of the year in the cabinet, and the fight for Wilson the next year will be led by new and reinforced heads of the administration.

Men's Places Filled by Women.

Hull, England.—After arguing the pros and cons of the proposal to employ women conductors on the street-cars here for a month, the unions have been compelled to yield to the pressure of circumstances and admit the new labor. It was found impossible to obtain sufficient male labor to operate the necessary cars and the alternative to employing women was the stopping of the cars. Women will receive the same as the men, but the war bonus heretofore paid will be given the men only, who will turn the trolley poles.

Britain Forbids Treating.

London.—Besides limiting the hours during which liquor may be sold in towns where the government has taken over the control of the sale of liquors, the board of control appointed to deal with the munitions areas has ordered that there shall be no treating and has prohibited the giving of credit for liquor. The sale of liquor in licensed houses is permitted only between the hours of noon and 2:30 p. m., and between 6 and 8 o'clock in the evening. No orders may be accepted for spirits to be consumed Saturdays and Sundays.

Absent Spy Condemned.

Paris.—Sentences of death has been passed by a court-martial at Marseilles upon Herman Hoebel, now in Germany, who was tried and found guilty on a charge of systematic espionage against France before the declaration of war and was not present at the trial to defend himself. The accused man, who was the Marseilles representative of a German sulphur company for 11 years, was charged with having relations with a foreign power.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not sleep, nor sleep to any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SHAYLEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Tacoma commission men are now offering outdoor home grown tomatoes of exceptional quality at \$1.75 a 20-pound box. The vegetable is coming from Fox Island and Hales passage and dealers expect a heavy demand. Reports from growers say there will be a good crop this season.

The first shipment of Walla Walla globe onions this season arrived on the local market this week. They are brown and of good size, possessing all qualities that go to make a first class onion, say dealers. They are moving out at \$1.25 per hundred pounds and are going fast. More will arrive regularly. California onions are off the market for the season.

There are early Elberta and early Crawford peaches now on the market, the former going out at 85 cents and the latter at \$1.10 a box. The Elbertas are coming from Wenatchee and are the first to be received from that section of Eastern Washington this season. The Crawford are rolling in from California.

Big red Wixom plums from the South are proving popular to the trade, as also are Burbank plums. The former wholesale at \$1.15 and the latter at \$1.25 a box. Tragedy plums are also on sale. This fruit is exceptionally delicate to eat, say merchants, and jobs at \$1.50 a box.

This is apricot week and dealers are meeting the demand in good shape. Other shipments are expected, and no trouble will be had by the dealers in getting plenty for all who want them. Eggs took a brace and advanced 1 cent a dozen. Poultry is coming in pretty strong. Meats are unchanged.

Rainfall Damages Hay.

Kelso, Wash.—Hay crops over the Cowlitz valley are threatened with considerable damage unless good buying weather comes in the valley in the immediate future. Many of the farmers had planned to cut their hay following the Fourth of July, but the almost daily showers since that time have kept them from cutting and some of the hay is so heavy it is breaking down. This will result in much loss to the farmers. Other crop prospects throughout the valley are very good, as the rains mean big potato and cereal yields.

Strawberry Yield Is Record.

Wallawa, Or.—In a patch of strawberries belonging to C. J. Allen, only 30 by 80 feet, 103 gallons of berries already have been picked, and it has been estimated that there will be about 200 gallons more. The berries are the "Gold Dollar" and "New Oregon" varieties. They are large, solid, and of a deep red color. Twenty-four berries filled a quart measure and eight berries laid side by side measured 18 inches. The season in the Wallawa valley for berries is much later than in many sections.

Big Sheridan Hay Crop Promised.

Sheridan Or.—All the hay in this section is down and with continuing good weather will be baled in good shape. Late rains have made the season just a week later than usual and the result will be that the hay and grain harvest will go on together. Binding of grain has commenced. The hay crop is unusually heavy, according to balers, but the acreage small, due to the large acreage of grain. Farmers are expecting a banner year in the grain harvest, as the late rains in their judgment have done much good.

Sitting Men Takes Trip.

Cottage Grove, Or.—A hen set here has completed its hatch 500 miles away. When Bert Nokes prepared to move to Spokane he decided to ship about 10 days with the eggs. Chicken fanciers smiled when they heard, but when biddy arrived in Spokane she had in no way changed her mind about raising a family.

Mr. Nokes announces that 12 of the 14 eggs hatched.

The Wonder of It.

Rose had called on her afternoon tea to her friend Arabella. Arabella's mistress had just purchased a parrot, and Rose was much interested in the bird.

"Birds is shore sensible," she observed. "You kin learn them anything. I water work for a lady that had a bird in a clock, an' when it was time to tell de time ob day it waster come out an' say 'cuckoo' just as many times as de time was."

"Go along. Yo' don't say so," said Arabella, indignantly.
"Shore thing," replied Rose, "and de meo' wonderful part was dat it was only a wooden bird, too."—Harper's Monthly.

WHY DINING CAR CHEFS PREFER KG BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—that sustains the raise—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in K C and you will find it just as well suited to your requirements. K C is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K C Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

K C Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.
