ROCKEFELLER GETS "TIP" FROM PUPIL

How to Make 40 Per Cent Told

w to run a bank, and how to finance corporation that would pay a 40-cent must dividend on a 10-cent block of annual dividend on a 10-cent block of common stock. It was at Sopuis, where Mr. Rockefeller, in the course of his examination of Colorado Fuel & Iron company properties, stopped long enough to visit the public school. In the highest grade of the school the teacher told the Standard Oil magnate that the pupils had established a bank and a store in which school supplies were sold.

"Really," said Mr. Rockefeller, with the delight of a boy at a country fair, "I should like to know something more about this system of high finance."
"Blanche," said the teacher, "will
you explain it to Mr. Rockefeller?"

Then Blanche McArthur, daughter of a coal digger, walked to the front

Drink Curbed in London.

Lackswanna, N. Y.

The success of Lydis B. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, that the hours during which drink may be sold will be shortened and that di-lution of spirits will be insisted on. Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The final ascent was made August 5. The physician added that 5000 feet of the way was up a nearly sheer wal of ice and snow, in which the explorers had to cut steps.

Hop Crop Estimate 100,000 Bales.

Salem, Or.—Oregon's hop crop for 1915, according to the average estimates of growers and dealers, will equal 100,000 bales. To pick the state's crop of hops and for other expenses, incidental to labor, growers have paid approximately \$1,000,000.

In figuring the hop output, growers and dealers vary in their estimates. The Oregon Hop Growers' association officials announce that the crop will be about \$0,000 bales, while independent dealers place their figures higher.

Offsetting the partial failure of the crop in the St. Paul and Gervais districts is the increase in the production of the yards in the Independence district.

Conditions in this section were re-Salem, Or .- Oregon's hop crop for

Conditions in this section were remarkably good, growers declare, and nearly all the yards bore heavily. Fourteen prominent growers in the Independence district this year have a total output approximating 20,550 bales. In 1914 these growers had a total production of 16,000 bales. Reports received here by dealers are to the effect that in Lane county the crop will be about 6000 bales, practically the same as last year. In Washington county advices are that this year's yield will approximate 10,000 bales.

With 5200 bales, the E. C. Horst United States on his way to France to study army aeronautics in the Subropean war.

Laughlin's crop this season is 2350 bales, as compared with 1657 bales in 1914. Because of disastrous fires which destroyed seven kilns belonging to T. A. Livesley & Co., at Livesley auxiliary only.

The board is at work on a comprehensive battle cruiser program, which, it is hoped, can be followed from year to year until the navy is equipped with bales.

Laughlin's crop this season is 2350 bales, as compared with 1657 bales in 1914. Because of disastrous fires which destroyed seven kilns belonging to T. A. Livesley & Co., at Livesley station, south of this city, this firm has approximately 800 bales, while last season the production equaled 1800 bales.

Fast Vessels Declared to Have Full Proved Their Usefulness-Experts State Their Views.

Washington, D. C. - The building program of the general board of the navy will call for at least six big ships, it was learned Saturday from authoritative sources at the Navy department. At least one, and possibly two, of these will be battle cruisers, and the rest super-dreadnaughts.

At present the navy has no battle cruisers, but experts of the general board are convinced that the development of this type by nations against which the United States is obliged to prepare makes it necessary to provide ships of this type without delay.

Japan, Great Britain and Germany have experimented with the battle cruiser and have amply demonstrated its usefulness. It has been shown that

GEN. NELSON A. MILES

company, of this section, leads all there is no effective way of combat ting a battle cruiser except with ships of the same type, and for that reason, experts say, it is absolutely necessary there is no effective way of combat

Fall Plowing Nearly Finished.

Following is a summary of the crop conditions in Oregon and Washington for the week, as reported to the office of the weather bureau by special correspondents throughout the Northwest:

The past week has been dry and in interior Western counties unseasonable at all as a little one."

Blanche then branched off into a discussion of stocks and bonds. Mr. Rockefeller listened gravely as the child detailed the elements which make bond issues safe or mase.

"We have a store, too, Mr. Rockefeller," she continued. "It was formed by some of us boys and girls, who each subscribed 10 cents to the capital stock. We buy school supplies —pencils and tablets—at wholesale and sell them to the runnils. Last year.

8-Year-Old Mill Starts.

Marshfield, Or. - A sawmill which ment in the East has slowed down, but had been built eight years, equipped Drink Curbed in London.

London—King George has signed an order, which will be issued next week, applying the clauses of the control of liquor act to the London area. The order will prevent "treating" in London. A similar order, which has been applied to other areas under the powers conferred by the defense of the cases of drunkemess, dealt with by the police 40 per cent. It is expected that the hours during which drink may in the East has slowed down, but prices are not materially changed. Among the sales at Boston in the past week were 200,000 pounds Soda Springs half-blood at 29 cents; 50,000 pounds fine and fine medium Utah at 24 cents; about 100,000 pounds Montans at 27 two miles from Marshfield by A. A. Courtney, who was then secretary of the Pacific Coast box combination.

Just at the time the mill was completed, the panic of 1907 came on and Courtney and his associates failed.

Sunday.

Tommy—Yes; I'm not old enough to stay away yet.—London Opinion.

be sold will be shortened and that dilution of spirits will be insisted on.

High Peak Finally Scaled.

New York—Dr. Andrew J. Gilmour announced Saturday on returning from Alberta that he and Professor Edward W. D. Holway, of the University of Minnesota, had climbed to the summit of Mount Geikie, in Alberta. It was asserted that they were the first to attain the summit, which is 11,016 feet high.

The final ascent was made August 5. The physician added that 5000 feet of the way was up a nearly shear wal

of the way was up a nearly sheer wal of ice and anow, in which the explorers had to cut steps.

Cheese Prices Tending Upward.

Portland—With cheese stocks at the Coast well cleaned up and the fall season at hand, the market has developed an upward tendency. Prices have advanced three-quarters of a cent to the landstrom Handforth Lumber company at Rainier, 20 miles south of Tacoma, destroying the sawmill, shingle mill and lumber shed and 5,000,000 feet of lumber. The loss is estimated at more than \$140,000, partly insured.

Cheese Prices Tending Upward.

Portland—With cheese stocks at the Coast well cleaned up and the fall season at hand, the market has developed at tached to the United States Army aviation corps at North Island, Saturday made 15 loops each while engaged in flights, shattering all army and navy aviation records. Both officers used the same machine. As it is of the heavy army type, designed solely for long-distance flying, the feats of the two army aviators are considered remarkable in sviation circles.

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—that sustains the raise—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in K C and you will find it just as well suited to your requirements. K C is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K C Baking Powder will sustain the raise until a crust is formed and all danger of falling

K C Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.

Try a can at our risk and be convinced.

Some Difference

"What is the difference between gross and net?" asked young lilly as his father stepped off the boat.
"In my case," replied the sunburned parent, "the gross was what I expected to catch on my fishing trip, and the net was this." And he held up a four-inch blackfish.

HOWARD, & SURTUR - AMONTH and CRAMICS.

Perfect.

Was the plente a success?" "Sure. The man who sat down on the huckleberry pie had a palm beach of going out to play golf every after-noon perhaps you could make money faster," replied his better half.

No Rest For Him.

"This extravagance has got to stop," said the head of the family wrathfully "You are spending money faster than I can make it." "If you'd stick to your office inste
