Milton Eagle: George Scrimsher is having a record crop of Mann apples. From ten trees he has packed out 200 boxes, the trees going much better than 20 boxes to the tree. ODD BITS OF NEWS.
Davenport, Wash.—When County Prosecutor David McCallum passed a horse hitched to a railing, the animal nipped him and began to prance around. Struck by the strange actions, the prosecutor stopped and recognized a mare which he, as a farm lad, had raised but had not seen for eight years. Bystanders declared the horse's recognition of the man was unmistakable.
St. Albans, Vt.—W. L. Plimley of North Clarendon has a pet dog which he declares climbs trees to the height of 32 feet. The dog's nails are slightly more pointed than those of an ordinary dog, and the padding on his feet is broader. Veterinarians are at a loss to understand how he accomplishes his feat.
Bluefield, Nicaragua—Jose Aguido is an example of strange reversal to the savage. When his sister violated an edict regarding marriage to her cousin, Aguido cut out her heart, baked it and ate part of it. He confessed and will be hanged.
St. Paul, Minn.—Dr. S. N. Gogliner and Dr. N. G. Mortenson charged in police court with kicking out the false teeth of Emmil Freiden were dismissed because of lack of evidence when the false teeth could not be produced.
New York, N. Y.—Mrs. Jeannette Schwartz, 104 years old, who weighed less than twenty-five pounds, died recently. She was two and a half feet tall. At a party held just before her death, she recited and danced. Of late she had the habit of awakening during the night and calling for a glass of beer.
New Bern, N. C.—A 3-gallon carboy of "monkey rum" in the office of U. S. Commissioner Chas. B. Hill, showed the color of the liquor to be milky and the smell like that of molasses. Moonshiners in North Carolina are making and selling it in large quantities. It is made of water, molasses and certain unknown chemicals. After working the liquor is 100 proof, and a sauciful will burn for five minutes when lighted. The "monkey rum jag" lasts three times as long as a whiskey drunk, and ends with frightful delirium tremens.
Crookston, Minn.—A fisherman here has placed a mirror in the water and in front of it a plate glass slanting at 45 degrees angle. The bait is placed between the two. He claims that when the fish approaches and sees his image in the mirror, he speeds up thinking another fish is after the morsel, strikes the plate glass and slides up it into a net placed at the top.
