Followed Instructions.

"Gracious, man!" exclaimed the doctor when Mr. Glubbins calls him in a hurry. "Your temperature is rioting along near the danger point, and you——"

"And I'm worse off than I ever was before, all through the diet you prescribed."

"Impossible, Mr. Glubbins. I told you distinctly to confine yourself to such food as would be taken by a 3-year-old child."

"And didn't I obey orders? I ate apple cores, dog biscuits and ends of burnt matches and scraps of peeling and everything else I could pick up while no one was looking, and here I am pretty nearly dead!"

Hastily reflecting upon the gastronomical tendencies of the average 3-year-old child, the doctor tells Mr. Glubbins that he has been overdoing the diet and will have to subsist on soft toast and hot water for a week.

Aeroplanes of Russian Make.

Sukhomlinoff saw that a weak point in the Russian army was that too much of its equipment came from abroad—a vulnerable situation in wartime, as the present shows. So he set himself busily building up arms factories, cartridge factories, and so on within the boundaries of Russia, and at the same time established a central laboratory where new mechanisms, explosives, inventions might be tried out.

He also organized—and this gives us the measure of his foresight—a first-class school of military aviation, and set the best Russian mechanics at the development and manufacture of aeroplanes, which today take the place of cavalry as "the eyes of the army." The result is that for the last four or five years Russia has been making her own aeroplanes and training a large staff of officers able to use them. Sukhomlinoff also developed an effective corps of army automobiles, for the rapid transport of men and supplies.—American Review of Reviews.

The Dutch at Whitby.

Whitby's last experience of naval warfare was rather curious. In June, 1636, two Dutch warships chased "a pickroon belonging to the king of Spain" into the harbor, and though in neutral water, England being at peace with both combatants, lowered their boats to board the Spanish vessel. The governor of the town, Sir Hugh Cholmley, protested, but the Dutch carried out their design and captured the enemy's ship. Thus set at defiance, Sir Hugh called up the trained bands, took boats, recaptured the Spanish ship and took prisoner one of the Dutch captains.

Whitby's chief fame is that from its abbey emerged the first English singer, Caedmon. He was remarkable among his fellows for his ignorance of such simple skill in the art of song as belonged to the monks of those days.—Pall Mall Gazette.

Another Edison Marvel.

When the telephone was nothing more than an experimental toy in 1870, Mr. Edison predicted that this form of communication would not be perfect until combined with the phonograph, so that telephone messages would be recorded automatically. And now, forty-five years later, when fifteen millions of conversations are carried annually over the telephone wires, Mr. Edison is ready to exhibit at the Panama-Pacific fair for the first time the telescribe, a combination of the telephone and dictaphone, which will put upon a cylinder for reproduction every syllable uttered into the transmitter.

A little thought will enable any one to realize what a revolution will be wrought in commercial and legal affairs when a telephone conversation can be proved beyond dispute as readily as a written document.

Resinol Stops Itching Instantly

It is a positive fact that the moment resinol ointment touches any itching skin, the itching usually stops and healing begins. With the aid of resinol soap, it quickly clears away all trace of eczema, ringworm, pimples, blackheads, or similar tormenting, unsightly eruption, leaving the skin clear and healthy.

And the best of it is you need never hesitate to use resinol soap and resinol ointment. There is nothing in them to injure the tenderest surface. Resinol is a doctor's prescription which for twenty years has been used by careful physicians for all kinds of skin affections. They prescribe resinol freely, confident that its soothing, healing action is brought about by medication so bland and gentle as to be suited to the most delicate or irritated skin—even of a tiny baby. Every druggist sells resinol soap and resinol ointment.

HUNDREDS ARE LOST ALONG GULF COAST

Many Marooned in Trees and Housetops in Flood Zone.

PROPERTY LOSS ESTIMATED 12 MILLION

Several Towns Are Completely Wiped Out—Packet Upsets and Eight Passengers Are Drowned.

New Orleans—The number of known dead, reported dead and persons missing in Louisiana and Mississippi as a result of Wednesday night's tropical hurricane was put at 549 in a total compiled here Saturday from reports that came in from many points on the Gulf coast and in the interior.

Many more are missing.

Hundreds of persons along the Mississippi and interior points are marooned in flooded sections.

The property damage was estimated at approximately $12,000,000.

The known dead in Louisiana included:

New Orleans and environs, 24; Rigolets, 21; Lake Catherine, 23; near Frenier, 25; eight drowned in sinking packet near Grand Isle.

Reported dead and mission:

Shell Beach, St. Bernard parish, 16; Island de la Croix, 22; Yoloeki, 15 negroes.

SIR ROBERT L. BORDEN

Sir Robert L. Borden, premier of Canada, recently visited Great Britain and France for the purpose of discussing with the authorities the cooperation of the Dominion in the war.

Couriers by boat and train as well as mail advices brought in reports of tremendous property loss and rumors of many drowned along both sides of the Mississippi river south of here.

Boat passengers arriving from Empire, near Doulloth canal, about 50 miles down the Mississippi, reported that only four large houses still stood at Empire and that about 200 persons were marooned in them. The state conservation commission here started a rescue vessel for that point.

Many inhabitants of the flooded sections on both sides of the river were reported marooned and some were said to be clinging to tree tops. Relief vessels were sent to rescue them.

Bay St. Louis, Miss., on the Gulf cost, reported one dead and property loss will run into millions.

Removes Bar to Wireless.

New York—The invention of a device with which it is hoped to prevent static interference with wireless communication is announced by Professor Michael I. Pupin, of Columbia University. Professor Pupin said his invention eliminates entirely the difficulties constantly interfering with the wireless messages over a long distance. The application of his device, Prof. Pupin said, also will make it possible to transmit the human voice on unlimited distance without the slightest interference from unfavorable conditions.

Talcum Powder Is Taxed.

Trenton, N. J.—Federal Judge Reilstab has decided that talcum powder used for toilet purposes is a cosmetic and taxable, and the seizure of a quantity of the article by the government was rightfully made. The seizure was on the property of E. R. Squibb & Son, of New York, to determine whether under Schedule B of the emergency stamp tax act of October 22, 1914, talcum powder should bear the stamp tax as on a cosmetic. U. S. District Attorney Davis said at least $500,000 in revenue was involved in the test suit.

Part of Deckload Lost.

Raymond, Wash. — While crossing Willapa Harbor bar at 4:30 Saturday afternoon the steamer Avalon was struck by a heavy breaker, which threw the vessel on her beam ends, causing her to strike heavily on the bar. The lashings broke, and 200,000 feet of lumber cargo went overboard.

The vessel was brought back to this place badly damaged and leaking. Extent of the damage will not be known for some time.

Sympathy.

A gentleman traveling on horseback not long ago came upon an Irishman who was fencing in a most barren and desolate piece of land.

"What are you fencing in that lot for, Pat?" said he. "A herd of cows would starve to death on that land."

IN STERLING LIVES A GIRL

Who Suffered As Many Girls Do—Tells How She Found Relief.

Sterling, Conn.—"I am a girl of 22 years and I used to faint away every month and was very weak. I was also bothered a lot with female weakness. I read your little book 'Wisdom for Women,' and I saw how others had been helped by Lydia E. Pinkham's Vegetable Compound, and decided to try it, and it has made me feel like a new girl and I am now relieved of all these troubles. I hope all young girls will get relief as I have. I never felt better in my life."—Mrs. JOHN TETREAULT, Box 116, Sterling, Conn.

Massena, N. Y.—"I have taken Lydia E. Pinkham's Vegetable Compound and I highly recommend it. If anyone wants to write to me I will gladly tell her about my case. I was certainly in a bad condition as my blood was all turning to water. I had pimples on my face and a bad color, and for five years I had been troubled with suppression. The doctors called it 'Anemia and Exhaustion,' and said I was all run down, but Lydia E. Pinkham's Vegetable Compound brought me out all right."—Miss LAVISA MYRES, Box 74, Massena, N. Y.

Young Girls, Heed This Advice.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

Third Alfalfa Crop Put In.

Portland—Following is a summary of the crop conditions in Oregon for the week, as reported to the local office of the weather bureau by special correspondents throughout the state:

Although showers fell in the Western counties on the 23d, 24th and in some limited areas of North Central Oregon on the 24th, which benefited pastures and gardens to some extent, there is still need for rain in all portions of the state.

The warm weather has been favorable for the maturing of fruit and garden truck. The picking and drying of prunes has been about completed and the harvesting of apples and pears has begun. In the Eastern Oregon valleys the peach crop was very heavy and the quality excellent, but owing to an over-supplied market many tons of the choicest fruit is going to waste.

Threshing has been practically completed, and the farmers are preparing the soil for seeding, but little wheat will be sown until the fall rains have commenced.

While waiting for the rain, ranchers are hauling their wood and winter supplies.

Irrigated crops of alfalfa are very good, and the third crop is being put up in some sections.

Tomatoes are plentiful and of excellent quality. Seasonable fruits and vegetables are in the local markets in abundance, and the quality is very good.

Cranberries Are Popular.

Tacoma — Cranberries are proving unusually popular with the trade and the supply on the local produce market is good. As a substitute for blackberries, dealers say, cranberries are what is wanted. The berries are rolling in from Cape Cod and are of fine size and color and hold up unusually well in shipment. They are quoted wholesale at $9.50@10 per barrel. This week saw the first appearance this season of grapefruit from the Isle of Pines. The first receipts are a trifle green and are bringing 15 cents each.

Egg Prices Go Up.

Tacoma — Some dealers sent prices on fresh ranch eggs soaring and wholesale quotations now are from 35 to 38 cents a dozen. Cold storage eggs remain steady at 27@28 cents a dozen. The rise in the fresh product is attributed to a scarcity and an advance of the ruling market of Puget Sound. Butter and cheese are unchanged. Favorable weather conditions have prolonged the tomato season and the best ones to be had are offered at 45@50c a box. Cantaloupes, grapes and apples are among the leading sellers.

Commission House Case Dismissed.

Seattle—That the law providing for the licensing and bonding of commission merchants, enacted by the last legislature, contains a joker which makes it inoperative against all but the smallest commission merchants was discovered here when Superior Judge Gilliam dismissed the suit against J. B. Powles & Co. The bill, as introduced in the legislature, was aimed at commission merchants by the shipping and growers' associations.

As sure to rise as the Sun

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KC BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use K C never have "bad luck" with their baking. Try K C *at our risk.* Your grocer will refund your money if you are not pleased in every way. 87

An Obligation.

"Our friend always puts his best foot forward, although he is a trifle uncouth."

Hello, Mabel!"

"Oh, hello, George!"

"How are you, Mabel?"

"Just fine! How are you, George?"

"Same. Say, Mabel, let's go through the park this afternoon. What do you say?"

"Well—ah-ah shem—I—I—ah—I'm kind of—well, I'm kind of tired, George."

"Then you won't go?"

"I'm so sorry, but, George, you understand just how it is, don't you, George, dear?"

"Yes, I guess so. I suppose I'll have to ride with someone else, then."

"Ride?"

"Yes; my new eight-cylinder roadster came this morning."

"Oh, George! Did it really? Isn't that just splendid? Say—ah—George, I guess I'm not as tired as I thought I was."

"Well, I wouldn't take any chances if I were you, Mabel. It doesn't pay. I'll take someone else."

"But, really, dear, I'm not tired a bit. Honestly."

"It's sweet of you to say that, but I don't want to take advantage of your kindness. Good-by, Mabel."

Mabel slammed the receiver viciously on the hook. "Darn it!" she muttered. Why didn't he say so in the first place?"—Michigan Gargoyle.

Mental Arithmetic.

The following question was put to some young pupils in a public school: "There is a family of five children. The mother has only four potatoes to divide among them. She wants to give each child an equal share. What is she to do?"

Silence prevailed in the class room; every pupil was calculating diligently. Finally one boy put up his hand.

"Well, Sammy, what would you do?" asked the teacher.

"Mash the potatoes, ma'am."—Philadelphia Public Ledger.

The Reason.

"So you think the plaintiff wept crocodile tears."

"Sure I do. Wasn't he the allegator in the case?"—Baltimore American.

Valued Immunity.

"So you bought one of those automobiles they tell so many funny stories about?"

"Yes," replied Mr. Chuggins, "and it is saving me a lot of trouble and wear and tear. When your friends tell you jokes about your car they don't expect you to ask them to ride around in it."—Washington Star.

A New Game.

"Let's play pinochle golf this time," suggested the man who always lost.

"Pinochle golf," exclaimed his opponent. "What kind of a game is that?"

"It's played just like ordinary golf," replied the other, "only the man with the high score wins."—Philadelphia Public Ledger.

Dr. Dumba Has His Hat.

If any comment on the late Dr. Dumba were necessary it has been abundantly furnished by the Bohemians, Croatians, Czechs, and Slovaks who have indignantly repudiated his sudden condescending interest in them. They came to "this free and glorious nation," as they call it, to get away from him and his sort of government, and have told him so in plain terms. They are Americans, not Austro-Americans, and owe no allegiance to the mishapsburgs.
