DECISION OF CONFERENCE UNANIMOL

Mexican Capital Receives News Wit Great Rejoicing-Amnesto for All Who Submit Is Plan.

Washington, D. C.—Recognition of the party led by General Carranza as the defacto government in Mexico has been unanimously agreed on by the Pap-American conference as the alex-

tary Lausing, on behalf of the Secretary Lansing, on behalf of the United States government, expressed its intention to recognize General Carranza, and the ambassadors of Brazii, Chile and Argentina and the ministers of Bolivia, Uruguay and Guatemala transmitted the decision of the Washington government, as well as their own opinions in agreement with it.

Full Agreement Reached.

Mr. Lansing has obtained the approval of President Wilson to the plan, and before the conference began all the ministers in the Latin-American corps also had given their adherence to it.

The attitude of the conference was regarded generally as the most im-

regarded generally as the most im-portant diplomatic step in the Mexi-can situation since the United States decided to withhold recognition from the Huerta government, more than two years ago. It means that the Carrwo years ago. It means that the Car-ransa government will receive the moral support of the United States and that an embargo on shipments of arms to opposing factions will be laid as soon as recognition actually is ex-tended, which probably will be within a fortnight.

News Pleasing to Carranza.

Vera Cruz.—General Carranza received with great pleasure the news that the Pan-American conference at Washington had decided to recognize him as the defacto government in Mexico, although he pointed out that he had received no official notice to this effect. He will not alter his plans for a trin through the northern states.

this effect. He will not alter his plans for a trip through the northern states. In response to questions General Carranza said:

"When peace absolutely is restored and tranquillity really established throughout the country, amnesty will be granted to all these persons, but not now. To permit them to return at this time would be to endure their machinations within the republic.

"The immediate effect of this news will be a great moral strengthening of the cause of constitutionalism and a corresponding disheartening of opposing factions. There will be no more formal battles. Fighting of that sort already has ended, but naturally the struggle to put down minor outbreaks and lawlessness must be continued for a greater or less time in a country such as this, where there are extensive open areas."

Mexico City.-News of the decision Mexico City.—News of the decision to recognize the Carranza government was received with great joy by the military element here. All the newspapers issued special editions. General Pablo Gonzales, commander of the Carranza forces in Mexico City, will hold a recention in celebration by the corn increase at 1,405,000 bresheld. of the event.

EXECUTIVE'S DAUGHTER FAVORS MATCH

Brief Announcement of Engagemen Is Formally Given to Public by Chief's Private Secretary.

Washington, D. C .- Woodrow Wilon, the President of the United ced Thursday his enagement to Mrs. Norman Galt, of Washington. The date of the wedding as not been fixed, but it probably will take place in December at the home of

the bride elect.

The brief announcement from the White House made by Secretary Tumulty came as a surprise to official Washington, but to several intimate friends it has long been expected. From this circle came the story of a friendship whose culmination was viewed as a happy turn in the troubled and lonely life of the nation's chief

It was Miss Margaret Wilson and her cousin, Miss Bones, who drew Mrs. Galt into the White House. They met her first in the early autumn of east year and were so much attracted cars bark—Old and new, Si@4c by her that they sought her out more and more frequently and the friendship between them ripened into an affection-

between them ripered into an affection-ate intimacy.

Mrs. Galt spent a month this sum-mer at Cornish as the house guest of the President's eldest daughter. It was through this intimacy of his daughter and cousin that the President had an opportunity to meet and know Mrs. Galt. One of the most interest-ing facts about the engagement in

their purchases accordingly elevated their views. The cash market in Chicago was from 7 to 12 cents above the December option. It is figured that 400 carloads of wheat have been bought to date to go East, and the local trade looks for a continuance of the movement. Country business has again decreased, as the Chicago advance has made farmers firmer.

Bids at the Merhcants' Exchange were generally on a higher basis. Offers for club were raised 1 to 15 cents and red wheat bids were 1 to 2 cents higher. There was a 4-cent ad-

cents and red wheat bids were 1 to 2 cents higher. There was a 4-cent advance in offers for November forty-fold and 2½ cents for the October delivery. Spot bluestem was unchanged, but November was raised 3 cents.

For the first time in weeks there were bids for brewing barley at the Exchange. Offers were made to buy 500-ton lots at \$27, but sellers would not consider this price. Feed barley was 50 cents higher at \$25.50. The oats market was also firmer, with bids raised 50 cents, the strength being due to the advance in barley.

was a prominent lawyer.

For many weeks Mrs. Galt and her relatives have been frequent dinner guests at the White House. Often she has accompanied the President on motor rides. She is not quite as tall as Mr. Wilson, has dark hair and dark eyes and always is in stylish attire. Her tastes are said to be strikingly similar to those of the President, with a deep interest in literature and charlity wok.

MUSIC AND HEALTH

SOON TO MARRY Influence Was Recognized Even in Biblical Times.

> hrough Medium of Nervous System Marvelous Changes, Physical and Chemical, Are Brought About by Tenal Vibrations.

The power of music to influence the health of the listener has been recognized from early times and became historical in the attempts of David to drive out Saul's distemper. We believe no one has been bold enough to ascribe any direct influence of tonal vibration upon the material of the body, but through the medium of the nervous system marvelous changes. nervous system marvelous changes, physical and chemical, come to pass, and the effects of the art, which, above all others, plays upon the emotions, must certainly be more than triffing. Even the un-musical, those who are not es-pecially susceptible to sweet sounds, are affected differently by a jig-or a

funeral march.

A national society of musical therapeutics was founded last year and the names of a number of physicians appear on the list of members. A magazine for the purpose of helping along the movement to use music as a means the movement to use music as a means. the movement to use music as a means to health has been started, and it seems as if the subject would be looked into deeply and the place of music as a therapeutic agency placed in its proper pigeonhole, for reference in suitable cases.

One wonders what is the general in-fluence of the present ragtime crase upon the mental and physical condition of its hearers. Being in no wis serious, but, on the contrary, happygo-lucky in mechanism and perform-ance, it certainly cannot depress vital-ity and is far better in this respect than the popular melodies of a gen eration or two since, which were, with choly. The African jingles of the present day create an emotional at-mosphere of restlessness and excitement which is typically American, and which is opposed to health only so far as our national restlessness and lack of poise tend to make us a people whose national disease is nervous ex-haustion.—New York Medical Journal.

DOES CAT THINK WITH FEET?

Ability Always to Land on Then Seems to Point to Natural Conclusions.

There is nothing especially striking about the feet of a cat except its ability always to land on them. Hold young cat by its feet a short distance from the ground for a few seconds and then let go. The cat's back, being heavier than its feet, should strike the ground first. But it doesn't. Just as the cat is being let go it gives a quick upward thrust with its chest and as its feet are freed they swing under it so it lands on thess. In the case of the young cat the
