**Mortgaged Thoughts.**  
The assumption that when Mr. Wilson stated the other day that his "thoughts were mortgaged beyond recall" he was referring to critical international affairs was doubtless correct. But it appears that there was a second mortgage on his thoughts.

**What a Boche is.**  
Until the war broke out few Americans had heard the word boche or boche, the French soldiers' nickname for a German. It doesn't appear in the Academy's dictionary or in such editions of Little as most of us can get hold of. In Delvaux's slang dictionary its definition is "Mauvais sujet, dans l'argot des petites dames, qui se préoccupe au malin"; which last word Delvaux defines as "jeune homme poli, doux, amiable, réservé." A letter from Thomas Ogilvy to the Spectator supplies some additional information. He says Mr. Theodore Jones is his authority for saying that Little does define boche, and defines it as ulcer or pestilential tumor. Mr. Jones thinks it related to the Latin bocha, which means first the cheek, regarded as a puffy thing, and then, according to Harper's Latin dictionary, "one who fills his cheeks in speaking, a declaimer, bawler," and also "one who stuffs out his cheeks in eating, a parasite."

## CONDEMNED NURSE DIES LIKE HEROINE

### Loyal Woman Shot by Germans "Glad to Die for Country"

### "PATRIOTISM NOT ENOUGH" SHE SAYS

### Declares No Bitterness Held Toward Enemy—British Minister Tells of Last Visit to Prisoner.

London.—The British foreign office made public Saturday the report of Rev. H. S. T. Gahan, the British chaplain in Brussels, who visited Miss Edith Cavell just before her execution, and a letter from Brand Whitlock, the American minister to Belgium, to Walter Hines Page, the American ambassador in London. In his letter, Mr. Whitlock says he requested that the body of Miss Cavell be delivered to the School for Nurses, of which she was the directress, his request being referred to the ministry of war in Berlin. Rev. Mr. Gahan in his report says:

"On Monday evening, October 11, I was admitted by a special passport from the German authorities to the prison of St. Gilles, where Miss Cavell had been confined for 10 weeks. The final sentence had been given early that afternoon.

"To my astonishment and relief I found my friend perfectly calm and re-

signed, but this could not lessen the tenderness and intensity of feeling on either part during that last interview of almost an hour.

"She said that she wished all her friends to know that she willingly gave her life for her country and said: 'I have no fear nor shrinking. I have seen death so often that it is not strange or fearful to me.'

"She further said: 'I thank God for this ten weeks of quiet before the end. My life has always been hurried and full of difficulties; this time the rest has been a great mercy. They have all been very kind to me here.

"But this I would say, standing as I do in view of God and eternity: I realize that patriotism is not enough. I have no hatred or bitterness towards anyone."

"A German military chaplain was with her at the end and afterward gave her a Christian burial. He told me:

"She was brave and bright to the last. She professed her Christian faith and said she was glad to die for her country. She died like a heroine."

**Villa Soldiers Fight Federals.**  
Douglas, Ariz.—A sharp fight between the advance guard of General Villa's soldiers and a detachment of Carranza troops from Agua Prieta, Sonora, occurred Sunday between Agua Prieta and Fronteras, according to reports received here. The Carranza commander issued no statement as to the outcome.

**Hanging Called Decorous.**  
Springfield, Ill.—Mayor Davis, of Murphysboro, Ill., said Thursday that he would preside at an indignation meeting as a protest because Governor Dunne granted a 30-day reprieve to Elston Scott, who was to have hanged Friday. The governor reprieved Scott because of reports that a recent hanging had been a spectacle. "The governor was misled. Everything at the hanging of Joe Deberry was conducted with the utmost decorum," said the mayor.

**California Jersey Wins.**  
San Francisco.—Just three pounds of butterfat did Pearl of Venezuela, a Jersey cow owned by Guy C. Miller, of Modesto, Cal., win the championship in the Jersey class at the Panama-Pacific exposition cattle show. Pearl beat Mohican's 28, owned by E. L. Brewer, of Satsop, Wash., by two-twentieths of one per cent. Judgment was based on their verified milk record for one year. Other prize-winners included Albin L. Gile, Chinook, Wash., for junior and reserve junior champion cow classes.

**Cordoba Made New Coin.**  
San Juan del Sur, Nicaragua.—The final conversion of the currency of Nicaragua will be concluded October 30, after which the cordoba will be the only legal tender of the republic. The cordoba, the new monetary unit of Nicaragua, is of the same weight and fineness as the gold dollar of the United States. It was announced recently that the final rate of exchange agreed on was 15 1/2 pesos of the old currency for one cordoba.

**Huckleberries Drug on Market.**  
Portland.—Southern Oregon grapes were in larger supply this week. Among the raisins were several shipments of good Tokays, which brought 90 cents to \$1 a crate. Concord grapes were scarce and sold at 15 cents. California grapes were unchanged.

**Huckleberries continue more or less of a drug on the market, and though quoted at 40¢ cents, are hard to move.**

**Seattle Markets.**

**Northwestern Hops in Demand.**  
Portland.—About 1000 bales of hops were bought in the Northwest Wednesday. All the details of the transaction were not available, but the understanding of the prices were the same as those current for the past week or more. Louis Lachmund purchased 300 bales of the McCullough crop at independence. The McKay lot of 150 bales at St. Paul was also sold. Two lots of Western Washingtons, those of George Richter and Fremont Annis, were disposed of. Yakima sales included the Stewart crop of 125 bales and the Slavin lot of 75 bales.

**Bean Crop Estimated \$325,000.**  
Lewiston, Idaho.—The bean crop of the Lewiston country this year will amount to 160 carloads at an approximate value of \$325,000, according to the data collected by the railroad companies. The bulk of the crop is now in the warehouses and a considerable portion has been sold. The price at present is \$4.50 a hundred and the average yield is about 800 pounds to the acre. The railroad companies' estimates are based upon a minimum of 20 tons to the car, and with a production of 160 carloads, the production in pounds is approximately 7,000,000.

**Potatoes Are Poor at Genesee.**  
Genesee, Idaho.—The potato crop in this section is light this year and the quality of the potatoes is not the best. This is the shortest crop this section has had in many years. Considerable wheat changed hands here the past few days, selling around 23 cents a bushel. The Farmers' Union warehouse is shipping quantities of hops. The prices are better than they have been for some time, the last shipment being around 15 cents.

**Portland.**—Dollar wheat was again in evidence in the local market. Ten thousand bushels of November bluestem changed hands at the Merchants' Exchange at this price. Another sale of 10,000 bushels of bluestem for this month's delivery at 95¢ cents was posted. Country dealing at about the same basis or higher has been reported for several days. One lot was bought in Eastern Oregon, a special transaction, at equal to \$1.02.

By consistently holding out for higher prices, the farmers of the Northwest have succeeded in forcing the market up 8 to 10 cents a bushel since the first of the month, and this in the face of a steadily rising freight market. The last steamer reported taken was at 100¢, but it is stated that owners are now asking, with the Canal closed, 120 to 125¢. Exporters continue to buy, however, and they are compelled to pay the prices farmers demand.

The bluestem purchases at the Exchange were at advances of 1 to 1 1/2 cents over Monday's prices. Other bids for the near months were unchanged. December offers, which were too low when first posted on Monday, were now being taken into line with the other deliveries.

Barley bids were raised 25 to 50 cents. Oats were irregular, from 25 cents lower to 25 cents higher.

Patent flour was still available at the former price, but the market was inactive. The export market was reported inactive.

Reviewing conditions in the European wheat markets, Broomhall says: "Strength in wheat is due entirely to American advance and heavy Continental takings, but the advance is considered extraordinary in the face of big American crops and strong freights. Importers are obliged to pay unexpected prices and it is feared that this advance will continue, or at least as long as Continental buyers follow the advance."

## U. S. WILL SUPPLY OWN MUNITIONS

### Federal Yards Will Compete to Stop Excessive Profits.

### NO INTENTION TO MONOPOLIZE WORK

### Secretary States Auxiliaries Manned and Supplied by Americans Are Necessary to Good Navy.

Raleigh, N. C.—Secretary Daniels in a speech at the North Carolina State Fair said that the administration proposed to equip its shipyards and arsenals so they could compete with private plants under the national defense program. No monopoly was intended, he said, but this measure would be adopted as a check against excessive profits for private manufacturers.

"The government has invested many millions of dollars in navy-yards," said the secretary, "and unless this investment is utilized for new construction, much of it is wasted. If the government is prepared to launch a naval craft, private shipbuilding companies in making contracts must compete."

### MRS. NORMAN GALT

Mrs. Norman Galt is the wealthy widow who is to become the wife of President Wilson. She is a Southern belle and has lived in Washington nearly all her life.

With government yards. This tends to secure competitive prices and prevent combinations among private corporations to charge higher prices than conditions justify.

Mr. Daniels said that the government paid 80 cents a pound to a government manufacturer a few years ago to make powder, but the navy was now making it at a cost of about 25 cents a pound.

The secretary particularly directed attention to the lack of ships in the American merchant marine to carry American products to those who need it and are willing to pay for it.

"What the navy needs, and in case of trouble would need sorely," he added, "are auxiliaries properly built and equipped with trained Americans. A merchant marine with foreign crews is not an American need, either for commerce or for defense."

### Honorary Degrees Given.

Washington, D. C.—Nearly 200 new thirty-third degree honorary members were elected by the supreme council of the Scottish Rite of the southern jurisdiction of the United States, in session in the newly dedicated Masonic temple here. Practically all of the southern and western states, the District of Columbia, the army and navy, the Philippines and Porto Rico were represented in the list of those elected. It is expected that several active thirty-third degree members will be named later in the week.

### Yale Club Drinking.

New Haven, Conn.—Notices have been sent out by the Yale faculty to all clubs, secret societies and "frat" organizations to inform them that Yale undergraduates belong, informing them that after November 1 they will not be allowed to serve liquor in their club, society or "frat" house. The faculty order is expected to put an end to social drinking of undergraduates. A new state law provides that all clubs and similar organizations which wish to serve liquor must secure a special license.

### Swiss Protest to Berlin.

Berne, Switzerland, via Paris.—The Swiss government has instructed its embassy at Berlin to lodge an energetic protest against the new violation of Swiss territory by German aviators. The protest is occasioned by the act of an aviator in dropping eight bombs over Chaux de Fonds Sunday, causing the injury of four persons and considerable damage to property. Switzerland demands compensation and the punishment of the aviator.

### Jews Brave in Berlin.

Berlin, via Bayreuth, N. J.—Two hundred and eighty-six Jews in the German army have been promoted to be officers. Four thousand Jewish soldiers in the army have been decorated with iron crosses of the first class, according to an Overseas News Agency announcement.

## KITES AID WIRELESS

### Successful Experiments Made by Signal Corps.

### Marked Increase in Efficiency Obtained by the Use of the Kites—Further Tests to Be Made Along Same Line.

A series of remarkably successful and interesting experiments were conducted by the United States signal corps at the recent maneuvering in Massachusetts in maintaining a wireless aerial by means of box kites and thereby increasing the efficiency of an ordinary field wireless outfit from six to sixteen times. The tests were conducted by Samuel F. Perkins, a maker and flyer of man-lifting kites.

Favorable strong and steady winds enabled Mr. Perkins to send up a

string of kites to an altitude of 1,600 feet. Messages transmitted from the set of field wireless attached to the kite-supported aerial were received 150 miles away with distinctness, although the ordinary range of the set was only 25 miles. One thing that aided materially in obtaining this result was the fact that the kites flew so steadily that the aerial was always maintained at a constant altitude.

Quite as remarkable as the sending power of the wireless was its receiving quality. Messages were received with distinctness from the battleship Georgia while off Newport and from the government station at Arlington, Va., and Bermuda.

These experiments were but the first of a long series that will be conducted, and it is the belief of those who are interested in the matter that they will lead to a system by which the range of the ordinary field wireless will be materially increased. United States government and Marconi offices are following the experiments closely.—Scientific American.

### Wanted—A Southerner.

He was a good-looking young negro whose clothes gave no indication that he was out of a job.

He entered the Enquirer office at the moment the staff was taking the relaxation which follows the completion of the last edition of the press.

Said the young negro: "Kin yo' gemman tell me whether tha's a 'uthen' gemman anywh' round heah?"

"What's the matter with a northern gemman?" inquired the staff kilder.

"Boss," answered the young negro, "Ah' jus' got in fum' Georgia. Ah' hungry. 'T' Ah' kin' a' gemman fum' down South he'll help me out."

Maybe that's a new one. Possibly it's a late and new way to make a sale. But if the young negro was on the level, and he looked it, the South received its handsomest compliment in these parts in many a day.—Buffalo Enquirer.

### Another "Peach" of a Peach Story.

Brown, Bartholomew and Johnson counties all combined make this story. Mr. and Mrs. Eliza Davis live on a farm in the corner made by the three county lines. They have a peach tree on their place that has been acting in an unusual manner, and Mrs. Davis, who visited Columbus, Ind., recently brought along some proof. She had one twig from the tree on which there were 16 peaches, the combined weight of which was seven pounds. There was not another peach on the tree, but the one twig did nobly. Just a little distance from this tree there is another that is sending forth its second crop of peaches, and nearly all of the limbs now are full, the peaches being about the size of guinea eggs. On the Davis farm there also is a second crop of blackberries growing.—Indianapolis News.

### Practising Economy.

When the conversation turned to the subject of economy this little incident was related by Congressman Charles H. Burke of South Dakota: Jenkins was sitting in front of the firehouse in a suburban town when a fellow-commuter came along and unveiled a dissertation on the high cost of living.

"Speaking of the high cost of living," responded Jenkins, "everything is economy down our way now. My wife is practicing it to beat the band."

"You don't mean it!" exclaimed the other. "In what way is she economizing?"

## Cut the Cost of Living!

A plate of hot biscuits or muffins, a fresh, home-baked cake, a loaf of brown or nut-bread, rescues any meal from the commonplace, and more expensive things are never missed.

With K C, the double acting baking powder, good results are doubly certain. There's economy too, in the cost of K C.

### Paper Shirts for Soldiers.

Paper shirts, made in Japan, are now being served out to the Russian soldiers for use in the cold and wet weather, which is rapidly approaching on the eastern front. A number of these paper shirts were used by the Russians last winter, and they proved to be much warmer and cheaper than ordinary shirts.

## MRS. THOMSON TELLS WOMEN

### How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 55 years of age and during Change of Life I suffered for many years terribly. I tried several different doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound. I had no pains at all and found much relief. After that I had no more pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 6th W. Russell St., Philadelphia, Pa.

## DR. PIERCE'S Favorite Prescription

Take this in liquid or tablet form and be a well woman!

Mrs. Eva Tyler of St. George St., N.Y., says: "I have been a sufferer from nervousness and a great deal of pain at certain periods. I have taken several different medicines but found none of them to be of any use. Your Favorite Prescription has given me the most relief of any I have ever tried. I feel much better than I have been in some
