Wide Awake.  
An abnormally fat man lumbered in to a Pullman on a west-bound train, and set up a loud protest when he found that his berth was at the end of the car.

"I can't sleep a wink if I'm over the car wheels. I won't close my eyes if you put me over the car wheels, porter."

"Can't help it, sah," said the porter. It's the one that was sold you, and it's the only one there is. You'll have to take a chair car and set up if you don't take this."

The fat man finally decided to keep the berth, protesting to the last that he did not expect to close his eyes. Shortly his snoring was heard above the rumble of the train, but it was not until the train had a long wait that the sounds issuing from the berth caused anything but amusement. In the silence, however, they got on the passengers' nerves, and by request the porter nudged him in the ribs.

"My goodness, sah!" demanded the porter. "If you makes noises like that when you're lyin' wide awake over the car wheels, what would you do if you was sound asleep in the middle of the car?"

## STRIKE BREAKERS SET FIRE TO TOWN

Hill Town, Injures 19, in Rioting at Youngstown, Ohio.

PROPERTY LOSS NEARLY ONE MILLION

State and National Troops Called to Dispel Looting Mob—Firemen Driven Away by Stoning.

Youngstown, O.,—Four men were killed, 19 other persons, including a woman, shot, and 15 city blocks destroyed by fire as a result of riots growing out of the steel mill strike here Saturday night.

The fire had caused a loss estimated at from \$500,000 to \$1,000,000 at last reports.

Rioters, who for hours had held the city in a reign of terror, looting stores and the postoffice and setting fire to many buildings, began to quit the streets after rumors of the arrival of troops spread. Citizens, however, feared a new outbreak at daybreak.

The trouble was the culmination of a strike of laborers which began at the plant of the Republic Iron & Steel company a week ago and spread to the plants of the tube company, the Youngstown Iron & Steel company, and the Brice & Steel company, all "Independent" concerns. The men demanded 25 cents an hour; the companies offer an increase from 19 1/2 to 22 cents an hour.

The bridge from East Youngstown to Struthers was burned to prevent rioters from entering the town. Two companies of United States regulars from Columbus were ordered to East Youngstown because of the looting and burning of the postoffice.

The trouble started early in the morning when strike sympathizers and workers at the sheet and tube plant clashed. Stones were thrown and several shots were fired, but no one was injured. Later in the afternoon a riot occurred just outside the tube company's plant and two men were injured so badly they were taken to a hospital.

The most serious trouble started when the day shift at the sheet and tube mills left work. A crowd of 6000 gathered at the entrance to the works and stoned a squad of private police in charge of Chief Wolts, of the sheet and tube company forces.

The police force of the city was lined up on a bridge at the river leading to the main works of the plant. Someone in the crowd threw a rock, which struck one of the mill guards.

Immediately several of the guards drew their revolvers and fired to scare the crowd.

Then the real trouble started. Revolvers were produced by men in the crowd and answering shots were sent back. The guards answered by firing into the crowd. Men and women, wounded, fell amid the rain of bullets. Finally the crowd fell back and vented its fury by applying the torch to buildings in the neighborhood.

Firemen summoned from Youngstown arrived on the scene, but before they could get the hose connected up with the city hydrants the crowd drove the fire-fighters away. Many shots were fired, and the firemen drove off with their apparatus amid a hail of stones.

By this time the flames threatened to sweep through the entire business section. The infuriated crowd surged through the streets, and threats were made to burn the entire town.

All available guards were marshaled by the Sheet & Tube company, and by other mills in the suburbs in an effort to prevent destruction of their property.

4000 Get Wage Increase.  
Denver—An increase in wages is to be granted the employees of the steel mills of the Colorado Fuel & Iron company, according to announcement of J. F. Welborn, president, here Saturday. The increase, it was said, will correspond to those announced recently by officials of the United States Steel corporation, and will become effective as soon as the Colorado Fuel & Iron company officials learn what the United States Steel corporation's increases amount to. About 4000 are employed in the company's steel plant at Pueblo.

Steamship Passes Canal.  
Panama—The steamer Newton, the last vessel waiting for passage through the Panama canal, passed through the waterway Saturday. The Newton, drawing 27 feet, has the greatest draught of any vessel using the canal since it was closed last September. Major General Goethals said that, while the Newton was permitted to pass through the canal, it was not yet in condition for continuous traffic and that the waterway was not open. He declined to make an estimate of the time required to reopen the cut.

Bribe to Italy Charged.  
Berlin—The Neue Zürcher Zeitung has received reports from reliable sources, says the Overseas News Agency, that the London treaty providing against the conclusion of a separate peace signed by Italy contains a special clause under which Italy received 2,000,000 lire for giving her aid and assistance to the agreement. The news agency says it has "special information" that another clause in the treaty is directed against the Vatican.

French Release Consuls.  
Paris—A dispatch from Athens says that Jean Gilliamin, the French minister to Greece, has announced that consuls of the Teutonic allies arrested in Saloniki have been released. Greek newspapers, the dispatch adds, regard this action as satisfactory to the Greek government.

## SECRET OF TRADE COMMISSION TO BE CRITICIZED IN CONGRESS

Washington, D. C.—The secret procedure of the Trade commission, which, with a majority made up of Democratic politicians, is now "regulating" big business, is destined to receive a grilling in both the senate and house.

A demand that light be shed on the operations of what is pronounced the most secret agency of an unusually secretive administration will be made by Republican senators and representatives when the appropriations for the executive branch of the government are considered.

Although the commission is nearly a year old, it has given practically no public proof of the activity, it is asserted, in enforcing the laws relating to business. All complaints of unfair competition and violation of the antitrust acts have been considered and disposed of in secret. No business concern has been called on openly to defend itself against a charge of violation.

JOHN A. KEY

Congressman John A. Key of Ohio, chairman of the house pensions committee, is the author of a bill providing for pensions for the widows of the men who died in the Spanish-American war. It carries an appropriation of about \$2,500,000.

Republicans contend that the public does not know whether unfair competition is so prevalent that the commission has been swamped with complaints, or so rare that few grievances have been filed.

The commission says that about 200 complaints have been filed, but refuses to divulge disposition of specific cases. Although admitting that this secret procedure is not prohibited by the law, Republicans charge that it is contrary to the intent of the statute, which provides that when the commission is satisfied that the law is being violated it shall cite the offender to a public hearing. The commission has adopted the procedure of confidential investigation of complaints and asserts that no public hearings have been necessitated because in every case either the accused concern has abandoned the practices complained of or the accuser has withdrawn his complaint.

Compulsory Military Service Is Held Best by Secretary of War  
Washington, D. C.—Secretary Garrison told the house military committee at a hearing Monday that compulsory service was the only really adequate basis on which to construct a military policy compatible with the idea of democratic government.

The secretary made the assertion merely as an expression of personal sentiment, he said, and did not elaborate on it. His statement was regarded as significant, however.

Representative Schallenberger asked Secretary Garrison if universal military obligation did not make it possible for nations to be drawn into war despite the wishes of the majority of the people.

"I do not think France or Germany would be waging war if the majority of their peoples did not favor it," replied the secretary. "No nation ever is at war at variance with the wishes of the great majority of its people."

T. R. Declines to Run.  
Minneapolis—William T. Coe, of Minneapolis, announced at a meeting of Progressives Monday, receipt of the following letter from Colonel Roosevelt, in reply to a question whether the Colonel would agree to the placing of his name on the Minnesota Republican presidential ballot:

"I cannot consent to have my name filed in any primary. What I am trying to do is to fight for straightout Americanism. I am not concerned whatever with any individual, myself or anyone else."

American Flag Misused.  
Boston—The British steamer City of Lincoln went through the Mediterranean sea flying the American flag as a protection against submarines, members of the crew said when the steamer arrived here with a valuable cargo from Oriental ports. They said the ship's name was altered to read "Lincoln."

Officers of the vessel refused to discuss the matter. The City of Lincoln carried 4000 tons of rubber and 2400 tons of tin, which, with large consignments of oil and other freight, made up a cargo valued at \$5,000,000.

Alfalfa Land Price Out.  
Hermiston, Or.—The price of alfalfa land in this locality is to be greatly reduced, according to a movement inaugurated at the annual meeting of the Hermiston Commercial club. Land owners are agreed that this is necessary to dispose of their holdings, and the Commercial club urges it to promote settlement. The old fruit-land price of \$200 to \$300 an acre for unimproved land will be divided by five or six. The Commercial club will issue a folder setting forth the reasons for the reduction in price of alfalfa land.

Suffragists Win Point.  
Washington, D. C.—The Susan B. Anthony amendment providing for woman suffrage was reported favorably to the senate by the suffrage committee. "In our opinion, every principle upon which universal manhood suffrage rests demands the extension of its privileges and responsibilities to women," said the report. "They are subject to the laws, are taxed for the support of government, and subject to a common political destiny."

Farmers Are Holding Oats.  
Portland—The oats market is becoming firmer with lighter offerings. Receipts have declined materially of late, and practically no oats are coming in now from east of the mountains.

There has been buying in the interior throughout the country. The continued Eastern demand for choice grade Northwestern oats is looked for, and for this reason farmers are not disposed to sell now. The spread in prices, east and west, however, is not wide enough yet to make the business very attractive to shippers at this end, although a considerable volume of business has been worked.

Valley oats, which are in large supply, are not likely to find an Eastern outlet, but there should be a better market for them here, with some coming in from Eastern Oregon or Eastern Washington.

Inland Empire Holds Onto Grain.  
Lewiston, Idaho—On account of being financially able to play a waiting game, grain growers of the Inland Empire are refusing to sell this season's crop at the prices quoted. More than 75 per cent of the crop of 10,000,000 bushels is still in the hands of the ranchers.

For the first time wheat is being extensively shipped from this region by rail direct to New York for export and markets of the Eastern states for millary purposes. Also, practically all barley shipments have gone East. The movement is becoming heavier daily, and is expected to continue until the opening of the Panama canal, when the grain will be diverted to Portland and Puget Sound points, thence through the canal to the European nations.

Chehalis Milk Price Advances.  
Chehalis, Wash.—The Pacific Coast Condensed Milk company has announced the milk price for the first half of January at Chehalis to be \$1.70, an increase of five cents a hundred over the price paid the last half of December.

There has been a steady gain in the price of milk the past 60 days, locally. The condenser company is making heavy shipments of milk that business being greatly improved recently owing to drafts on Eastern supplies for shipment to Europe.

Wool Growers Interested.  
Pendleton, Or.—Word comes from all points of Eastern Oregon as far from Pendleton as Prineville that representatives will join the Umatilla County sheepmen in their special car, which leaves Pendleton Wednesday, January 19, for Salt Lake City to attend the National Convention of Wool Growers. The following towns will send delegates: Heppner, Baker, Walla, Prineville, Hay Creek, Stanfield, Pilot Rock, Echo and Pendleton. The party returns Monday, Jan. 17. Senator J. N. Burgess will manage the trip.

Auto Makers To Be Taxed.  
Washington, D. C.—The proposed tax on horsepower of automobiles would be imposed on manufacturers and not on owners, according to a statement issued by Secretary McAdoo. "No yearly taxation of automobiles similar to the license of states and municipalities is contemplated," said the statement, "nor has it at any time been suggested that a Federal tax be imposed on automobiles in use by private owners."

## TWELVE DIE FROM DRINKING WOOD ALCOHOL IN "DRY" WASHINGTON

Seattle, Wash.—Charged with selling a quantity of wood alcohol, which has resulted in the death of several men since January 1, T. Takana, a Japanese, 25 years old, manager of a drugstore at 502 Sixth avenue South, was arrested here. Detectives Yorls and Waechter say they saw the sale by Takana of two pint bottles of the poison. A specific charge of manslaughter will be preferred against the drugist by the prosecuting attorney's office.

The pharmacy operated by Takana, according to detectives, has been made the base of supply since the dry law went into effect, January 1, for a number of bootleggers, some of whom, it is alleged, operated under the direction of the Japanese. Five men, who assert they bought bottles of wood alcohol from Takana, are held in the city jail as witnesses.

Three more victims, John Burns, an unidentified man, and John Alton, died Monday, the latter at midnight, of wood alcohol poisoning.

This makes a total of 12 who have died of alcoholism from wood alcohol or cheap whisky substitutes since the dry law went into effect.

Denver Men Made Idle by Prohibition Ask Governor's Aid  
Denver—A mass meeting at the auditorium on the State capitol grounds was held here late Tuesday by several hundred persons thrown out of employment by prohibition.

Resolutions were presented to Governor Carlson by a committee headed by William Koch, secretary of the Brewery Workers' association, asking that an extra session of the legislature be called to devise means of furnishing employment for those deprived of their jobs.

The demonstration ended with a parade through the downtown streets with banners reading: "Wet or dry, we must have work or we'll know why."

U. S. Warships Talk by Radio 2500 Miles Across Land  
Washington, D. C.—Flagships of the Atlantic and Pacific fleets were in radio communication Tuesday across about 2500 miles of intervening land.

The battleship Wyoming, near Cape Henry, reported to the Navy department that messages exchanged with the San Diego, at Guaymas, Mexico, were strong and easily read.

Unusual static conditions probably made possible this conversation, the feat of communication between the two fleets over such an extent of land never before having been accomplished. Improved apparatus recently installed on the big ships of the navy also aided to the success of the test.

Grazing Bill Is Favored.  
Washington, D. C.—The house public lands committee has favorably reported the 640-acre stockraising homestead bill. On motion of Representative Sinnott an amendment was adopted authorizing the secretary before designating areas for entry in 640-acre tracts to reserve stock driveways a quarter of a mile wide across these areas in order that livestock may be driven to and from the summer range in forest reserves. The bill also was amended to permit the reservation of water holes and watering places.

Parry Boom Is Launched.  
Washington, D. C.—A vice presidential boom for Will H. Parry, of Seattle, member of the Federal Trade commission, is being quietly launched by his friends in Washington.

Those who stand sponsor for this movement contend that the Far West cannot hope to name the head of the ticket, but can reasonably ask for second place, and Mr. Parry is being put forward as a man who would command support from both wings of the Republican party.

Auto Makers To Be Taxed.  
Washington, D. C.—The proposed tax on horsepower of automobiles would be imposed on manufacturers and not on owners, according to a statement issued by Secretary McAdoo. "No yearly taxation of automobiles similar to the license of states and municipalities is contemplated," said the statement, "nor has it at any time been suggested that a Federal tax be imposed on automobiles in use by private owners."

## A Lawful Revenge.

"I'm laying for that motorist that almost knocked me down, and when I catch him, I'm going to give him such a pair of black eyes he can hardly see out of them."

"Aren't you afraid of being arrested for assaulting him?"  
"How can I be? Haven't the law said motorists must have their lamps dimmed?"—Baltimore American.

Acts as a Shield.

Incredibles.  
"Nero fiddled while Rome burned."  
"I don't believe it," replied the man who likes to disagree. "No violinist with Nero's political pull would have permitted a pyrotechnic display to go on as a rival performance."—Washington Star.

Useless Question.  
"Would your wife vote for you as a candidate for office?"  
"I don't think there's any use of my bothering my head about that," replied Mr. Meekton. "I don't believe Henrietta would let me run in the first place."—Washington Star.

State of Preparedness.  
"Do you approve of preparedness?"  
"Yes," replied Senator Sorghum. "I haven't got the encouragement I'd like for preparedness for war. But nobody can ever say that I wasn't prepared for an argument."—Washington Star.

Comfortable Solitude.  
"Aren't you afraid to be alone in the woods?" asked the sympathetic man.  
"No, sir," replied the old guide; "when I'm alone in the woods nobody is liable to pick me for a deer. It's the only time I feel safe."—Washington Star.

Various Substitutes.  
"Do you think money is essential to happiness?"  
"Not absolutely. I know several women who are perfectly happy accumulating soap wrappers and tobacco coupons."—Louisville Courier-Journal.

Mer Jewels.  
Mrs. Subbuthy—I wonder where little Willie and David are? Did you see anything of my jewels as you came along, Mr. Nezdore?  
Nezdore—Yes, I did, ma'am. Your jewels are in soak. I saw them swimming in the river.—Boston Transcript.

Wifehood Her Aim.  
First Girl Student—Are you going to try for an M. A. next?  
Second Girl Student—No; I'm going to try for an M. R.—Boston Transcript.

TRY THIS EASY WAY TO CLEAR YOUR SKIN WITH RESINOL SOAP  
Bathe your face for several minutes working the creamy lather into the skin gently with the fingertips. Then wash off with more Resinol Soap and warm water, finishing with a dash of clear cold water to close the pores. Do this once or twice a day, and you will be astonished how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear, fresh and velvety. In severe cases a little Resinol Ointment should also be used. Resinol Soap is sold by all druggists.

Unlimited Quantities.  
"Did Mother Eve really dress in leaves?"  
"So we are told, my child."  
"What a lot of old clothes she must have had to give away in the fall!"—Louisville Courier-Journal.

Their Utility.  
"If everything has a use, what are idiots good for?"  
"Well, if it wasn't for idiots, there wouldn't be anybody to look for gas leaks with a lighted candle or to rock boats."—Baltimore American.

Of Course, There Were.  
"Pop, in the days when people used to fall down and worship the sun—"  
"Well, my boy."  
"Were there a lot of heat prostrations?"—Baltimore American.

That's Different.  
"It doesn't pay to argue with your wife."  
"I never get a chance to, but she sometimes argues with me."

Slung in a Hat Store.  
"What can we do for you, sir?"  
"I want to buy a silk hat."  
"Yes, sir, show this gentleman some pericopes."—Kansas City Journal.

Money Saved.  
"Ever make any money in the stock market?"  
"No, but I've saved a lot by not playing it."

Carefully Prepared.  
"Does your husband make a report to you of how he employs his time?"  
"Yes. But he censors it."—Washington Star.

## CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germ which thrives when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists.

The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it particularly strengthens the lungs and throat, while it strengthens the relative forces of the body to avoid colds and prevent consumption.

If you work indoors, eat easily, feel languid or nervous, Scott's Emulsion is most strengthening food—cod liver oil and pure cod liver oil, which is usually found in cod liver oil, is usually found in cod liver oil, which is usually found in cod liver oil.
