A fine chicken dinner was served at the LaMar school February 22 in honor of Washington's Birthday.

Umatilla county ground is wet way down deep, and bumper crops are promised for 1916. Speaking of the moisture, Billy Ferguson of Athena tells the East Oregonian that when the ground was first pulled a wagon across his barnyard and left it standing in one corner. Last week one of his hired hands tried to move the wagon. A span of mules was used and mired down. The more the mules struggled the deeper they sank, until one of them had but little more than its head above ground. They were imprisoned three hours before another team could drag them out of the mud.

The double header basket ball game scheduled for tonight between Walla Walla High and Weston High has been called off. Walla Walla having telephoned that they couldn't come. Last Friday evening the Weston boys easily defeated Pendleton High, by the score of 51 to 12. All the home team scoring was done by the forwards. Kirkpatrick shot fourteen field goals. Wood negotiated ten field goals and converted three fouls. Duncan played at center as usual, and Lundell and MacKenzie were the guards.

Jerry Stone, 61 years old, died last week at his home near Adams. He crossed the plains in 1854 and was a prominent Umatilla county pioneer and Indian war veteran. For many years he was active in the cause of prohibition, which he lived to see triumphant. Mr. Stone served one term as a member of the Oregon legislature from this county, and was at one time a member of the Eastern Oregon Normal. He is survived by his widow, one daughter and three sons.

Meadowbrook farm, a mile and a half below Weston, was the haven this winter for a large number of game birds which have had a pleasant and profitable winter season, despite the heavy snows. Farmer Joe Hodgson put out feed in several different places for the quail and pheasant that made his ranch their winter quarters. He is fond of seeing the game birds about, and hopes that Pine creek valley will eventually be well stocked with them.

A party of Weston music lovers went to Pendleton Monday evening in two automobiles to witness the beautiful presentation of "Robin Hood" by the DeKoven Opera company. They were Mr. and Mrs. G. R. Robinson and daughter Arrouine, Mr. and Mrs. R. C. Saling, Miss Emma Johnson, Miss Lucile Cogwell, Miss Maud Ager, Mr. Clark Wood. All say that they were well repaid for the trip by a delightful evening of music.

Weekly Bulldozer: We hear that Bruce Dennis, editor of the La Grande Observer, proposed at the Lincoln banquet in Portland that the old guard which has been running the republican party for so long step down and out and make way for younger blood. Well, his name was Dennis before he made that speech and, afterwards, we think it was doubly so.

Among the spring's activities of Jake Narhaus, the young mountain stockman, will be the rebuilding of a section of his barn, twenty feet wide and eighty feet long, which went down during the big snow. J. P. Lauenlein, another Weston stockman, will have to renew his cattle shed.

Weston Odd Fellows report a royal good time at the district convention in Pilot Hook, where 240 members of the three links were assembled when the degree work began. In competition with Pendleton, Freewater won its third successive prize. H. Alexander of Pendleton was elected president, M. L. Watts of Athena vice president, and Geo. H. Henderson of Freewater was re-elected secretary. The Weston Odd Fellows were headed by their five delegates, E. L. Blomgren, S. A. Barnes, W. H. Gould, Alice Johnson and Joe Hodgson. Others were W. A. Barnes, R. W. Brown, John McFar, Frank Greer, Carl McConnell, E. K. Kirkpatrick, John English, W. L. Smeek, J. A. King, R. H. King, J. M. Ashworth, H. L. Hedrick, Charles Van Hoy, E. S. Harris, Clem Duncan, G. H. Hans.

Not enough fans assembled at any one time for the baseball meeting last Monday evening to permit of successful organization, and the matter was deferred until tomorrow evening. The fans will then meet at the Kirkpatrick confectionery at seven o'clock to elect a manager and put a team in the field for the 1916 season. As the grandstand was rebuilt last year and the grounds put in readiness and the team is fully equipped, no financial obstacles stand in the way, and an unusually large quantity of good baseball material is available for the team. One or two good stabbers only are needed to round out a promising organization, and it is expected that some young local candidates will do their twirling arms and fill this gap.

F. G. Lucas, the Weston realty operator, has returned from a trip to Spokane and Alberta. He closed a deal by which five sections, including the townsite of Denhart, 120 miles east of Calgary, and an additional 40,000 acres under lease, became the property of a \$200,000 Washington corporation to be known as the Beale-Kelly Land and Live Stock company. F. J. Bate of Walla Walla and H. Kell of Portland capitalist, are the largest owners. The land was taken over from Gus Denhart of Seattle and Julius Sline of Walla Walla at a consideration of \$30,000 in cash and \$75,000 in eastern Montana holdings.

**WESTON BAND HAS THIRTY MEMBERS**

Organization Starts Out Under the Most Favorable Auspices. Lundell is Director.

Weston is to have a new musical organization to be known as the Weston Cornet Band, and it begins with a personnel and prospects that augur well for its success. At a recent meeting held in the local library rooms the following officers were elected:

Charles Pinkerton, president; Claud Price, vice president; Roy Read, secretary; E. L. Blomgren, treasurer; A. W. Lundell, director.

The band already has about thirty signed members, with a few more in sight, and the list of names includes some very promising material. Following is the instrumentation by sections:

Cornets—Leon Lundell, Earl Rust, Worth Watts, Herman Stages, Fred Greer, Harvey Lundell.

Clarinets—Frank Graham, Marvin Keen, A. James.

Saxophones—Claud Price, Earl MacKenzie, Roy Read, E. L. Blomgren, Frank Price and prospects.

Alto—Marvin Adkins, Andy T. Barnett, Earl Lauenlein, Leonard Blomgren, Scott Banister.

Tenors—Allison Wood, Robert Hodgson.

Trumpets—Virgil Lundell, Ray O'Hara, Lee Craig.

Harpist—Dr. Alfred F. Sempert.

B-flat bass—Charles Pinkerton.

E-flat bass—H. L. Hedrick, Joe Wood.

Drums—Frank Smith, Carl Brandt.

Funds are being subscribed by local citizens and business men to purchase the basses and drums, which will belong to the organization. The other instruments will be bought by the members personally. It is expected that these will soon be at hand and that regular rehearsals will begin early in the month.

All beginners among the members will take private lessons. The saxophone section will go to Walla Walla on regular trips weekly for this purpose. Charles Keen will teach the clarinets. Professor Lundell will teach all the brass instruments and direct the band in rehearsals.

The members are all enthusiastic and willing to devote their time and energy to the end that Weston may eventually have one of the best amateur bands in the state. Professor Lundell says that among the several bands which he has organized and directed he has had none where such an encouraging spirit was displayed by the membership.

**Weston Mountain Entertainment.**

The people of Weston Mountain were privileged to enjoy a very pleasant concert and oyster supper given Saturday evening at the school house by the Ladies Entertainers Club. The "feed" was all that could be desired from a gastronomic standpoint and the program was diverting throughout. Songs, duets and trios were contributed by W. L. Rayborn, Tom McCarthy, Charles May, Oscar Olson and Ralph Lundell. Mrs. Mary Lundell gave a guitar solo, and there were interesting "stunts" by John English. A most original and amusing number was the "human calliope," which brought down the house with its inartistic and unmelodious renditions of such old favorites as "Yankee Doodle" and "Home, Sweet Home." In this production seven different individuals transformed themselves into seven distinct steam whistles for the calliope, and responded when their turn came to the thumpings of the gifted organist. Professor English, while the semblance of a tune could be readily traced, the "tout ensemble" was rather more of a humorous than a musical success. The effort of each human whistle to produce a certain note each time in the face of unbounded laughter and applause is said to have been exceedingly ludicrous.

**HOW ABOUT YOUR SPRING SEWING?**

Your sewing becomes a pleasure if you have an improved White Rotary Sewing Machine. It's so durable and simple that it is virtually never out of order, yet parts may be had at any time without trouble if required. It is so perfectly fitted, adjusted and balanced that it is wonderfully easy-running, quiet and free from that nerve racking vibration. Anyone can sew, tuck, hem, gather, shirr and darn on this wonderful machine. It runs one fourth faster than any vibrating machine. We are anxious to have you come and see for yourself—make us show you these things are true.

Our prices represent the biggest values to be had anywhere. You can't get as much value in any other make, though many ask more. If you pay less you sacrifice at least \$2.00 for every dollar of the difference in price. We would be foolish to make such claims if we could not prove them. Give us the chance—that costs you nothing.
