**BLACK LEG**

LASSES SUKELY PREVENTED by Cutler's Black Leg Lotion. It is a powerful, soothing, restorative. It makes new blood, kills the bacteria, and restores the vitality of the system. It is a sure cure for Black Leg, and is the only remedy that will prevent its return. It is the only remedy that will prevent its return. It is the only remedy that will prevent its return.

**The Bypyle Minstrel.**

"Mister Interlocutor, can you tell me why a room full of married people is like an empty room?"

"No, Mr. Bones, I cannot. Will you tell us why?"

"Because there is not a single person in it."

"Good, Mr. Bones. And what have you to say this evening, Mr. Tambor?"

"Can you tell me how many eggs a man can eat on an empty stomach?"

"No, Mr. Tambor, I cannot. Will you tell us how many?"

"One. Because after that his stomach wouldn't be empty."

"After the smoke has cleared away and the blood has been mopped up from the stage, Mr. Letts Lynchman will render that pathetic ballad, 'Ten Million Squirrels Have Starved to Death Since Henry Ford's Ship Steamed Away.'"

**Shake into Your Shoes**

Allen's Foot-Ease, a powder for the feet. It cures painful swollen, itching, tender feet. It makes new shoes easy to wear. It is a sure cure for all foot troubles. It is the only remedy that will prevent their return. It is the only remedy that will prevent their return.

**Costs Two Cents to Feed Governor of Washington.**

University of Washington, Seattle.—Governor Ernest Lister was a guest recently at the practice cottage of the home economics department, and the trio of young women living in the cottage entertained him with tea. When the students figured up the expense of their hospitality (as they are required to figure all expenses) they found they had served the state's chief executive with tea, candied orange peel and wafers at a cost of two cents.

**Not Snobbish.**

"Old Van Geld, the railroad king, is quite a democratic sort of a chap, isn't he?"

"Yes, indeed. When he travels he never thinks of using a special train. He just has his private car hitched on to a regular train and travels quite like one of the common people."

**Have Healthy, Strong, Beautiful Eyes**

Occulins and Eye-Clearing Eye Remedy many years before it was offered as a Domestic Eye Medicine. Occulins is still composed by Dr. J. C. Williams, who has been a specialist in eye troubles for more than 40 years. Occulins is still the same. Try it in your eyes and in baby's eyes. No Smarting—Just Eye Comfort. Buy Occulins of your Druggist—Accept no Substitutes, and if interested write for Book of the Eye. Occulins Eye Remedy Co., Chicago.

**Patriots Change Their Minds.**

Patriots can change their minds, too. Senator William Alden Smith, one of the bravest of the belligerents on the floor of the upper house, wired a young friend who was going to Europe that he ought to sail on a neutral ship.

**Do Him Good.**

"I've got to sit up with a sick friend tonight," he said.

"Well," she retorted, "I hope you do him good," and from the way she said it he knew that he hadn't got by.

**EUROPE ASKS BIDS ON TRENCH STAKES**

**Allies Want 8,000,000 Feet From Portland Mills.**

**SEEK SPRUCE TO BUILD AEROPLANES**

Railroads Buy Material for Thousand Freight Cars—Order Must Be Filled in Three Months.

Portland—Lumber mills have been asked to bid on an order for 8,000,000 feet of trench posts and pickets for use by the allied powers in the war zone.

The posts are to be 2x4 inches and four feet long, sharpened at one end, and will be used for stringing barbed wire along the trenches. They are to be used on the fighting front in France, and delivery will have to be made from Portland within 90 days. This will insure them reaching Europe, barring marine accidents, by September. The order may be for all or part of the 8,000,000 feet.

A large domestic order for lumber for railroad cars has been placed with the Douglas Fir Lumber company, of Portland. The order calls for 2,000,000 feet of fir.

The European governments are also in the Portland market, for as much high-grade spruce as can be obtained. It was learned on good authority here. This spruce brings \$30 to \$100 a thousand, and is for building aeroplanes.

The allies' agents for trench posts have been authorized to ask for bids in Portland and British Columbia. It is presumed by local lumbermen, ship owners and agents in Portland that about 4,000,000 feet will be taken from Portland. The posts would be cut from Douglas fir and tied in bundles of 19 to 20. The cost would be around \$15 to \$16 a thousand feet, bringing to Portland, if the order is placed here, between \$50,000 and \$75,000 for the 4,000,000 feet.

The local river mills could turn out the order within less time than the specifications now in Portland hands require. The lumber posts could be handled easily by two of the large steamers, and the canal route could be taken.

The domestic order which has been placed with the Douglas Fir Lumber company of Portland calls for 2,000,000 feet of Douglas fir to be used in the construction of 1000 automobile cars and 500 stock cars for the Chicago & Northwestern railroad. The order was placed by the Western Steel Car & Foundry company, of Chicago. It will take 80 cars to carry it East.

E. B. Hazen, vice president of the Douglas Fir Lumber company, said that the order has been put in the hands of local and Bridal Veil mills and would be finished in about a week. The European powers, it was established beyond reasonable doubt, are actually seeking large spruce orders in the Pacific Northwest, principally Oregon. Local lumbermen admit that they were unable to fill the orders as fast as they were being received. The spruce required is of a fine grade and brings from \$30 to \$100 a thousand feet. In the last two years about 10,000,000 feet has been taken out of the Northwest for the construction of aeroplanes for the European powers.

**GENERAL FURSTON ASKS WAR DEPARTMENT FOR "ADEQUATE FORCE"**

San Antonio, Tex.—General Frederick Furston asked the War Department Tuesday for more troops to send into Mexico, after long consideration of the advisability of continuing the operations against Francisco Villa with his forces now commanded by General Pershing. General Furston suggested that another regiment be sent to him, and General Furston asked the department for what he characterized as an "adequate force."

It was announced at General Furston's headquarters that the Fifth Cavalry, of which one squadron is at Fort Myer, Va.; another at Fort Leavenworth, Kan.; and the third at Fort Sheridan, Ill., would be brought to the border at once, and sent forward along General Pershing's line of communication to Casas Grandes.

The only reason given for strengthening General Pershing's forces, known by the public generally to be considerably more than 4000, was that this is Captain Ross' first inspection at O. A. C. Heretofore, during the last two years, inspection has been performed by William T. Moery, also of the General Staff. Captain Ross will have charge of the inspection of the military departments of twenty-two colleges, universities and other schools. He will come here from inspection of the San Diego Army and Navy Academy, and after finishing the work at Corvallis will go to Seattle, Washington, to inspect the cadets of that university.

**University Offers Tested Trees.**

During the coming spring the Department of Forestry will again send to Idaho citizens a limited number of tested shade and forest trees approximately at the cost of growing same.

A bulletin giving the size, age and cost of each species, as well as the number which may be sent each person, will be mailed on request to C. H. Shattuck, Moscow, Idaho.

**Fortunes of War.**

First Recruit—What do you think of the major, Bill?

Second Recruit—"E's a changeable kind of bloke. Last night I say to him, 'Do you know any more?' He says, 'Friend,' and today he hardly knows me."—Punch.

**Protocol is Accepted.**

Washington, D. C.—President Wilson and his cabinet Tuesday decided to accept a proposal for a protocol between the United States and the de facto government of Mexico for cooperation in the pursuit of General Villa and his bandits.

**Senate Passes \$11,000,000 Armor Plate Factory Bill**

Washington, D. C.—The Tillman bill to provide for the erection of an armor-plate factory by the government at a cost not to exceed \$11,000,000 was passed by the senate late Tuesday by a vote of 88 to 23.

**Blame Denied by Berlin.**

Berlin—No German submarine could have been in the vicinity of the spot where the Dutch liner Tubantia was sunk, and no German mines had been laid in this region, the German admiralty announces. The official statement says: "A German submarine is out of the question in connection with the sinking of the Tubantia, as the place where the accident took place is less than 30 miles from the Dutch coast, which means that this place is within the territory declared to be not dangerous for shipping by the manifesto of February 4, 1915."

**Inspection Day at O. A. C.**

Corvallis, Ore.—Military inspection day, one of the really big days of the college calendar, has been set for May 14, 1915. Review of the cadets, training and inspection of equipment and military efficiency will be in charge of Captain Ross of the General Staff of the U. S. Army.

Military exercises will occupy the entire day. In the forenoon will be held a regimental review and general inspection. In the afternoon there will be individual and competitive drills held for the benefit of privates and officers. Upon the character of the work done in these exercises will depend the classification of the college cadets for this year.

Because the college cadets represent almost every portion of the state of Oregon a great many visitors are usually present on this day to witness the exercises. Leading state officers, including the governor of the state and distinguished military leaders of the state and national divisions of the army are usually in attendance. Groups of Portland visitors are delegations of other nearby places and expected to attend.

**Are Forced to Economize.**

Methods of industrial efficiency such as are habitually ascribed to German establishments actually prevail in the automobile industry of the United States to a greater extent than is ordinarily understood. Particularly in the handling of waste materials is extraordinary attention paid to details that are seemingly insignificant.

**WANTED**

EVERYONE TO HEAR ABOUT DAD'S EYE WATER. A real, great big light, safe, handy and cheaper than any other eye water. Contains the best of eye medicine. English and French. 169 24 St. Portland, Ore.

**STUDY MUSIC EASIEST WAY**

FOR SCIENTIFIC HOME STUDY METHOD. Brings quick results. Success guaranteed. Costs less than half of other instruction. Piano, Organ, Violin, Banjo, Mandolin, Guitar and Cornet taught.

**Hospitable.**

The Vicar—Hello! What's all this! Tommy—The funeral of the mole, father.

The Vicar—But I thought you buried Mr. And last night my friend, Tommy—Yes, but we dug him up, 'cos we've got friends to tea.—Punch.

**Confused.**

"Do you admire Raphael?" said the young woman.

"I should say so. He's better than Sherlock Holmes."

"I said Raphael."

"Excuse me, I thought you said 'Raffles.'"—Washington Star.

**School Candy.**

Bobby—Won't you give me some cough drops, auntie?

Auntie—Why you haven't a cough, child.

Bobby—No, but I'm going to school, and that's the only kind of candy we can eat there.—Boston Transcript.

**How you can get rid of eczema with Resinol**

Resinol Ointment, with Resinol Soap, usually stops itching instantly. It quickly and easily heals the most distressing cases of eczema, rash or similar tormenting skin or scalp eruptions, not due to serious internal disorders. Sold by all druggists.

**The Old and Reliable Dr. Isaac Thompson's EYE WATER**

In both a remedy for weak, inflamed eyes and for blind eyes. Keep your eyes well or they will help keep you.

**Wool Season Opens.**

The new wool season is getting under way in the Yakima country, where shearing has started. The few sales already made, which range in price up to 27 cents, are in line with quotations elsewhere for this class of wool.

**Both Unnecessary.**

Former Speaker Cannon tells the story of his early impecunious days: "One of my friends was a struggling physician. Neither fame nor fortune had come to either of us, but we were always hopeful. The years had weighed heavily upon my friend, however, for he soon lost his hair, being quite bald.

**Guard Your Family**

Peruna protects the family against coughs, colds, catarrh, bronchitis, catarrh of the stomach, liver and kidneys. It is just as sure to relieve a case of catarrh of the bowels as it is a case of catarrh of the head.

**Apple Storage Stocks Declining.**

Portland—The office of markets has issued its report of apple holdings on March 1, showing that on that date there were 2529,238 barrels in 411 storage houses in the country. The same storages reported 1,777,214 boxes of apples on the first of this month. On February 1, 407 storages reported 3,457,999 barrels and 2,651,908 boxes, or a reduction of 928,761 barrels and 883,994 boxes during the past month. The holdings of barrel and box stock are about 750,000 barrels more than this time a year ago. Present holdings of actual barrels are more than last year, while the stock of boxes is some less.

**Grain Bags May Be Cotton.**

Pendleton, Or.—If a satisfactory quality can be furnished and the price is agreeable, it is probable that many of the Umatilla farmers will use cotton sacks this year instead of the jute bags which have been exclusively used. The situation was discussed thoroughly at a recent meeting of the Inland Grain Growers' association. The farmers' grain agency had about decided to construct elevators to take care of the crop, but many are loathe to go into the proposition because of the expense.

**15,000 Sheep Contracted for.**

Baker, Ore.—Not only is wool being contracted well in advance of the clip this year, but wool-bearers are also being spoken for in large quantities, as was evidenced here when George Dansey, of this city, reported having contracted for 15,000 head, June delivery. Of the total 5000 are wethers from the A. H. Hampton flock, 3000 are lambs owned by M. P. Cudiff and 7000 are lambs from various flocks in the John Day country. Mr. Dansey was reticent as to the price paid, but intimated the lambs brought \$4.50 to \$5

**Keep Up Your General Health**

Watch your health this Spring and be on guard against an attack of Spring Fever, Biliousness or a general run-down condition.

**HOSTETTER'S Stomach Bitters**

is a splendid medicine for the Spring months. Try it.

**State's Coal Resources Reported to Government.**

University of Washington, Seattle.—The United States Geological Survey will shortly publish a comprehensive bulletin on Washington's coal resources, bringing together in one report what has heretofore been printed in fragments. The bulletin is being prepared by Dean Henry Landes, of the college of science, during his year's leave of absence.

**Some Job.**

The man in the next flat was pounding on the wall.

"Look here," he yelled. "I can't sleep with that kid yelling like that. If you don't make him stop I will."

"Come right in," said the baby's father. "You'll be as welcome as the lovers in spring."

**Retort Courteous.**

"I suppose there's nothing doing for a live wire like me in this stupid town of yours?"

"Well, I don't know. There are several live wires like you doing time here."—Baltimore American.

**HELP**

A \$50,000 Corporation desires to secure within ten days the services of High Grade Representative in each town. No canvassing, soliciting or selling; reference unnecessary. Guaranteed income to right party. Dept. 3, 625 Pittcock Block, Portland, Oregon.
