Farm Machinery Driven by Motor Car

To enable a motor car to be used for driving various kinds of machinery, a convenient, although wasteful, power-transmission jack has been devised by a Minnesota man. Two parallel shafts carrying dish-shaped rollers at either end are mounted on a heavy timber frame which supports them several inches above the ground. This forms a cradle for the rear wheels of a machine, permitting it to run smoothly and without any strain on its working parts. A pulley held at an end of one of the shafts receives a belt that is extended to whatever machine is to be operated, as, for instance, a circular saw. A car is run along the rollers by backing it over planks forming a track laid parallel with them.—From the July Popular Mechanics Magazine.

SUCCESS FOLLOWS BIG DRIVE BY ALLIES

British Capture Fricourt from Germans After Desperate Battle.

FRENCH ADD MORE PRISONERS

Toutons Retreat Before French Drive Near Hardecourt—Lose Many Trenches Also to British.

London—Fricourt, three miles east of Albert, the scene of desperate fighting between the British and Germans since the entente allied offensive was begun Saturday morning, has been captured by the British, according to an official statement issued Sunday night.

The statement says: "Substantial progress has been made in the vicinity of Fricourt, which was captured by us at 2 p. m. "Up to noon some 800 more prisoners had been taken in the operations between the Ancre and the Somme, bringing the total up to 3500, including those captured on other parts of the front Saturday night."

The official statement by the French war office at Paris says that south of the Somme the French have forced their way into the second line of the German entrenchments at several places and have captured the village of Fries and the Mercourt wood. The number of unrounded prisoners taken in the two days' battle now is said to be more than 6000.

Sunday night's statement by the French war office said that in the fighting south of Arras Saturday the French took a total of 5000 prisoners. In the course of the night French troops captured the village of Curly, about seven miles southwest of Albert. A heavy German counter-attack on the village of Hardecourt, north of Curly, was repulsed, the statement added. After repeated assaults the Germans were obliged to retreat in disorder.

London July 2.—The British troops in their great drive in France have captured a German labyrinth of trenches on a front of seven miles to a depth of 1000 yards and the villages of Montanman and Mammetz.

North of the Ancre valley, according to the official statement, the British have not been able to hold sections of the ground gained in their first attacks. Two thousand German prisoners have been taken.

Hughes Plans Trip to Pacific Coast Cities First of August

Bridgehampton, N. Y.—Unless he changes his plans, Charles E. Hughes, in all probability will inaugurate his campaign for the Presidency in the second week in August, starting on a tour which will take him to the Pacific Coast. The present purely tentative arrangements provide for addresses in about 10 leading cities, probably St. Paul, Portland, Or.; Seattle, Wash.; San Francisco, Los Angeles, Salt Lake City, Kansas City, St. Louis and Chicago among others.

Mr. Hughes intends this swing around the circle as merely preliminary to one or two whirlwind tours. He hopes to avoid rear-platform speaking on the first long trip.

Mother and Baby Washed Away By 15-Foot Wall of Water

Pendleton, Ore.—Mrs. M. C. McCabe, a rancher's wife, and her infant boy were drowned Saturday night about 5 o'clock when a cloudburst broke over upper Butter Creek canyon, 48 miles southwest of Pendleton, and a wall of water swept down upon their home. Mrs. McCabe's body was found five miles further down McDonald canyon Sunday morning by a searching party. The baby's body was found in an immediate cruce of the recent outbreak. We are of the opinion that on the outbreak of the war all drilling and maneuvering of armed forces known to be under control of men who openly were declaring their hostility to your majesty's government.

"There developed widespread belief that no repressive measures would be undertaken by the government against sedition.

"This led to a rapid increase of preparation for insurrection and was the immediate cause of the recent outbreak. We are of the opinion that on the outbreak of the war all drilling and maneuvering of unrecognized bodies of men, whether armed or unarmed, should have been strictly prohibited."

Seven Killed in Explosion

Emporium, Pa.—Six men were instantly killed, one died aboard a train to a hospital and five others were seriously burned about the body here Sunday afternoon when several thousand pounds of powder exploded in the dry house at the Aetna Explosives company's plant. The dry house was demolished and the ruins ignited, throwing flaming debris about. Fifteen men were working in the building when the explosion took place. Three standing near a door were blown from the building, but with minor injuries.

Pause for Peace is Urged

Stockholm.—The neutral conference for continuous mediation has decided to request all neutral nations in the world to hold peace demonstrations on August 1, the anniversary of the beginning of the war, to express sympathy with the suffering peoples of the belligerent nations and to plead with them not to carry the war through another winter. The conference suggests public meetings, street parades, pageants, and church services, but particularly urges a five-minute pause throughout the neutral world.

Italians in New Attack

Rome, via London.—Continuing their offensive in the Trentino, the Italians have begun an attack on the Austrian fortified positions between Eugna Tova and Foppiano, says the Italian official statement issued Sunday. The Austrians were driven from sections of trenches north of Pedesola, the dispatch adds, and some more trenches were carried between Sola and Monfalco. In the latter battle 195 Austrians were taken prisoners.

Russians Continue to Win

Petrograd.—Russian troops continue to drive back the Austro-Hungarian army in the region south of the Dnieper river, in Galicia, says the Russian official statement issued Sunday. Many places south of Kolomea have been occupied by forces of Emperor Nicholas. It is announced that on June 23 and 29 General Letichitzky took prisoner or 305 officers and 14,574 men, making a total of 217,000 Austro-Hungarians captured since June 4.

THE WAR CHILDREN OF PARIS

How beautiful they are, the war children! How well cared for, how thriving, and how showered with love! Their prolonged sestas in the Bois or in the gardens have freshened the bloom of their cheeks. Their immaculate pink-and-whiteness shows the purity of the girl mother's loving care of the now sovereign baby who for two years has had no rival. The mother's entire time is devoted to His Majesty, the baby, nor is he ever forgotten except occasionally when her thoughts wander to the absent one, she traces in the baby's dimpled face the sometimes fugitive, sometimes striking resemblance to his soldier-father. Sacred moments these when in the twilight the curly head and downy cheeks resolve themselves into the pale or sunburnt features of one "some-time" in France.—Cartoons Magazine.

Higher Prices for Beans Are Named in California Advertisements

Portland—There was some talk of an 11-cent bean market Wednesday, but jobbers were adverse to putting out such an extreme quotation, notwithstanding the further advance in the South. In fact, Portland jobbing prices are below a parity with California. It is believed there are enough beans here to meet the restricted requirements during the remainder of the old-crop year, but if the supply is exhausted it cannot be replenished at existing prices. While the main factor in the strength of the market is the government demand, there is little doubt that speculation has played an important part in bulging prices in the South. The available supply of white beans in California is limited, and appears to have passed into strong speculative hands.

Gypsies Use Automobiles.

"Even gypsies are abandoning horses for motors," says the July Popular Mechanics Magazine. "A band of about 40 of these nomads recently visited Columbus, Ohio, traveling in three covered automobiles which had been purchased a short time before. Each motor was fitted up in true gypsy fashion, and portions of the tops were painted in the bright colors characteristic of the familiar gypsy wagons. In all, three families inhabited the three cars. The sage of the group was a woman 75 years old, the youngest of the children was three months old."

Getting it All

The doctor told him he needed carbohydrates, proteins and above all, vitamins. He had a list of foods for him to eat. He staggered out and wobbled into a Penn avenue restaurant.

"How about beefsteak?" he asked the waiter. "That's nitrogenous!"

"Are fried potatoes rich in carbohydrates or not?"

"The water couldn't say."
 "Well, I'll fix it," declared the poor man in despair. "Bring me a large plate of hash."—Pittsburg Post.

The Usual Way

Out of a letter that came to us the other day we grab this little above all. You can tell a man your troubles, you can weep and moan and wail, you can tell him you're bankrupt, that you'll maybe go to jail, you can tell your impost secret, you can tell your life's one blot—And he'll say: "I want to help you, but what assets have you got?" —Detroit Free Press.

Nervy

"That fellow's got his nerve with him!"

"What's the matter now?"

"He actually asked me to lend him a couple of gallons of gasoline until next Saturday."—Detroit Free Press.

The Smile of Serenity

"That man is surely an optimist."
 "How do you know?"

"He smiles continually."
 "Maybe he's an optimist and maybe he's a diplomat."—Washington Star.

CLARKE COUNTY HOPS DO WELL

Ridgefield, Wash.—The hop crop in the Western part of this county, including Sara, East of here, is said to be in good condition, and although the growth has been retarded by the chilly weather of the past few weeks, the present warm rains and weather are causing the vines to make a fast growth. The vines are entirely free from vermin which usually visits this crop. The growers at Sara are very enthusiastic over the prospects of a good normal yield, although it is a little early to predict.

KILL ALL FILES!

They spread disease. Kill them with **DELVEY FLY KILLER**. It kills all files, flies, mosquitoes, house flies, and other insects. It is safe for all animals and humans. Write for free literature. **DELVEY FLY KILLER**, 100 South Ave., Seattle, W. T.

Her Proof

The reading class was in session and the word "furlough" occurred. Miss Jones, the teacher, asked if any little girl or boy knew the meaning of the word.

"One small hand was raised." "Furlough means a male," said the child.

"Oh, no, it doesn't," said the teacher. "Yes, ma'am," insisted the little girl. "I have the book at home that says so."

Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of an American soldier riding a mule, under which was the caption: "Going home on his furlough." —Philadelphia Ledger.

At the Top

Justice Hughes was talking about the American business man.

"It is his hard and endless work," said the justice, "which puts the American business man at the very top of the tree. He doesn't know the meaning of the word leisure."

"A little boy said to his father, a millionaire business man: 'Pa, what's a leisure?'"

"The father looked up from the envelope on which he was figuring with his gold fountain pen, and answered: 'Leisure, my son, is spare time that Providence affords us for cleaning up various jobs of unfinished work.'"—Boston Transcript.

British Shipbuilding Exceeded

For the first time in many years the shipbuilding in American yards exceeds that in British yards. For the three months ended March 31, American yards launched 173 merchant vessels of 24,464 gross tons, while the British yards launched 69 vessels of 80,561 gross tons. Merchant ships now building under contract in this country are approximately those of the British. The totals are 121 vessels of more than 1,000 gross tons in American yards, and 248 in British yards.—From the July Popular Mechanics Magazine.

A Mistake

"Pa, is your business an unrefined one?"

"Of course not, daughter. What makes you ask that?"

"Because I heard you telling Uncle about your gross receipts."—Baltimore American.

How It Happened

"Strange, one of your twins is blonde and the other is a brunette."
 "Well, we never could afford a maid. I washed one child and my husband washed the other, and that one grew up dark."—Louisville Courier-Journal.

Ruling Thought

Belle—Harry says he is for fair elections all the time.
 Nell—Yes, Harry always did like blonde effects.

Fabulous Country

"What is this Never Never Land?"
 "That's where the good cooks come from."—Louisville Courier-Journal.

GIANT FARM POWDERS

STUMPING—AGRICULTURAL

—Six feet through at base, 4 feet 6 inches through at top, five feet above ground. Giant Stumping Powder did a clean job, taking out roots and all without tearing a big hole in the ground. Farmers who have used them know that

always save them money, time and work. They save money because they lift and ease as well as shatter, and go further than high explosives that merely split the stumps. They save time and work because they get out the stumps—big or little, green or dead—in a condition easy to handle. "I get better results from Giant Powders than from any other powder I have used," says A. E. Adkins, Woodburn, Ore.

There are two Giant Farm Powders, both made especially for Pacific Coast farmers. Europa Stumping Powder is most economical for dry work and Giant Stumping Powder saves money in stump blasting in wet soil. Try these two. Compare them with the powder you have been using, and you will always use Giant in future. Write us and we will have our nearest distributor supply a trial case at the lowest market price.

SINCLAIR
 Box 244, D 108. Los Angeles, Cal.

A Loyal Witness.

"When Senator John W. Kern was a young lawyer at Kokomo, Ind., he represented one side of a case in which the whole controversy hinged on the identity and ownership of a certain calf.

"The chief witness on the side against Kern was a colored man. He contended that the calf belonged to his friend, Mr. Jones. When Kern examined him the conversation ran something like this:

"How do you know this was Mr. Jones' calf?"

"Well, sah, I had seen it around his place so much that I jes' naturally got acquainted with it. I seen it there with the cow's—my maw—and I noticed it p'tyber because it had funny marks on it. When you see a calf every day you simply become familiar with it."

"What kind of a looking calf was it?"

"It was a red calf, sah, with white ears and a white nose."

"And it belonged to Mr. Jones?"

"Yes, sah."

"Now suppose that all the testimony here should show that the calf in this case was a white calf with red ears and a red nose. What would you say about that?"

"Well, sah, I reckon I'd say it belonged to Mistah Jones."—Nebraska Legal News.
