According to the latest figures, the highest prices paid per M feet for raw material by any industry in the State of Oregon was by the manufacturers of vehicles and vehicle parts. Only small quantities and highest grades are used. This covers not only the manufacture but the repair of wagons, carriages and automobiles, and in cludes the local demand only.

The Florida National Forest is one of the self-supporting forests, due to the system which the Government has inaugurated there in the leasing of the turpentining in such a way that the perpetuity of the forest is assured.

About 5½ million pounds of artifi-cial silk made directly from wood pulp are used annually in the United States. It is manufactured into such articles as linings, tapestries, neckties, ribbons and sweaters.

A plan of cooperation between for-est officers and postoffice employes has been put into action, whereby all rural mail carriers and postmasters in or near national forests are to report the discovery of forest fires to the nearest forest officer.

Nearly fifty per cent of the palls and tubs made in the State of Wash-ington are sent to the middle west for consumption.

The men assort they refused to arbitrate because the railroads in-sisted on arbitrating their contingent proposition. The board of mediation, in a statement, declared, however, the men rejected their proposition, con-tending that they would not arbitrate even if the railroads waived the con-tingent propositions.

Russians Capture Whole Stripa Line; Austrians Retreat to Avoid Defeat

London—The whole line of the River Strips in Galicia was seized by the Russians Sunday. The army of General von Bothmer, after holding its strongly fortified position ever since last winter, was compelled by the powerful pressure of the Russians north and south to fall back hastily toward the west. The Austrians are probably entrenched behind the Zlota Lipa river, prepared to make a last stand before they retreat to positions

before Lemberg.

It was the menace to his flanks and rear, rather than any frontal movement, which caused Von Bothmer to surrender the line along the Strips, which for seven weeks had been subjected to the most violent Russian at-

Britons Want More Pay. London-The British railway union have decided to ask for an increase of 10 shillings a week in the wages of all employes. The increase is declared necessary to meet the higher cost of living. The decision has caused surprise, as under an agreement entered into last October, a small wage in-crease was granted on the condition that the railway men would make no further demands during the war. The announcement of the unions asserts that the war has extended beyond the period contemplated in the agreement.

Asheville, N. C.—The Southern railway agent at Lake Toxaway reported Sunday that the big dam there had broken and that a flood of water was racing down the valley. Messages have been sent from Asheville warning Greenville, Anderson, Seneca and other Southern Carolina points of the danger. Later the Lake Toxaway Inn at Lake Toxaway reported that the whole dam had been washed away, and that the lake was practically drained.
