

DRAPERIES

Perhaps the most notable development in home furnishings is the great increase in the use of draperies for windows, doors and openings of all sorts. Draperies appear to be getting more attention than for many years and more than any other lines of furnishings.

Our enlarged **Drapery Department** contains all the latest material—dainty Cretonnes, Chintzes and other light hangings, Elegant Tapestry, Terry Cloths and other heavier materials. Laces too—an elegant line of the famous **Quaker Craft Laces** by the yard at from 30c to \$1.35.

Drapery Patterns—Something new, also here. These enable any woman to cut and make up her own draperies correctly and artistically. Price each **25c**.

We do drapery work. Our experts will cut and make up any work desired. Estimates free. Visit our **Drapery Department**.

FORD

The Universal Car -- 320,817

Have been built and actually delivered to retail buyers since August 1, 1916.

These figures—320,817—represent the actual number of cars manufactured by us since August 1st, 1916, and delivered by our agent to retail buyers.

The unusual fall and winter demand for Ford cars makes it necessary for us to confine the distribution of cars only to those agents who have orders for immediate delivery to retail customers, rather than to permit any agent to stock cars in anticipation of later spring sales. We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing Ford cars. If, therefore, you are planning to purchase a Ford car, we advise you to place your order and take delivery now.

Immediate orders will have prompt attention. Delay in buying at this time may cause you to wait several months. Enter your order for immediate delivery with our authorized Ford agent listed below and don't be disappointed later on.

PRICES—Runabout \$399.85, Touring Car \$414.85.

William L. Robbins, the new owner of Weston's mill, intends to make of it a modern establishment—inside and out. He has bought a consignment of new flouring machinery, which was shipped February 15 from Kentucky, and has mapped out a complete program of improvement. Mr. Robbins likes Weston, is confident of its basic and permanent prosperity and considers it an especially favorable point for the milling business. He lately returned from a trip to Everett, and says that business conditions here in the interior are better than in the Sound country.

The National Mail Order Brokers doing business in the Globe building, Minneapolis, are a bogus concern, according to the postoffice department, which has issued a fraud order against them. This outfit ostensibly sold goods through some sort of an endless chain arrangement, starting with ten cents from each customer. They have taken and are still taking not a few dimes out of the Weston neighborhood, judging from the letters to them handled at the local postoffice. Most of these letters bear no return and have to be forwarded, although they are now prevented by the postal authorities from reaching the swindlers.
