### HASTINGS AND HEREFORDS

M. L. Hastings, once a Weston boy and now a successful breeder of Hereford cattle at Kamiah, Idaho, sends us three dollars to extend his subscription for what he calls "the leading paper of the Northwest"—which shows that Malon's good judgment is not confined to quadrupeds. He writes: "I have just pulled through the longest winter since 1891 and 2—which should be remembered by a good many old timers, for thousands of cattle and horses died on the Snake and Columbia ranges that winter. That was 25 years ago and I have been saving up hay ever since, so that I was well prepared this winter. I find the pure bred Herefords easier to keep in good flesh than mongrel cattle. I wintered 150 head of

pure breeds, and within the next 60 days will have added 80 head of calves to my herd. I have 25 head of one and two year old bulls for sale his spring, so if any of your cow men are looking for the best there is, let them come up."
