BRIEF WAR NEWS

Both in Palestine and Mesopotamia north of Bagdad, British forces have added to their recent successes.

German destroyers on Sunday threw 199 shells ashore in the region of Calais, killing some civilians and wounding 12 other persons.

Twenty thousand munitions workers in Berlin and Spandau went out on a general strike in protest against reduction of the bread ration, according to latest information from Germany.

On the eastern front in Russia, Galicia and Roumania, there is little fighting. In the Austro-Italian theater the bombardments have again become intense. Considerable fighting has taken place in Macedonia in the Cerna river bend and southwest of Lake Doiran, but no important changes are reported.

The failure of the Germans to resist the pressure of the French is the outstanding feature of the operations in the great offensive on the Aisne and in the Champagne. It is clear that General Nivelle's armies are in no danger of losing the initiative and that gradually but surely all the salients along the Soissons-Auberive front are being dissolved.

The fact that an entire German ambulance section, together with its doctors, was taken in one haul of prisoners demonstrated the rapidity of the action of the French troops, as these sections always operate behind the first fighting line.

CONGRESS CONSIDERS NEW ARMY MEASURE

Wilson to Wage Strong Fight to Create Big Force By Selective Draft.

Washington.—President Wilson's fight to organize a war-time army in accordance with the plans of the war department and the army general staff began in earnest Monday in both houses of congress.

In the senate the administration army bill, supported by Senator Chamberlain, chairman of the military committee, and a majority of his committee as it was, started on its way to a vote.

The house bill, as reported by a majority of the committee, provided for volunteer enlistment, with conscription only as a last resort, and the fight for this measure was led by Chairman Dent, of the military committee, whose supporters felt sure that they would make a good showing.

A strong element in the house, however, backed the selective conscription plan advocated by the army general staff and recommended by the military committee minority, led by Representative Kahn, of California, a republican.
