

MUSIC AN ESSENTIAL

Instead of being a luxury as some folks are thoughtlessly inclined to consider it, music is actually an essential of life—food, shelter and raiment only coming ahead of music.

The individual who goes through life without music stops growing—shrivels and shrinks in those things that make for the higher life. Music is the universal language, speaking for soul to soul. It is inspiring, ennobling. Leading educators and thinkers are agreed that he wrongs himself who denies himself good music, and that to deny our children good music is a positive crime.

No longer need we depend upon an occasional treat at an expensive opera for our music, for the world's best music is now placed within the reach of all by Mr. Edison's wonderful new phonograph. The **NEW EDISON** recreates the voice so perfectly that one can not be told from the other when the artist sings in comparison. This has been proven by tests before more than 300,000 people. The sharp musical critics of 200 big eastern dailies have testified to this effect, one big paper calling the **NEW EDISON** the "Phonograph with a Soul."

Call at our store any time and hear this wonderful instrument. Write for booklet if unable to call—it's free.

Athena Press: While making excavations for a basement at the Richards residence on Jefferson street, workmen unearthed a splendid specimen of an Indian spear head. The relic is of light flint rock, about six inches in length, and was found four feet under ground. No doubt, could it speak, it "could a tale unfold" of the long ago buffalo hunt or Indian battle.
