

BUY FURNITURE NOW

Furniture has not advanced in price like most lines of goods. Barring a few exceptions, the advance on raw material is much heavier than on the finished product. But stocks of raw materials are running low and advances are becoming the order of the day.

Our stocks are heavy and complete. Nearly all of our furniture was contracted for before heavy advances became effective, hence we make prices that save you money—prices that will be impossible for months and months, more likely for years, to come. All who have or will have furnishing needs should buy now. Investigation costs nothing. We are always glad to have folks do this.

Comfortable Home Furnishings cost less per year of service, than any other expenditure. They pay a larger return on amount invested, in things worth while, than any other investment you can make. Home is what you make it, but it cannot be at its best without convenient, comfortable furnishings.

Let us repeat, BUY FURNITURE NOW. If you haven't money lying in the bank, we will help with our special easy payment plan.

If unable to call, write for prices and descriptions of articles you are interested in, but come if possible, for you should see this fine big stock.

The Weston delegates who attended grand lodges of the Odd Fellows and Rebekahs at Eugene returned home Monday and report a pleasant and profitable session. In the party were S. A. John Hubbard was back here this week just for a day, after an absence of one-third of a century, and his old-time friends and schoolmates are just a bit peeved that he couldn't have spent a little more of the century in Weston. Mr. Hubbard is now at the head of a large shipbuilding concern in Seattle, where he has long been located. He was raised by Doc Perkins, a pioneer resident of the Wild Horse neighborhood, and went to school forty years ago with Postmaster Lew Van Winkle and others of our citizens. His visit was for the purpose of getting locust timber for certain phases of ship construction, quo.

LIBERTY LOAN BONDS ARE A SAFE INVESTMENT

Help win the war. Fight, economize, conserve, produce; but first of all, buy a Liberty Loan Bond.

Liberty Loan Bonds are the safest investment in the world today. They are issued by the United States government and are a mortgage on the United States of America—our country—the richest country in the world. They are Uncle Sam's promise to pay, and he is worth \$225,000,000,000.

Liberty Loan Bonds pay 3 1/2 per cent interest and they may be had in any of the following denominations: \$50, \$100, \$500, \$1000, \$5000.

\$10,000, \$50,000 and \$100,000. You can make a first payment as low as one dollar and have until August 30 to pay the balance. Most big business houses will accept Liberty Loan Bonds same as cash in payment for merchandise.

A Message from Secretary W. G. McAdoo.

"Wars cannot be conducted without money. It is the first thing to be provided. In this war it is the most immediate help—the most effective help that we can give. We must not be content with a subscription of two billion dollars—we must oversubscribe this loan as an indication that America is stirred to the depths and aroused to the summit of her greatness in the cause of freedom. Let us not endanger success by complacent optimism. Let us not satisfy ourselves with the reflection that some one else will subscribe the required amount. Let every man and woman in the land make it his or her business to subscribe to the Liberty Loan immediately, and if they cannot subscribe themselves, let them induce somebody else to subscribe. Provide the government with the funds indispensably needed for the conduct of the war and give notice to the enemies of the United States that we have billions to sacrifice in the cause of Liberty.

"Buy a Liberty Bond today; do not let it off until tomorrow. Every dollar provided quickly and expended wisely will shorten the war and save human life."

W. G. McADOO,
Secretary of the Treasury.

Having passed approval upon the Weston country and paid his Leader subscription, Jim Ritchey left this week upon his return home to Forest Grove—lighter in pocket, but with a clear conscience. Jim looked over the crops pretty thoroughly hereabouts and was good enough to say that no one need be alarmed, in his opinion. While some thirty days behind the usual schedule, the wheat fields are clean and promising, and only inopportune hot winds will spoil an abundant yield. Jim also talked finance and politics to "ye editor," but not for publication, as he did not wish to disturb the national status quo.
