

THE DAVIS-KASER CO.'S SUMMER CLEARANCE SALE IS NOW ON

You were told a year ago that rugs would advance in price—they certainly did—and we tell you again in all sincerity that we expect another advance, not only on rugs but on nearly all housefurnishings, due to the scarcity of raw material and labor.

Now's the time to buy—now's the time to fill every need—now's the time to make every dollar do double and triple duty. Take advantage of our GREAT SUMMER CLEARANCE SALE during July and August and SAVE TWO WAYS (our prices were not increased, generally speaking, after the last advance and are now reduced.) We want every home-maker—every newly-married couple—every person in need of housefurnishings—to know of and participate in this tremendous saving event!!!

We slash prices, not only to clear away the odds and ends of our heavy stock, but to again go into the markets and buy in advance of another rise of prices, and to do this requires money. Every dollar you spend in this store NOW means that you will have an opportunity to buy below the market here again at some future time but not at present prices.

It is like putting money in the bank—you reap the interest and your investment is safe, for you will have the goods and you will enjoy the use of them.

You must hear these wonderful Records to realize what magnificent music they make. We have a complete stock of these Records, including the very latest music. Price 50 cents each.

"Well, Say! I Thought You People Quit the Tire Business!"

A customer said to us a few days ago—and the remark opened our eyes.

We have never quit the tire business. We did "close out our stock," and so advertised.

(We have no money in it now, but we represent some of the best tires made and we back them up because we are backed.)

No knocking of our tires goes, for if the tire does not go as guaranteed we make it go. Firestone, Republic, Diamond, Kelly Springfield and others.

ATHENA, OREGON

The Farmers Bank of Weston

Established 1891

One hundred thousand people subscribed to England's first war loan of \$1,750,000,000.

After three years of grim war, eight million people in England subscribed to their great FIVE BILLION Victory Loan. If the people of the United States had subscribed to the Liberty Loan in the same proportion, there would have been twenty million subscribers and the amount would have been fourteen billion instead of two billion.

This is to show what can be done and what we will be expected to do.

Begin saving now for the next loan, which will probably be called for within three months.
