Frank Pries put his foot on the wrong lever of his Ford car the other day while driving to the Weston elevator. The little "flivver" gallantly responded by plunging down two steep embankments and bringing up against a fence. Later it climbed the hill again under its own power, with neither itself nor its driver any the worse for their stirring adventure.

Jim Turner fired his scatter gun Monday night in the general direction of the constellation Ursus Major, and a gang of raiders in his melon patch thought that the Germans were coming. Jim says that the urgent manner in which they departed through and over the wire fence was better than a comedy. They had only picked three melons, and these they dropped as they ran and climbed. Having enjoyed a hearty laugh at their expense, Jim now invites the boys back, and says he will give them all the melons they want to carry away.

Wheat is \$2.20.
