## Fill In Picture Puzzle No. 20

Of course, children, the last picture you drew was that of a plow. If it wasn't for the plow and the farmer we wouldn't have much to eat, would we? Now, sometimes the farmer is away, and when his wife is alone she feels safe when she looks at the little place built near the farmhouse. This place is like a fort for the farm. You bet tramps keep away from it. They know they'll get a warm reception if they venture near. Start your pencil at No. 1 again and let it run to 2, 3 and 4, and so on.

## GERARD SAYS THE GERMANS HATE US

Portland, Or.—When the American troops encounter the Germans they will wield the bayonet with a full realization of the fact that to become a Prussian prisoner is not the least of the woes that may befall a soldier of democracy.

Such is the opinion of James W. Gerard, ex-ambassador to Germany, who addressed the citizens of Portland at a mass meeting here Monday. "Germany has an unlimited capacity for hate," said Mr. Gerard. "Because the British came into the war, contrary to their expectations, the British prisoners were treated with great cruelty during the first few months of conflict.

"For the same reason the first American soldier to be taken prisoner by the Germans will have a very hard time. Germany hates America, as she hates Britain, for this country's unexpected entrance as her foe."

Every resource of the nation must be strained for victory if America is to be freed from the menace of Prussianism.

"One thing I wish to impress upon all," he said with emphasis, "is that Germany still is extremely strong, and that the only way she can be beaten is by an actual military effort in the field."

Hoover, the food administrator, in an announcement setting aside the week of October 21 to 28 for completion of the campaign to enroll the country's housewives as volunteer members of the food administration.

Food, Mr. Hoover declared, will win the war. Its conservation is a duty, he says, of necessity, humanity and honor. The food administration plans a house-to-house canvass of the country's homes to accomplish the enrollment of householders. The foods most necessary to save, it is declared, are wheat, beef, pork, dairy products and sugar and those that should be used most generously are fish, poultry, fruit, vegetables and all cereals except wheat.

At the same time he pledged Japan not to attempt similar aggressions on her part.

"Circumstances for which we were in no sense responsible gave us certain rights to Chinese territory," Viscount Ishii said, "but at no time in the past and at no time in the future do we or will we seek to take territory from China or to despoil China of her rights.

## CONGRESS ADOPTS BIG WAR TAX BILL

### Excess War Profits and Incomes Are Chief Sources of Revenue.

Washington.—Congress finished its work on the great war tax bill late Tuesday when the senate, following the example set Monday by the house, adopted the conference report without a vote. More than two and a half billion dollars of new taxes are levied by the measure, which has been in the making since last April.

As finally drafted after one of the longest and most strenuous struggles in congressional history, the revenue bill, which was passed by the house May 25 and by the senate after a month's debate, September 10, draws principally upon income and war excess profits. As passed by the house, it totaled \$1,808,000,000 and the senate raised it to \$2,416,000,000. The conference draft increased the total assessment by about \$750,000,000 over the house and \$128,000,000 above the senate.

The bill now is estimated to raise about \$850,000,000 from incomes, corporate and individual, and about \$1,000,000,000 from war excess profits. Other major levies are \$300,000,000 on tobacco; about \$275,000,000 on liquors; \$70,000,000 on first-class mail; \$40,000,000 on automobiles; \$77,500,000 on freight transportation; \$60,000,000 on passenger transportation; \$32,000,000 from stamp taxes and \$40,000,000 from amusement admissions.

Elimination of consumption taxes on sugar, tea, coffee and gas, electric and telephone service, together with house taxes on 1916 incomes and a general 10 per cent tariff levy were features of the evolution of the bill.

## SECOND LOAN IS OFFERED

Liberty Bond Subscriptions Are Expected From 10,000,000 Individuals.

Washington.—The second Liberty Loan campaign opened Monday. For four weeks the entire nation will be a recruiting ground for money with which to carry on the war.

To obtain \$3,000,000,000 in subscriptions, the minimum set by treasury officials for the issue, a gigantic machine of many parts was set in motion with the opening of the campaign. Fifty per cent greater than the first Liberty Loan, the present offering is the largest the American people ever have been called upon to absorb.
