Better lay in your supply of winter needs before it is too late. Our stock is complete and prices far below our competitors'. Be one of the many who are taking advantage of our low prices. Most of our Fall supplies were bought on market conditions existing six months to a year ago, and our prices in many cases are lower than the small merchants are paying today.

"Italians Are Holding Fast"—headline. Which is better far than running fast.

Wilson and Roosevelt has each lost the sight of one eye, but each is able to see pretty well out of the other.

The average country editor may not be a heavy bond investor, but he is at least financially able to Hooverize.

It being "more blessed to give than to receive," there is certainly ample opportunity now-a-days for blessedness.

Taxpayers of Weston district should make it a point to attend the school meeting announced for November 24th at two-thirty o'clock at the school house and vote on the special tax required in accordance with the budget printed elsewhere. Weston has a good school, and doubtless the directors would appreciate a little encouragement from their fellow taxpayers toward running it properly.

The Bulldogger ed. boasts of having shaken the hand of the vice president, but the public knows that Tom Marshall didn't know exactly what he was shaking hands with.

Late reports indicate that Russia balks at jumping out of the fire into the Pan-Germanic.

IT DESERVES HELP

The Leader is moved to print the following appeal sent it in behalf of a deserving institution:

The annual Thanksgiving appeal made by The Boys' and Girls' Aid Society of Oregon to the school children and citizens of the state has always met with enthusiastic response from teachers, pupils and friends throughout Oregon. It is to be hoped that a similar appeal for food supplies and money will not go unheeded in spite of the many duties and economies which the war incurs.

The Society is practicing every legitimate economy, but with its receiving home full to capacity, to say nothing of a waiting list, and with the price of milk three times what it was last spring, with a constantly decreasing income, The Boys' and Girls' Aid Society cannot function to the best of its ability

without the support of its friends in the schools and of the public in general.

The Society is asking for \$15,000 as well as donations of canned fruit and vegetables. Such supplies will be shipped free of charge by the railroad companies to the organization until December 31.

Even Frightfulness is failing the Kaiser, his submarine campaign having proven an acknowledged fizzle.

We are not such a frenzied lover of liberty as not to wish that Mr. Romanoff had continued until after the war as Czar of all the Russias.

It is the sheep killing dogs that put the "mutt" in mutton.

Perhaps before the war is over the popular slogan will be "Swat the spy."

Autocracy is as wise as serpents and as harmless as 42 centimeter guns.

If passing events do not make geography interesting the case is hopeless.

Horrors! Here's another thing to worry about. There are no clothespins in China.

There are a few people in this country who cannot figure out that it takes money to run a war.

THE RED CROSS

Weston Branch of the Red Cross has been asked to raise \$35 additional for the Soldiers' Christmas Fund, making \$85 in all.

This must all be raised by Tuesday evening, November 20. Those wishing to contribute will please place their offerings in the boxes or see any of the Red Cross officers. The Benefit this evening should be largely attended, as the proceeds all go to this fund.

A Market Bazaar and Supper for the benefit of the Red Cross will be held at the opera house on the afternoon of November 24.

Supper at 35 cents per plate will be served from five o'clock until all are satisfied.

The band has kindly consented to furnish music during the supper hour.

This will be an opportunity to purchase your supplies for Thanksgiving.

Everything in the way of catables—meats, poultry, apples, potatoes, vegetables, canned fruit, butter, eggs, cooked foods—will be acceptable, as will also aprons and fancy articles for Christmas gifts.

Let us respond liberally when called upon by the different committees. Come and eat supper and buy as generously as your means will allow. We must give and give and then be thankful we are alive and able to give—for it has been said that the early termination of this war depends on the money and supplies we send to Europe.

British naval officers say that the American destroyers are doing efficient work and teaching Britishers ways of accomplishing results of which they had not thought.

Having triumphed in the vegetable kingdom, the war gardener leans on his trusty hoe with the air of a conqueror and casts a speculative glance at the brooding hen.

A boy's dog is never a mollycoddle. He's a running-jumping-fighting example of life, liberty and pursuit of cats, and would resent having his nose kissed by painted lips.

American ambulance drivers have been awarded the French war cross for gallant conduct in danger. Yet some people seem to think an ambulance driver runs no risk.

A lot of small men with gruff voices are going to be placed at a disadvantage if that invention whereby telephone users can see the persons they are talking with is ever perfected.

The Kaiser proposes to make an independent federal state of Alsace-Lorraine, and maybe he could be induced to grant autonomy to Texas, Arizona and the other "lost provinces of Mexico."

It is fortunate for some publications that women are not conscripted and murders are still committed. Otherwise the sob sisters and the headline experts would have to turn their talents in other directions.

It is beginning to be realized that manufacturers who thought this country could not get along without dyestuffs from Germany were unduly apprehensive. It's always a mistake to bet against the United States.

CITY TO COMPLETE WALK; NO ELECTION THIS YEAR

At the special council meeting Saturday evening no bids were submitted for the remainder of the concrete sidewalk on Main street.

The recorder was thereupon directed to notify all the property owners interested that the city will do the work and charge its cost as a lien against the property.

The city has already put in a large share of the walk under the direction of Councilman R. G. Saling, whom the council has authorized to continue in charge. Excellent work was done and the property owners were charged for it at the actual cost of the work only. Saturday evening's action of the council therefore meets with the approval of those whose walks remain to be constructed. Work was begun Monday on the walk leading up west Main street hill on the north side of the street.

No city election will be held this November. Homer I. Watts of Athena, to whom the matter was submitted, advised the council that the present city administration holds over until November, 1918, when the city election will be held on the same day as the general election. This is in accordance with the law passed by the people under the initiative at the last general state election.

Nature's laws remain unchanged. A grade crossing won't give passage to a railroad train and an automobile at the same time.

Father needn't feel worried, even if trousers become the fashion for women. Mother won't be satisfied with the kind he wears.

American pacifists are finding it increasingly difficult to secure a meeting place in any American city and they seem not to go to Germany.

That idea of cultivating rabbits for food gets a bit of a setback when Australians report that ten rabbits eat as much as one sheep.

Having made a good thing out of flag-price boosting, we presume that the cheerful speculators will soon take up khaki as a side line.

Last year America exported nearly \$100,000,000 worth of automobiles. "Made in America" will be the new favorite brand after the war.

Washington reports a shortage of one and two-dollar bills in some parts of the country—and it might add of fives, tens, twenties, etc., also.

Why wouldn't the women make excellent material for auto drivers at the front? A mother who has handled a baby buggy hasn't very much to learn.

A patriotic American has offered \$1,000 to the first American airman who drops a bomb on Berlin. The Kaiser would also give \$1,000 for him dead or alive.

When a pretty girl announces her intention of desiring to become a Red Cross nurse it is even money whether she is truly patriotic or she wants a hero husband.
