THE McCORMICK HARVESTER COMBINE IS NOW A GUARANTEED SUCCESS - - WE EXPECT TO HAVE A SAMPLE SOON

It is run by two men. Cuts 9 feet wide, 15 to acres per day, using 8 horses. Does clean work in all grain and pays for itself in two ordinary crops.

Can you beat it? Can you equal it with a big combine?

Wouldn't two of these beat a big machine? If one meets with accident only two men are idle, and the other machine is still doing business.

On grain tanks for both wagon and field storage we are ready to give you figures that do the business. Come and see.

Boy Scouts Are Active

The boy scouts of Weston are coming to the front and making good, according to S. E. Powell, scoutmaster, who says:

"We now have a troop of fourteen fine boys from twelve to fourteen years of age, full of life and anxious to do something. And when President Wilson called on the boy scouts of the country to help him get into the homes of the people the literature he wanted them to have, our boys took their share of the job with a will that it would do your soul good to see, and succeeded in distributing about 200 copies of the President's Flag Day address.

"Now, friends, these boys are bright, cheerful, manly youngsters, and this is a great work. We ask the support, both moral and financial, of all our friends."

The Leader is on a cash basis and wants no patronage on any other terms. Its own bills, which are not inconsiderable in these times of war prices, must all be met in cash, and it is not in a position to extend credit. Clark Wood, publisher.
