

Home Furnishings

Increasing attention is being devoted to the harmonious furnishing of the home; to the quality of material, the color arrangements, the grouping of the furniture, the planning of the draperies and the choosing of the rugs; always having in mind the suitability of everything entering into the assemblage, whether furniture, floor covering or decoration.

It is because this store studies the home that we can render efficient help in the planning of its many delightful features. Immense stocks for your selection.

The Weston Milling Co.'s mill is running night and day, having an active demand for all its products from Baker, La Grande, Walla Walla and Pendleton. Its barley flour is proving especially popular. Manager Robbins has plans in view looking to increased power and capacity. An immediate addition to his equipment will be a Buckley finishing machine for barley and rye flour and corn meal. This is now on the way, as is also a shipment of choice eastern corn.

The farm survey for Weston and nearby school districts has been completed under the direction of J. H. Price, with the perfect score of 100 percent. Every farmer in the territory assigned to Mr. Price has turned in his questionnaire. He was assisted by S. A. Barnes, Sim J. Culley and Frank Price. Fine progress has also been made on the Weston uplands by Will Hall and W. L. Rayborn and on the Reed and Hawley uplands by W. L. Smock and Alex. McCorkell.

Some 600 Odd Fellows had an all night session and an exceedingly enjoyable and interesting time during the recent district convention at Stanfield. The Pendleton team won first honors in the degree work, in which Weston was the fifth and last team to compete. One of the individual prizes was awarded to the Weston warden, Ross King, and the locals had the highest percentage in drill work. Two Weston members, W. H. Gould and Jack Calder, were honored with appointment among the officers of the next convention.

WATTS & ROGERS

While driving up from Pendleton the other day Frank Greer slid with his "Lizzie" off the grade. After reciting "Now I Lay Me," which was the only prayer he could remember, he was surprised that to find that he was not fatally injured. Later his surprise merged into gratification and confidence when he discovered that he hadn't even suffered a scratch and that the faithful little Ford didn't even have its windshield broken but was lying placidly intact on its side. A rock in the road had turned it over the embankment.

The Saturday Afternoon Club met Saturday, February 23, with Mrs. E. C. Rogers—Mrs. W. A. Graham and Mrs. Rogers being the hostesses. Russia was the subject of the afternoon's study, and all present contributed to the program. "The Long, Long Trail" was sung by Mrs. E. M. Smith. Dainty refreshments were served by Mrs. Carmichael and Mrs. Goodwin. The club's next regular meeting will be held March 9 at the home of Mrs. Frank Graham. Roll call will be answered with conundrums.

The Old Folk's service at the Methodist church Sunday was enjoyable and successful. The Epworth League got behind the movement and succeeded in bringing a number of elderly people to the service who had not been "out to church" for some time. The special song service included a duet by Mrs. E. M. Smith and Miss Ruth Read and a solo by Mr. O. B. Needham. Pastor Powell gave a short sermon on The Faith of Our Fathers.

Weston's Second Annual Chautauqua Festival, staged by the Ellison-White System, starts today under the most favorable auspices. A sufficient number of season tickets have been sold to put the local guarantors well in the clear, and the opera house capacity in reserved seats was sold by Frank Price. The splendid attractions offered by the Chautauqua will thus be assured of big audiences.

Paul M. Warburg of the Federal Reserve Sys-

"Any unnecessary consumption of goods,
and any unnecessary use of credit, saps and
weakens the fighting strength of the na-

This does not mean "slow up," but it does mean
"use up" (not throw away) any surplus before ask-
ing more; and to not start any new enterprise that
will use money and labor unless such enterprise is a
necessity and will assist in winning the war.
