The news that Weston has subscribed its quota of War Savings Stamps, \$27,500, will be telegraphed to headquarters this evening by S. A. Barnes. The exact figure was not available for publication today, but it is thought that Weston district will be well over the top when the cash purchases and pledges are all totaled. Weston mountain bought double its quota of War Savings Stamps.

That there will be lots of good wheat in this section of the county, is the opinion of leading farmers in touch with local conditions. This applies to fall-sown wheat, the spring crop being problematical. The yield will not be large, ranging from thirty to forty bushels per acre, but the quality promises well. Spring sown wheat on summer fallow will probably make a crop, but spring sown barley on spring plowing—of which there is a considerable acreage—is regarded as almost past redemption. Green aphids has done much damage to this cereal, and weather conditions have been wrong for it this season.

The following from the Stanfield Standard shows why Hermiston and Stanfield farmers want an open season on China pheasants: "Jim Kyle has enjoyed every minute of the past week, for the warm sunshine has added several inches to his corn crop and he can see visions of a bountiful harvest. His only trouble is the China pheasants that persist in consuming the tender sprouts and scratching up the grain. He was compelled to hire a man to herd the birds out in the alfalfa fields for a few days, until the corn got beyond their reach."

The Sunday school of the Baptist Church has accepted an invitation to attend in a body the dedication of the new church at Gardena on Sunday, July 7. Rev. W. R. Storms will conduct the afternoon service there. There will be no services in the Weston church on that day.
