One of the new McCormick combines sold in this district by Watts & Rogers will be started the last of this week at the Clarence Walters place on Dry creek. Several of the machines have been used this week as stationary separators in the threshing of bundles, and have done good work. George Nesbitt and John McGibbon, who assembled the machines, are also starting them up for the different purchasers. Twenty-five McCormicks have been sold by Watts & Rogers, and will be a large factor in making quick work of the Weston harvest.

Hyman Cohen, market editor of the Oregon Journal, was in Weston Wednesday while on his annual automobile tour of the grain belt. Even in the light land district around Pilot Rock there will be more and better grain than some people seem to imagine.

A car driven down the mountain by Fletcher McAuslan, who was accompanied by Fred Sams, collided Tuesday with a horse ridden by a Mr. Redfern of Milton. Mr. Redfern was leading another horse and could not get out of the way of the motorists, who were coming at good speed. The horse he was riding was knocked down and had a leg broken, so that it had to be shot. His own back was wrenched. The accident happened not far from the Blue Mountain sawmill.
