ATHENA, OREGON

The Farmers Bank of Weston

Established 1891

Although the war may be practically over insofar as hard fighting and heavy sacrifice of life are concerned, still the need of funds is great; and the banks have already been asked to subscribe heavily to Treasury Certificates in anticipation of the next liberty loan. It will therefore be necessary for all to conserve their credit, and prepare for the next loan.

ORDINANCE NO. 258

An Ordinance to Protect the Public Health and to Prevent the Spread of Infectious and Contagious Diseases.

The People of the City of Weston do Ordain as follows:

Section 1. There is hereby established a board of health consisting of the mayor, the active members of the committee on health and police and the city physician, which last named officer shall by virtue of said office be the health officer of said city.

Sec. 2. The board of health may, whenever it shall be deemed necessary, employ any physician of skill and experience other than the city physician, temporarily, to visit and examine any person sick of any contagious, epidemic or infectious disease, or to certify to the cause of the death of any person, and to advise said board in any manner relating to the health of the city. Such physician shall receive such compensation for said service as the common council of the city may consider reasonable.

Sec. 3. The city physician shall examine or cause to be examined all cases of Spanish influenza, Asiatic cholera, smallpox, variola, leprosy, diphtheria, scarlet fever, typhoid fever, puerperal fever, measles and other infectious or contagious diseases brought to his notice and report the result of this examination to the board of health; and the mayor shall call a special meeting of said board for the consideration of said report whenever in the opinion of the city physician immediate action should be taken thereon to prevent the spread of disease. The city physician shall be vigilant and active in causing the removal of all causes of disease within the corporate limits of the city, and he and the city marshal and police shall see that all persons violating any of the provisions of this ordinance are duly prosecuted.

Sec. 4. Every practicing physician in this city shall immediately report to the city physician in writing every patient he may have known to be sick with Spanish influenza, Asiatic cholera, smallpox, variola, leprosy, puerperal fever, typhoid fever, diphtheria, scarlet fever, measles or other dangerous, infectious or contagious diseases, and shall also make a like report of every case of death from any such disease immediately after it shall have occurred.

Sec. 5. It shall be the duty of every householder in the city to immediately report in writing to the city physician the name of every person boarding or living at his or her house whom he or she shall have reason to believe to be sick of Spanish influenza, cholera, smallpox, variola, puerperal fever, scarlet fever, measles, leprosy, diphtheria, typhoid fever or other dangerous, infectious or contagious diseases, and to immediately report any death occurring at his or her house, from any cause, to the city physician.

Sec. 6. It shall be and is hereby made the duty of the owner or occupant of every house, store, building or tenement in the city, when any person therein may be sick with any of the infectious or contagious diseases mentioned in this ordinance, to give immediate notice to the proper authorities, and the city marshal at the request of the city health officer shall post in a conspicuous place on the premises such placard as he may direct, the letters upon such placard not to be less than three inches in height; such placard to remain upon said premises in a conspicuous place until removed at the request of the health officer in charge.

Sec. 7. No person having any infectious or contagious disease as enumerated in this ordinance shall go out in public, or pass from house to house, or building to building, or appear in any street, alley or other public place in this city until he or she shall have first obtained a written permit of the city physician to the effect that he or she has so far recovered from such disease as to preclude all danger of infection or contagion from such person. And if the city marshal shall see or be informed of any person who is then violating this section it shall be his duty to at once cause such person to be taken to his or her place of residence, if within this city, and if such residence is not within this city, to such place as the city physician or board of health may direct.

Sec. 8. The occupant of any house, store, building or tenement in said city wherein any person may have been sick with any infectious or contagious disease mentioned in this ordinance shall, upon the death or recovery of such person, disinfect or destroy by burning the clothes worn by such person during such sickness, and shall cleanse and purify

the room and house, store, tenement or building in which such sick person was confined, under the direction and supervision of the city physician or such person as the board of health may appoint thereto.

Sec. 9. No person attending upon or otherwise coming in contact with any patient in this city sick with any of the infectious or contagious diseases mentioned in this ordinance, or any occupant of such place or places as may be infected with such diseases, in such manner or to such an extent as to render him liable to communicate the disease, shall go upon any public street or in any manner mingle with the people of the city except by the permission of the health officer.

Sec. 10. It shall be the duty of the city marshal and the police of this city to at once report any known violation of this ordinance to the mayor and the city physician.

Sec. 11. Any person who shall violate any of the provisions of this ordinance, shall on conviction before the city recorder, except as herein provided, be fined not less than \$25, nor more than \$100, and in addition to said fine may be imprisoned in the city jail not more than twenty days for each offense, in the discretion of the city recorder.

Sec. 12. In case any fine imposed by the recorder for the violation of any provision of this ordinance shall not be promptly paid, the person so fined shall be imprisoned in the city jail one day for every two dollars of such fine; but in no case shall such imprisonment exceed twenty days.

Sec. 13. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Sec. 14. An emergency is declared existing, and this ordinance shall take effect and be in force from and after its passage by the common council and approval by the mayor.

Passed the common council this 6th day of December, 1918.

Approved this 6th day of December, 1918.

J. M. BANISTER, Mayor.
J. W. PORTER, Recorder.

Whatever is necessary America will send. That was America's pledge to the interallied food council. And because the American food army had hitherto made good they took heart and went forward.

Farm enterprise and much soft corn increased pork supplies, food conservation increased exports—total shipments doubled.

MEN FROM OREGON OFFICIALLY HELD NATION'S CLEANEST

Surgeon-General Blue Wires Fact is Disclosed in First 1,000,000 Camp Reports.

Only Fifty-nine Hundredths of One Per Cent Found to Have Venereal Disease on Arrival at Cantonments.

Surgeon-General's Official Telegram

Oregon Social Hygiene Society, 720 Selling Bldg., Portland. A tabulation of one million reports first received from camp surgeons throughout the country shows that Oregon leads the country with a rate of fifty-nine hundredths of one per cent found to have venereal disease on arriving in camp. It is hoped that Oregon can continue vigorous measures in combating venereal diseases during the period of demobilization and thereafter.

RUPERT BLUE.

Oregon men, called to the colors during the greatest of all wars, were physically the cleanest in the entire United States Army.

Such is not the mere boast of any citizen of this state, backed only by a high sense of local pride, but it is the established record of the United States Army, communicated to the Oregon Social Hygiene Society by Rupert Blue, Surgeon-General, thus giving it the greatest possible weight.

As will be seen by perusal of the foregoing telegram from Surgeon-General Blue, a tabulation of 1,000,000 of the first reports received from camp surgeons places Oregon in the lead with a rate of fifty-nine hundredths of one per cent (which means less than six men to the thousand), or, compared with another wire from him, this state's standing is but a fraction lower than 18 times ahead of the state with the highest per cent of infection, which was eight and nine-tenths per cent (eighty-nine men to the thousand).

This constitutes one of the grandest and proudest records of the whole war period and, great as has been this state's part in all patriotic endeavors, nothing could fill the hearts of its people with a higher degree of pride than the official acknowledgment from the National Capital that Oregon's men stood far and away above all others in clean manhood.

"That the work of the Oregon Social Hygiene Society, carried forward for but seven years, should produce such magnificent results, is a subject of the most gratifying kind to the entire Board," said Executive Secretary Cummins. "Every one of the men who have worked so hard to bring about the result regard this official notification from the Surgeon-General as a complete vindication of the program sought to be carried forward in this state. That the public will respond to sane, clear facts, rightly presented, is also demonstrated beyond doubt. Educators, who have assisted greatly in the work, may well feel that young men under their tutelage will absorb the benefit to be derived from information along physiological lines, rightly administered. Parents must now see plainly that their children should have the truth as to their physical beings and that, having this untold good will result."

"Future generations, following, are bound to demonstrate the benefits of Oregon's clean manhood, as set forth officially," commented A. F. Flegel, president of the Society. "This record cannot be overestimated. It is a glorious achievement."

"The full significance of the official announcement from Dr. Blue is difficult to grasp," said Adolphe Wolfe, treasurer of the Society. "Dealing as it does with human life and morals, it is, in a larger sense, more important than many other achievements, not to detract one whit from any of them. At the outset, many good people doubted the ability of the Oregon Social Hygiene Society to accomplish worthwhile results. I think now, however, no further comment need be had. Surgeon-General Blue's telegram is sufficient."

Lieutenant-Colonel P. C. Field, division surgeon of the 91st Division at Camp Lewis, has officially credited the splendid record made by Oregon men to the educational work that has been and is being done by the Oregon Social Hygiene Society.

SUMMONS

In the Circuit Court of the State of Oregon for Umatilla County.

Addie A. Beno, Plaintiff, vs. Joseph (Joe) Beno, Defendant.

To Joseph (Joe) Beno, defendant above named:

In the Name of the State of Oregon, You are hereby required to appear and answer the complaint of the plaintiff filed against you in the above entitled court and cause within six weeks of the date of the first publication of this summons, namely, on or before the 27th day of December, A. D. 1918; and you will take notice that if you fail to appear and answer said complaint or otherwise plead thereto within said time, the plaintiff, for want thereof, will apply to the above entitled court for the relief prayed for and demanded in her said complaint, namely, for a decree forever dissolving the bonds of matrimony now and heretofore existing between the plaintiff and defendant, and for other equitable relief.

This summons is published pursuant to an order made and filed herein the 8th day of November, 1918, by Honorable Gilbert W. Phelps, Judge of the Sixth Judicial District of the State of Oregon. The first publication will be made in the Weston Leader newspaper on Friday, the 15th day of November, 1918, and the last publication will be made on Friday, the said 27th day of December, 1918.

Dated this 8th day of November, A. D. 1918. WILL M. PETERSON, Attorney for Plaintiff.
Residence and Postoffice address: Pendleton, Oregon.
