THE DEAL IS CLOSED—THANK YOU

When we were approached to purchase the Henry Barrett stock of implements, etc., in Athena, we had little faith in the deal going through.

On investigation we found the stock of excellent quality and that it will blend nicely with our present stock and lines we have here. Taking over this Athena stock enables us to serve our patrons the better, and hereafter you will find us on both sides of the hill and with bargains in all lines at all times.

To our John Deere and Flying Dutchman plows we now have added the Oliver and P. & O. plows.

To our Weber and John Deere wagons we now have added the Mitchell and Bain wagons.

To our Kentucky and Van Brunt drills we have added the Superior and Thomas drills.

To our McCormick and Deere binders we have added the Deering.

We will try to keep all essential repairs on hand and you are likely to meet our special General Salesman at either door.

(Some of you may have wondered why E. C. R. has been growing more corpulent of late months—you now have the solution in the evident desire to cover more territory.)
