Everybody knew the "Empire Builder," James J. Hill. See what he says on thrift:

"If you want to know whether you are destined to be a success or failure in life you can easily find out. The test is simple and it is infallible. **ARE YOU ABLE TO SAVE MONEY? IF NOT, DROP OUT. YOU WILL LOSE.** You may think not, but you will lose as sure as you live. The seed of success is not in you."

At a meeting of pioneer reunion committees Wednesday E. O. DeMoss was elected general chairman and will be the executive head of the picnic—on whose broad shoulders will rest considerable responsibility. S. A. Barnes was chosen secretary. The usual expense budget was made out from estimates turned in by the committees. General confidence was expressed that the coming reunion will be in all respects a hummer. The dates are Friday and Saturday, June 6 and 7.

Local observers were somewhat interested this week in the movements of Mayor Banister while burning off his stubble. Hitching his harrow to a long chain, he attached the other end of the chain to his automobile and dragged the harrow around the field, carrying burning straw as he went. There are those who say that if the wind had happened to veer suddenly and something went wrong with his car, the car might have gone up in smoke and the mayor himself been scorched a bit. But nothing like this happened, and the stubble was disposed of in short order.

Veteran farmers say that fall-sown grain in the Weston country doesn't need rain especially just now, but that moisture later on will be appreciated. A good stand of wheat, but likewise of weeds, is reported. Spring-sown and resown wheat would profit by rain at the present time, according to some observers. Others aver that dearth of rain is not an unmixed evil, as instead of spreading out the grain roots will go down in search of moisture. And now let the weather gods sit up and take notice as to what is and what is not required.

The Milton Eagle reports that H. L. Frazier has purchased 960 acres of farm land six miles west of Lone in Morrow county, paying therefor the sum of \$19,680, or \$20.50 an acre. The land is unimproved other than being farmed a few years ago.
