

Honest Overhauling

OCCASIONAL overhauling is an important part of the care of your car. There are few mechanisms more delicate than the engine—more responsive to proper attention.

A distrust of the men to whom he must trust his car often leads the motorist to neglect necessary overhauling. It is not so with our patrons. Their confidence in us is a matter of course. It is never abused.

Proper Work Properly Priced

Everything needed is done. Nothing unnecessary is done. Whatever is done is done skillfully and promptly. The result is satisfaction to you.

We welcome any job—any investigation of either our methods or our prices.
