### WESTON SCHOOLS

The eighth grade has been enjoying the Edison. For a change, the pupils have been bringing records from home, so their pleasure is greater than usual.

Last Friday afternoon, the eighth graders took an hour off from school work and industriously washed the windows. They consider the time well spent.

Last week was examination week, in the grades and in high school. The pupils seem to dread the examinations, and are truly glad when they are over.

The third graders took their first examinations. Of course, the exams are short, but the pupils find them quite a novelty.

Henry Dowd, one of the seniors, has been absent for three or four days.

High school students found it especially hard to study during the Chinese pheasant season. Several of them went hunting and a few were successful in "getting" a pheasant or two.

The senior class regrets to part with William Wriggle. He has been in the class since it entered high school, and is sorry that he can't graduate with the rest.

Terence Terhune, who has been quite ill, is improving.

The sophomore class has organized with the following officers: Harvey Lundell, president; Maynard Jones, vice president; Eva Lundell, secretary and treasurer; Eldon McIntyre, sergeant at arms.

The school library has taken a new aspect since the books have been replaced in their proper places. New books have been ordered and a place has been made for them.

Ruth Vanderpool, a popular sophomore girl, left Sunday for California. The party is driving through in a car and expects to be two or three weeks on the road. Ruth will attend high school in California.

### Jewish Relief Worker Finds His People Living in Holes in Polish Town.

New York.—Typical of the condition of Jewish communities throughout Poland and adjacent countries is the story of Brest-Litovsk, as recounted by Dr. Boris D. Bogen, executive director of Jewish relief work in Poland, in a report received recently at the headquarters of the American Jewish Relief Committee, 15 East 40th street, here.

The population of the town where a couple of years ago the Germans tried to dictate a "peace of violence" to the Russians is now reduced to about 25,000. Of this number 18,000 are Jews, writes Dr. Bogen. So complete was the war time destruction of the town that most of the people are forced to live in mere holes in the ground. There is a semblance of a hospital without windows, doors or means of heating, but so prevalent are typhus, tuberculosis and other diseases brought on by malnutrition that this institution, like all other Jewish hospitals in eastern Europe, is overwhelmed.

"The Jews of America," writes Dr. Bogen, "must take immediate steps to provide for the housing, clothing and feeding of the thousands of destitute Jews in eastern Europe. It will require considerable additional funds to re-equip the hospitals, old folks' homes and orphanages that the Jews have maintained throughout Poland to care for their sick and poor, but these institutions must be gotten into shape for the coming severe winter."

"The people are in a terrible condition everywhere, and in great need of the very necessities. Homes throughout this region are entirely destroyed for the most part. Refugees who months or years ago were evacuated from the cities are now returning. There is practically no work for them, however, and they are in direst need."

To provide the funds for remedying these terrible conditions, the American Jewish Relief Committee, under the chairmanship of Louis Marshall and the directorship of Henry H. Rosenfelt, is now engaged in conducting a series of state campaigns throughout the Union. The total amount estimated as necessary to finance the essential relief work for another year is \$35,000,000.

How would you like to be a postman while the government is delivering those 125-pound food packages?

The question is, what did the profiteers expect under the circumstances—a distinguished service medal?

Even the wisest of the economists have not yet figured out how strikes are going to reduce the cost of living.

A pedigree with each article showing what it cost the manufacturer, the jobber and the retailer might help some.

Even if you have lost your food-saving cards, you can no doubt recall the subject matter and act accordingly.

Milk profiteers do not care how the babies find 15 cents a quart for milk, knowing that the babies must find it or starve.

Cutting a pie into seven pieces and charging 15 cents a portion should tend to popularize ice cream and pudding.

Think of a ten-story automobile hotel, and old Dobbin in all his years of faithful service never saw a ten-story livery stable!

Department of labor statistics report the first decline in food prices—one-half of 1 per cent. Can't they make it 2.75?

Remains of a man 32 feet tall were discovered in Mexico, and he must have been pretty long in the ground.

Although deeply and continually moved acent h. c. of l., we are yet unable to work up much sympathy for the bald-headed man over the increased cost of a hair cut.

High cost of material and labor difficulties are combining to make the book problem a serious one. If labor conditions do not improve, book buying will be very difficult. Harper Brothers, the Century Company and the Scribner Company threaten to go out of business if their expenses increase.

Congress cannot repeal the law of gravitation; cider apples are falling, and there is bound to be some cider.

Wise is the Weston citizen who has laid in his winter coal and paid his subscription to the home paper for a year in advance.

Citizens of Weston should know that the best place to do their boosting is at home. It is a fine thing to go away for a little visit and boast of the many good points of your community, but the remainder of the time—when not visiting—be generous with your praise right here and now, that your neighbor may hear and feel encour-

aged thereby. One good way to help a little would be to visit the school in which the young people are seeking an education, and boost the morale of that institution. Call on the teachers in whose hands the children are entrusted, and show your recognition of the good work they are doing. Boost here at home and let the school feel some of the inspiration of your hopeful and helpful spirit.

Turn back the hands of your clocks and watches October 26, or thereafter you may not have the time.

A brilliant aurora was observed here Wednesday evening. In witnessing the changing lights and fantastic shapes, spectators recalled the lines from Burns:

But pleasures are like poppies spread,  
You seize the flower, its bloom is shed;  
Or like the Borealis race,  
That flits ere you can point its place.

Boston poultryman promises to produce a super-chicken, but we think we've seen her already.

It is reasonable to observe that the woman who can make a toothsome pumpkin pie renders her husband immune to the wiles of any designing vampire.

A girl doesn't like the idea of working for a living unless she is married to a shiftless man.

Thinking up issues for the 1920 campaign naturally becomes a fascinating occupation at this time.

It is a poor hand, in these profiteering times, that does not contain at least one accusing finger.

If your war garden is in good condition it should help very materially to swat the high cost of living.

There is blame enough for all. No one profiteer or set of profiteers should be permitted to monopolize it.

The ultimate consumer doesn't consume as much as he did, and he is much more ultimate about it.
